## TOWN OFFICERS, 1920.

---

Selectmen, Assessors and Overseers of Poor — Sidney C. Soule, Wendell Phillips, Alfred E. Green.

Town Clerk, Treasurer and Collector—George H. Stearns.

Auditors—Herbert E. Walker, Myron M. White.

School Committee—Albert M. Goulding, Elizabeth A. Phillips, Ralph K. Bearce.

Board of Health—Charles W. Eaton, Eugene E. Covell, Paul C. Peterson.

Constables—Charles S. Pierce, Warren C. Prince, Robert I. Tower.

Cemetery Trustees—Albert M. Goulding, Elisha Peterson, William J. Alden, Henry F. White, John Simmons.

Tree Warden—John D. Morrison.

Forest Warden—Hortense E. Merry.

Moth Superintendent—John D. Morrison.

Fire Engineers—H. E. Merry, J. L. McNaught, H. S. Winslow, C. R. Crocker, L. M. Peterson, H. E. Hartford, C. J. Santheson, C. E. L. Nickerson.

Surveyors of Wood and Lumber—Charles P. Grueby, and Charles E. L. Nickerson.

Field Drivers—J. Knowles Parker, James L. McNaught, Henry S. Winslow, John A. Hunt, Daniel W. Studley, Charles R. Crocker, Edward S. O'Neil, Albert M. Goulding, Walter Cushing.

Undertaker and Burial Agent—Elisha Peterson.

Registrars of Voters—John H. Glover, Thomas W. Herrick, George H. Stearns, Wendell B. Phillips.

Inspector of Animals—Herman H. Delano, Jr.

Inspector of Slaughtered Animals—Charles S. Pierce.

Sealer of Weights and Measures—Charles S. Pierce.

Measurer of Grain—Charles P. Grueby.

Inspector of Lime—Charles P. Grueby.

Weighers of Coal—Charles P. Grueby, Mary Cary, James McKay, Arthur C. Greene, George Simmons.

Fence Viewers—Charles R. Crocker, J. Knowles Parker, Edward S. O'Neil.

Keeper of Almshouse and Pound—Herbert Packard.

Superintendent of Streets—Edward S. O'Neil.

Town Physicians—N. K. Noyes, M. D., Roger Spaulding, M. D.

## REPORT OF THE SELECTMEN

---

Your Board of Selectmen herewith submit a report of their stewardship for the year of 1920:

In accordance with a vote of the town, the road construction and repairs received attention. The Bay Road was completed to the Kingston line with an exception of a fence, which will be built as soon as weather is suitable.

Chestnut Street has been completed. Toby Garden, Elm and Summer Streets have been completed from the Tree of Knowledge to the foot of Toby Garden hill. Operations were then suspended pending an investigation of the material which the Street Superintendent, Mr. O'Neil, criticized as inferior. Cold weather then setting in operations were suspended until spring. The company from whom the material was bought has promised to make good.

The \$30,000 appropriation was inadequate to complete the whole section. On our presentation of the case to the Highway Division of the Board of Public Works, who have always appreciated the lead Duxbury has taken in the good roads movement, they have granted us \$10,000 which will be available as soon as the road is completed.

The work on Josselyn Avenue was delayed until this year, on account of our machinery being worked to its capacity after receiving the asphalt for building purposes.

Massasoit Road and Mayflower Avenue have yet to be attended to.

The relocation of Washington Street from Blue Fish River to Mattakesett Court has been completed without any land damage to the residents along said street.

The painting of the Town Office building was given to the lowest bidder, Mr. George H. Doane, who did the work in a very satisfactory manner.

With regard to the Town House grounds, the impossibility of getting materials, the operations were delayed until it was too late on account of weather, and we thought it advisable to wait until spring.

The World War is over but its aftermath is with us and is very much in evidence in the form of extravagance. We have become infected with this germ disease and the remedy, which is painful and therefore dreaded, is sacrifice. Last year appropriations were granted with a lavish hand in utter disregard of that large number of tax payers living on small fixed incomes who, owing to high prices, have been suffering in silence.

While the town can vote appropriations at will the duty of raising the funds devolves upon the Selectmen who act as a committee on ways and means. We were confronted with the problem of raising, approximately, double the usual tax levy and this we did by readjusting property values, which netted an increase of \$900,000. But even then the tax rate had to be increased to \$24.50, the highest rate ever known in Duxbury.

We wish to thank the tax payers for the kindly and uncomplaining spirit in which they accepted our solution of the tax problem and will now call to their attention that without they practise economy in expenditures this year, the tax rate will be so high that it will bring positive injury to the town, for with rare exceptions properties are valued to the limit.

As individuals nearly all of us regulate our expenses to our income. Let us practise the same principle in town affairs and may we ask the various departments, for this year at least, to make an effort to reduce expenses, and also ask our fellow citizens to cooperate with and encourage the officers of the town in the attainment of this object.

SIDNEY C. SOULE,  
WENDELL PHILLIPS,  
ALFRED E. GREEN,

*Selectmen of Duxbury.*

# FINANCIAL REPORT

## REPORT OF OVERSEERS OF THE POOR

---

The number of inmates in the Almshouse at present is five, with one boarder. We feel that in justice to Mr. and Mrs. Packard we should state that the old and infirm people in their charge receive the best of care.

We hope that with falling prices the expenses of the Poor Department will be reduced.

SIDNEY C. SOULE,  
WENDELL PHILLIPS,  
ALFRED E. GREEN,  
*Overseers of the Poor.*

## REPORT OF THE HEALTH DEPARTMENT.

Last year copies of the rules and regulations of the Board of Health were distributed with the Town reports. In some cases these were read, but in others, were cast aside without examination. This board wishes to impress upon the mind of the householder, that, by law, it is necessary to report all contagious cases immediately to the board. Not only the first case in the family, but those that follow through, such as measles or whooping cough.

We would also call your attention to the expenditures of the board for the year. Of the appropriation of \$750 for the work of the department, \$9.10 weekly, or \$473 for the year has been paid for the maintenance of a tubercular patient at the County hospital. This amount is eventually refunded to the Treasury of the town, by the state, but not credited to the Health account nor is it further available for their use. The board is glad at all times to answer questions or impart such information as they may have. Below is a list of communicable diseases as reported for the year:

Measles,	37
Whooping Cough,	13
Mumps,	3
Chicken Pox,	2
Pulmonary Tuberculosis,	1

PAUL C. PETERSON, *Chairman.*

CHARLES W. EATON, *Secretary.*

EUGENE E. COVELL,

*Board of Health.*

## STREET DEPARTMENT.

To the Honorable Board of Selectmen and Citizens of Duxbury:  
Gentlemen:

The work on the streets during the past year has been accomplished under much difficulty, owing to lack of labor and high cost of the work and materials.

The general highways were put in fairly good condition, repairs being done on all of them, also new guide posts have been replaced where needed and the signs newly painted.

Patching and repairs being needed on all the stone roads, it was attended to, also three miles covered with a seal coat.

There being no appropriation for the maintaining of stone roads, the cost of this work has to be taken from the Highway appropriation.

On the new construction work, over three miles of sand and asphalt road was built. Some of the material purchased did not prove satisfactory and samples of the material and road have been taken by the State Highway Commission to be analyzed, to locate what the trouble is. A seal coat was applied to the surface of the road and at the present time seems to be standing all right.

There are over 300 barrels of asphalt and 15 tons of coal on hand to commence the Spring work. The machinery is also in good condition.

Respectfully submitted,

EDWARD S. O'NEIL,  
*Superintendent of Streets.*

## REPORT OF FOREST WARDEN.

To the Honorable Board of Selectmen and Citizens of Duxbury,  
Greetings:—

We have had a number of small grass and brush fires, but the prompt call and response of the firemen have kept the area burned over very small.

We will have two small trucks loaded with extinguishers and water, one at Herrick's garage and one at Cushing's garage, also the usual fire wagons and my Deputy Wardens are awake to the fact that fires should be fought while small.

In anticipation of the Plymouth celebration and co-operating with the state, we have cleaned up a fire break around Captain's Hill—one of the most beautiful spots in America.

This town is highly spoken of at the State House for their efficiency in fighting forest fires and I wish to thank you all for your co-operation in fire prevention. Any suggestion you care to make at any time I will be very grateful for, as we all want this a fireless town if possible.

Respectfully submitted,

H. E. MERRY, *Forest Warden.*

---

## REPORT OF MOTH DEPARTMENT.

To the Honorable Board of Selectmen and Citizens of Duxbury,  
Gentlemen:

I submit the following report of Moth Work done since last report. Continued from Dec. 6, 1919, finished up the street tree treating and orchard work about the 24th of May. It was then time to start the summer spraying. Sprayed the roadsides and cemetery and this, with the large amount of private spraying done, took until the 17th of July. The four sprayers had then

to be cleaned and put under cover, this taking another man and myself until 14th of August. No more work being done in this department until Sept. 16, when I started with another man, treating some of the bad roadsides until Nov. 30, 1920. Started the orchard treating Dec. 16, which I am still doing.

---

### INVENTORY.

- 1 One-horse power sprayer.
- 3 small power sprayers.
- 4 Worthley nozzles.
- 4 galvanized strainers.
- 2,450 feet large hose.
- 6 pieces suction hose.
- 2 hand sprayers.
- 1 40-foot extension ladder.
- 1 15-foot ladder.
- 1 12-foot ladder.
- 10 galvanized pails.
- 1 burning tank.
- 2 cross cut saws.
- 2 1-man saws.
- 2 hand saws.
- 6 pairs climbing irons.
- 1 large tool box.
- 3 small tool boxes.
- 1 grindstone.
- 5 pairs scales.
- 2 shovels.
- 2 pairs draw cut pruners.
- 2 rakes.
- 4 scythes.
- 1 100 gallon galvanized tank.

Respectfully submitted,

JOHN D. MORRISON,

*Local Superintendent.*

## REPORT OF TREE WARDEN, 1920.

Citizens:

The work in this department has been trimming and cutting out limbs on the following streets, Myrtle, St. George, Powder Point avenue, Alden, Depot, Chestnut and Standish. There are lots of trees all over town that should be trimmed. But this department only had \$100.00 and I did the best I could with same.

Respectfully submitted,

JOHN D. MORRISON, *Tree Warden.*

---

## REPORT OF CEMETERY TRUSTEES FOR 1920.

A much traveled gentleman came to a trustee in charge of the work in Mayflower Cemetery and said, "I want to purchase a lot here. (Which he did.) I have been over many burial grounds in England and America and I have not seen so fine a church yard! You do not realize what you have." Within the enclosure of twenty-six acres are seven thousand burials and more than a thousand trees. To this may be added six acres on the south side of Mayflower street as yet undeveloped. Continuing on there is eight acres adjoining that is owned by the Rural Society, making an unbroken front from the William Freeman place, so-called, nearly to Bailey's Corner. It is intended to make extensive improvements on grounds in front of the Public Buildings and at same time the Cemetery should improve the corner and approach to the main gate.

A ladies committee have advised us they would pay for repairs on some of the old stones in addition to cleaning and repairs to the Dr. Allen monument, which has been neglected for many years.

At Standish Burial Ground there has been a fence built on two sides, this furnishes the foundary of the lot. The cost for the material and labor was several hundred dollars, a large portion of which was subscribed by the members of the Golf Club and a few citizens, to which the Standish Monument Society added enough to complete the work. Much credit is due them for their generosity, as is also to Trustee White, who took charge of the subscription and supervised the work. There is need of repairs of graves and stones and the enclosure of the Miles Standish lot. It ought to be regraded and sown down to grass and such an arrangement made as would keep the public out. One of our oldest citizens of old Pilgrim stock takes a great interest and looks after the welfare of the grounds, as evidenced by this story told by him recently—Seeing some half-grown girls fixing stones at the Standish grave markers, he said to them, "What are you doing? If you don't know any better than that you had better go home and have your mothers teach you!" The girl said: "O mother don't care, she got a piece here yesterday!"

The appropriation for 1920 was the same amount as that of 1919. But the rate of labor per day increased 33 per cent., which cost us one hundred days work with the result we could not do the raking of leaves in the fall and will have to be done this Spring at an increased cost. Other work needed is trimming trees, painting fences at all of the four cemeteries and regrading corners.

We feel and ask you to appropriate for cemetery use not less than two thousand dollars for the year of 1921.

Respectfully,

CEMETERY TRUSTEES OF DUNBURY.

## REPORT OF CHIEF OF FIRE DEPT., DUXBURY.

To the Honorable Board of Selectmen and Citizens of Duxbury,  
Greetings:

I am very thankful to say that we have had very few house fires in the past year. A number of small ones and two (2) chimney fires and two (2) in which the houses were totally destroyed. At one of these fires we lost two (2) of our most highly esteemed citizens. It is the first time in my capacity as chief to have any loss of lives in a fire. We will never know how or why this happened but it was a very tragic ending for people of their years.

The apparatus is in good condition. The old Ford still rambles along and puts out fires.

I am glad to see No. 1 Engine Company has taken a new lease of life and if I am any judge No. 2 will hear from them very shortly and it will not be a whist tournament either.

I wish to impress on your minds how essential it is to have your chimneys in good condition and kept clean. In case of chimney fires, plain baking soda or salt is the best thing to use.

Thanking the firemen for their loyalty to me in the past year,

Respectfully submitted,

H. E. MERRY, *Chief.*

---

## REPORT OF TRUSTEES OF DUXBURY FREE LIBRARY

To the Selectmen:—

The Duxbury Free Library has been more extensively used during the past year than ever before. The names on the register at present number 3482, and there has been issued since January 1st, 1920, as many as 13,488 books. Of these 2896 were non-fiction. The Librarian has had on exhibition the

Pilgrim relics owned by the Library, and during the year a collection of children's books were placed on view. The basket delivery to the six out-stations, North Duxbury, South Duxbury, Ashdod, High Street, Island Creek and Tarkiln Grammar School have been continued. The usefulness of the Library to these out-stations, and to the residents of Duxbury as well, will shortly be further increased by the publication of a new catalogue which is complete to date, and now ready for the printer. The number of new books added to the Library by purchase was 149, and 64 were received by gift.

RICHARD T. LORING, *Clerk.*

---

#### PROPOSED RE-LAYOUT OF PORTER SHORE ROADS.

In 1901, the part of the Standish Shore known as Porter Shore Lots was laid out, and a plan put on record with the Plymouth deeds, Plan Book 1, Page 227. This plan shows Puritan Road and the four parallel roads from it to the shore, Elder Brewster, Samoset, Sagamore and Massasoit. Some of the lots were sold.

Two years later, Columbus Avenue was cut through; the unsold lots were changed in size and renumbered as shown on a revised plan on record in Plan Book 2, Page 290.

The town accepted Columbus Avenue, and the portions of the four parallel roads between it and the water in 1907, and last year accepted the westerly part of Massasoit Road and the part of Puritan Road south of it.

Meanwhile, fragmentary surveys have been made as lots were sold and houses built.

It is now found that there is a shortage of land of about twelve feet in length, measured along Columbus Avenue, and endless discrepancies between the different surveys of lots, the worst being caused by some starting from the north boundary and some from the south.

The confusion is so great, intensified by the actual lack of 6,000 square feet or more, that after a consultation with many owners and their petition for a new layout, the Selectmen have had a new survey made in the hopes that, by the town giving up a portion of its roads and changing their lines slightly, and by mutual concessions of the owners, an equitable solution may be obtained.

It must be remembered that the roads have so far not been changed, and no bounds moved. The new bounds merely show the result of the present survey, only to become final in case of acceptance.

The old bounds on the shore indicated the street lines, but not their eastern extremities.

In the new survey each block between the parallel roads is made the full 220 feet wide, and the shore bounds give the full distances called for by the plans and deeds, so that each owner will get his lot of the size bought, though in some cases it will be in a slightly different position from the one he claimed.

The survey does not mark the divisions of the blocks into individual lots.

Voted, that the salary of the Town Treasurer be \$800 in lieu of fees.

Voted, that the salary of the Tax Collector be \$800 in lieu of fees.

Voted, that the salary of the Town Clerk be \$400 in lieu of fees.

Voted, that it is the sense of this meeting that the Selectmen be requested to properly police, at such times as they may see fit, the dangerous places, and places where people are subject to annoyance.

Voted, that the dividend from the Plymouth County Dog Fund be applied to the support of schools.

Voted, to appropriate the sum of \$225 to be expended under the direction of William Wadsworth Post No. 165, G. A. R., for the observance of Memorial Day.

Voted, that the Treasurer, with the approval of the Selectmen, be authorized to borrow money from time to time in anticipation of revenue for the financial year, beginning January 1, 1921, and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this note to be paid from the revenue of said financial year.

Voted, that no action be taken under Article 10, which reads, "To see if the Town will vote to authorize its Treasurer, with the approval of the Selectmen, to hire money to continue the moth work from December 1, 1920 to March 1, 1921."

Voted, that taxes shall be paid on or before October 15, 1920, and after November 1, 1920, interest shall be charged at the rate of six per cent. per annum from October 15, 1920, until paid.

Voted, to raise and appropriate the sum of \$500 for the Reserve Fund for the year 1920.

Voted, to raise and appropriate the sum of \$400 for a revision of the Assessors' map to April 1, 1920.

Voted, to approve the action of the Selectmen in providing extra room for housing road machinery, and raise and appropriate the sum of \$240 for the payment of the same.

Voted, to raise and appropriate \$15,000 to resurface with sand asphalt Bay Road from the end of the present macadam to the Kingston line, and

Voted, that the disposition of the \$15,000 be left with the Selectmen as to whether the work be done by contract or by town labor.

Voted, to raise and appropriate \$30,000 to resurface with sand asphalt, or other suitable material, the road beginning at "Hall's Corner," so-called, going over Chestnut, Tobey Garden and Elm Streets to the "Tree of Knowledge," and that the Treasurer, with the approval of the Selectmen, shall issue bonds or notes in payment of same, in five annual installments.

Seventy-six voted in favor of and twenty-three against the measure. More than two-thirds having voted in favor, the motion was carried and so declared by the Moderator.

Voted, to raise and appropriate the sum of \$300 to repair the road leading from Powder Point Avenue past Mrs. Nora Smith's to Old Cove.

Voted, to lay on the table Article 18, which reads, "To see if the Town will raise and appropriate the sum of \$400 to resurface with sand asphalt certain roads in the cemetery, and take any other action thereon."

Voted, to raise and appropriate \$150 to build a suitable

landing and bathing beach at Mattakeesett Court Town Landing.

Voted, to raise and appropriate \$50 to purchase land necessary to approach the Town Dump without trespassing.

Voted, to raise and appropriate \$500 to paint and repair the Town Office Building.

Voted, to raise and appropriate \$200 for additional street lights,—six lights to be on Chestnut Street and four lights at points to be designated by the Selectmen.

Voted, unanimously, to rescind the vote whereby the Town voted to pay \$3 per day for labor and \$2.50 for horses.

Voted, that the minimum rate for Town labor be 50 cents and the maximum rate be 62 1-2 cents per hour, and that all pay over the minimum rate be given with the approval of the Selectmen; and that the pay for horses shall be 37 1-2 cents per hour.

Voted, to lay on the table Article 25, which reads, "To see if the Town will vote to discontinue Modoc Street, and Oak Street from School to Elm Streets."

Voted, to instruct the Selectmen to lay out as a public highway, Massasoit Road and Mayflower Avenue, from Columbus Avenue to a point near the old Myles Standish cellar.

Voted, to authorize the Board of Selectmen and the School Committee to act jointly as a commission to inquire into the necessity of better school buildings, and report their conclusions, together with preliminary plans and estimates, at a special Town meeting, and to raise and appropriate for the expenses of said commission the sum of \$100.

Voted, to lay on the table Article 32, which reads, "Will the Town of Duxbury employ a Veterinary Surgeon for Inspector of Slaughtered Animals for the ensuing year, and also employ the Inspector of live animals by the day or hour instead of hiring by the year or contract, as we have been doing in previous years, and appropriate a sufficient amount of money for the same?"

Voted, to instruct the Selectmen to establish the easterly and westerly boundaries of Washington Street along the existing property lines from Blue River Bridge southerly to Mattakesett Court; and that \$200 be appropriated for the purpose.

Voted, not to raise and appropriate money for resurfacing Water Street.

Voted, to raise and appropriate \$200 for the support of Plymouth County Farm Bureau.

Voted, to raise and appropriate \$3,000 to improve the grounds at the Town House and that the Selectmen be a committee to carry out this work.

Voted, to rescind the vote of December 27, 1919, whereby the Town voted to raise \$1,000 to oppose the discontinuance of the Gurnet Bridge.

Voted, to raise and appropriate \$1,000 to resurface Josselyn Avenue with sand asphalt.

Voted, to extend to Mr. Harry B. Bradley a vote of thanks for his efficient services as Town Official for the past seven years, and that a proper testimonial be given him, signed by the Selectmen and attested by the Town Seal.

Voted, that the sum of \$15 be paid the Moderator for his services.

Voted, to adjourn.

GEORGE H. STEARNS, *Town Clerk.*

---

To George H. Stearns, Town Clerk, Town of Duxbury:—

We, the undersigned, voters in the Town of Duxbury and having voted at the Town Meeting, March 13, 1920, believing that the votes cast were incorrectly counted and that Herbert Packard received more votes than were announced at the election, ask for a recount wherever his name appears on the ballot. We believe such recount would show a different result.

(Signed) MYRON M. WHITE AND OTHERS.

Acting upon the foregoing petition the Board of Registrars met at the Town Office at 1.30 p. m., on March 17, 1920, and proceeded to count the ballots cast for Selectmen, Assessor for two years and Overseers of the Poor, with the following result:

Selectmen.

G. E. Belknap,	48 votes
A. E. Green,	79 votes
H. Packard,	77 votes
P. C. Peterson,	67 votes
W. Phillips,	147 votes
S. C. Soule,	197 votes

Assessors—2 years.

G. E. Belknap,	30 votes
A. E. Green,	52 votes
H. Packard,	51 votes
P. C. Peterson,	52 votes

Overseers of the Poor.

G. E. Belknap,	42 votes
A. E. Green,	76 votes
H. Packard,	75 votes
P. C. Peterson,	62 votes
W. Phillips,	139 votes
S. C. Soule,	177 votes

(Signed)

GEORGE H. STEARNS,  
THOMAS W. HERRICK,  
JOHN H. GLOVER,

*Registrars.*

## SPECIAL TOWN MEETING, APRIL 10, 1920.

Arthur H. Bailey was chosen Moderator.

The Tellers, Eden S. Glover, Charles E. L. Nickerson and Robert I. Tower, were sworn by the Town Clerk.

The polls were opened at 9 o'clock a. m., and were closed at 1 o'clock p. m.

Following is the result of the balloting:

For Assessor for the unexpired term of two years: Alfred E. Green had 75 votes, Paul C. Peterson had 55 votes, and Alfred E. Green was declared elected Assessor.

There were 130 names checked on each check list and the same number of ballots were taken from the ballot box.

GEORGE H. STEARNS, *Town Clerk.*

---

## SPECIAL TOWN MEETING, JULY 17, 1920.

Chose Henry P. Moulton, Jr., Moderator.

Under Article 2 it was voted, unanimously, that the report of the committee in the matter of investigating the necessity of better school buildings be accepted as a report of progress, and that this commission continue its course of investigation.

Under Article 3 it was voted, unanimously, to raise and appropriate the sum of twenty-five hundred dollars (\$2,500), to be used, under the direction of the School Committee, for repairs and maintenance of Temperance Hall for school purposes.

Under Article 5 it was voted, unanimously, to accept Washington Street, from Blue River Bridge to Mattakeesett Court, as laid out by the Selectmen.

Under Article 5 it was voted, unanimously, to accept the recommendation of the Selectmen and the layout of Massasoit

Road and Mayflower Avenue, from Columbus Avenue to a point near the old Myles Standish cellar; and to raise and appropriate the sum of five hundred dollars (\$500) to make necessary repairs thereon.

Under Article 6 it was voted, unanimously, to accept Chapter 240, Acts of 1920, (which is an Act to permit, under public regulation and control, certain sports and games on the Lord's Day.)

Under Article 7, which reads, "To see if the Town will raise and appropriate the sum of eighteen hundred dollars (\$1,800) for the extermination of the Gypsy and Browntail Moth," it was voted that no action be taken.

Under Article 8, which reads: "Will the Town vote that the Town of Duxbury as a whole be included in the Duxbury Fire and Water District," it was voted that this article be laid upon the table.

Voted, to adjourn.

GEORGE H. STEARNS, *Town Clerk.*

---

## SPECIAL TOWN MEETING, AUGUST 6, 1920.

Chose William T. Way, Moderator.

Under Article 2 it was voted to raise and appropriate the sum of two thousand six hundred seven dollars (\$2,607), same being amount expended by the Moth Department and the same to be collected by the Town on the tax bills.

Voted, to adjourn.

GEORGE H. STEARNS, *Town Clerk.*

GEORGE H. STEARNS, *Town Clerk.*

Duxbury, December 31, 1920.

## AUDITOR'S REPORT

---

The Commonwealth of Massachusetts.  
Department of Corporations and Taxation  
Division of Accounts.

State House, Boston.

February 21, 1921.

To the Board of Selectmen,  
Mr. Sidney C. Soule, Chairman,  
Duxbury, Massachusetts.

Gentlemen :

I submit herewith my report of an audit of the accounts of the town of Duxbury for the year ending December 31, 1920, made in accordance with the provision of Section 35, Chapter 44 of the General Laws. This report is in the form of a report made to me by Mr. Edward H. Fenton, Chief Examiner of this Division, who was placed in charge of the work.

Very truly yours,

THEODORE N. WADDELL, *Director of Accounts.*

Mr. Theodore N. Waddell,  
Director of Accounts,  
Department of Corporations and Taxation,  
State House, Boston.

Sir:

In accordance with your instructions, I have made an audit of the accounts of the town of Duxbury for the fiscal year ending December 31, 1920, and report thereon as follows:—

The financial transactions of the town as recorded on the books of the tax collector, town treasurer, and selectmen were examined and checked in detail.

The surety bonds of the Collector, Treasurer, and Town Clerk for the faithful performance of their duties were examined and found to be in proper form.

The books in the Selectmen's office were examined and checked in detail. The recorded receipts were compared with the Treasurer's and Collector's books, and the expenditures were checked with the original vouchers and pay-rolls and with the treasury warrants. The appropriation accounts were checked with the Town Clerk's records of appropriations voted by the town.

The original vouchers and pay-rolls were checked to the classification book, and the classification book was checked with the appropriation accounts.

The cash book and journal entries were checked with the ledger accounts, the ledger was footed, a trial balance was taken off, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town as of December 31, 1920.

The books in the Selectmen's office have been kept in the usual careful and painstaking manner, and this greatly facilitated the work of the audit.

The books and accounts in the Treasurer's and Collector's office were examined and checked. The Treasurer's cash book

was footed, the recorded receipts were checked with the records of collections by the Collector and with the Selectmen's books, and the disbursements were checked with the Selectmen's warrants authorizing the Treasurer to make payments and with the Selectmen's records.

The cash on hand February 3, 1921, was verified by an actual count, and reconciled back to December 31, 1920, and the bank accounts were reconciled with the statements furnished by the banks.

My recommendation of last year, that the funds of the town be kept separate from personal cash, has been complied with, and the cash account was readily reconciled.

The accounts of the several trust funds in the custody of the Town Treasurer were examined and checked, the savings bank books representing investments of the funds were checked, the income was verified, and the disbursements were compared with the records in the Selectmen's office. In checking the cemetery perpetual care funds, it was found that withdrawals had been made from several of the accounts in excess of the income earned, thereby reducing the fund to less than the original bequest. I must therefore repeat my previous recommendation that this practice be discontinued, and that the income of these funds be allowed to accumulate until the amount of the original bequests has been restored.

The accounts of the Collector of Taxes were examined and verified; the commitments were proved to the warrants, the collections were checked to the commitment books, the payments to the Treasurer were compared with the Treasurer's and the Selectmen's books, the abatements were checked to the Assessors' records of abatements granted, and the outstanding accounts were listed and reconciled.

The outstanding accounts were further checked by mailing verification notices to a number of persons whose names appeared on the books as owing money to the town, and from the replies received I am satisfied that the accounts are correct.

Appended to this report are tables showing a reconciliation of the Treasurer's cash, together with summaries of the tax and assessment accounts and of the trust fund transactions.

While engaged in making the audit I received the usual hearty co-operation from the several town officials, and on behalf of my assistant and for myself I wish to express to them my appreciation of the courtesy received and the assistance rendered.

Respectfully submitted,

EDW. H. FENTON, *Chief Examiner.*

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

Town of Duxbury

For the Year Ending December 31

1920

## ORGANIZATION OF THE SCHOOL COMMITTEE.

Albert M. Goulding, Chairman,	term expires in 1921
Elizabeth A. Phililps, Secretary,	term expires in 1922
Ralph K. Bearce,	term expires in 1923

## SUPERINTENDENT OF SCHOOLS.

Frederick E. Bragdon, North Scituate, Mass.  
Telephone, Scituate 107-4.

School Physician, N. K. Noyes, M. D.  
Attendance Officers, Harry G. Freeman, Edward S. O'Neil

The regular meetings of the Committee are held at 2.00 p. m.  
on the first day of each month at the committee rooms.

## SCHOOL CALENDAR.

The Winter term begins January 3, 1921 and closes February  
25. Reopens March 7 and closes April 29

The Spring term opens May 9; closing (to be announced).

The Fall term opens September 6 and closes December 23, 1921.

## HOLIDAYS.

February 22, April 19, May 31, October 12, Thanksgiving Day  
and the day following.

## REPORT OF SCHOOL COMMITTEE

---

The School Committee, Superintendent of Schools, Principal of High School, Supervisors of Music and Drawing, herewith submit their reports for the year ending December 31, 1920.

The committee wish to avail themselves of this opportunity to thank the citizens for their votes at a special town meeting in favor of the change in schools in the west side, making it possible to grade the schools on an equal basis with the east side.

We also think, without doubt the committee may speak in behalf of the parents and children of the west side and express their appreciation of the east side's cooperation.

The change has proved to be decidedly beneficial in many ways; one especially in separating the larger from the smaller children, thus causing less trouble on the playground, as the older children's games are much too rough for the younger.

There has been some question in regard to the expenditure of so large an appropriation. We wish to answer this question by a few approximate comparisons.

It has been said "The schools have been supported on a \$4,000.00 appropriation," but that being in 1902, seems ancient history. Looking this report over carefully I find there were separate appropriations for different departments of school expenses and the full amount of appropriations was approximately \$6,299.00 They also had the use of unexpended balance of the previous year.

At that time the total expense of High School was \$500.00. There was no transportation, no electric lights, no town water, and one half of the Superintendent's salary was refunded by the State.

The maximum salary of primary teachers, \$350.00; and the maximum salary of grammar teachers, \$600.00, and other instances might be related, but we will compare this with more recent years.

	1902	1916	1920
Appropriation,	\$4,000.00	\$13,000.00	\$25,000.00
Dog Fund,	293.97	430.20	332.29
Mass. School Fund,	282.87		
Reimbursements on Salaries,			2,326.66
Bal. Appr. previous year,	262.85		
Bal. Supt. Salary from State,	166.67		
Appropriation for Repairs and Incidentals,	1,100.00		
Balance from previous year,	182.83		
Special Appr. for Repairs and Equipment Town Hall,			2,500.00
Amount Available,	\$6,289.19	\$13,430.20	\$30,158.95
Salary Principal High School,		\$1,300.00	\$2,200.00
Salary Commercial Assistant, High School,		700.00	1,400.00
Salary Language Assistant, High School,		700.00	1,400.00
Salary Science,			1,200.00
Salary Principal East Side Grammar School,	\$600.00	700.00	1,250.00
Salary Principal West Side Grammar School,		700.00	1,250.00
Salary Assistant East Side Grammar School,		550.00	1,200.00
Salary Assistant West Side Grammar School,			1,200.00
Salary (maximum) Primary,	350.00	475.00	1,200.00
Salary Supervisor Drawing,	200.00	480.00	550.00
Salary Supervisor Music,		200.00	450.00

Salary and Expenses of Supt.,	250.00	569.99	1,033.33
Transportation,		1,698.00	5,650.00
Salary of Janitors,	154.40	900.00	1,450.00
Coal, per ton,	6.00	6.75	16.50 19.50
Wood, per cord,	4.75 5.00	5.00 6.00	11.75 14.00
Health and Corrective Work,		500.00	1,000.00
Rent for High School,			1,500.00
Rent for Grammar School,	100.00		
Supplies per package,	?	.12	.60

This seems sufficient to convince the citizens who rightfully questioned the expenditure of the money, that it has not been wasted, and every other item that has not been compared has equally advanced in price.

You may question the great advance in teachers' salaries, and we answer that by saying, the town adopted a schedule at the March meeting, 1920, and had we not, we should have been minus more than one teacher, as according to statistics the States are now minus 90,000 teachers and 300,000 children are not attending school.

This town is favored with an able and willing corps of teachers and the only way to maintain them is to pay salaries equal to those of other towns.

When we made up our budget in December, 1919, we could not foresee the extreme advance in prices awaiting everyone in 1920.

There have been as few repairs on buildings as possible to make the school rooms habitable, but there should be seats reversed in some of the schools to protect the children's eyes. This will be done sometime in the future.

There has been and now is a very urgent call for progression in our schools (which the committee feel has been accomplished in a measure), but there can be no progression without an added expense. What advantages we have in our schools must be paid for by the town and we realize and appreciate the support given your committee in the past.

This report seems to be a very plain statement but there is no other way to give the required information. As was stated in the beginning of the report, the exact amount of cents are not included but this is an approximate account.

Duxbury is handicapped by the area of the town. If it were more compact the greater part of transportation would not be required but we will leave that question to the town. Transportation or no transportation, and if transportation is required what amount shall be appropriated to support it?

ALBERT M. GOULDING, *Chairman.*

(Term expires 1921.)

ELIZABETH A. PHILLIPS, *Secretary.*

(Term expires 1922.)

RALPH K. BEARCE.

(Term expires 1923.)

---

## APPENDIX.

Mr. Albert M. Goulding has for sixteen years been a member of the Duxbury School Committee and has been chairman of the committee for ten years. During all those years he has never missed a meeting of the board, and he has given tireless, effective service. He has been progressive in his attitude, unswerving in his fidelity to the schools and the community, patient in the many difficulties that beset a man in such a position, and fair to all persons in their relations with the school affairs of the town.

Mr. Goulding has announced that he must end his membership on the committee at the expiration of his present term. Therefore be it

Resolved, that the School Committee and the schools will suffer a great loss at his retirement from membership, and that

they feel much reluctance in accepting as reasonable and final his decision. And be it further

Resolved, that the remaining members of the committee do hereby express to Mr. Goulding their appreciation of his faithful service, and that these resolutions be entered on the records of the committee and appended to the annual report of the Secretary of the committee.

ELIZABETH A. PHILLIPS,  
RALPH K. BEARCE.

## SUPERINTENDENT'S REPORT

---

To the School Committee of Duxbury:

The Commissioner of Education of the United States reports a shortage of 90,000 teachers in the country, many schools closed, and many more conducted by poorly qualified teachers. This shortage of teachers, while not as acute in Massachusetts as in some sections of the country, is actually here. We may congratulate ourselves that we have been able to retain our teachers and keep our schools at the usual efficiency. The difficulty in securing a French teacher for the High School, to fill a vacancy caused by a resignation received September 4, shows what might have happened, had not our teachers remained with us. The splendid response of the citizens of the town to our appeal for more adequate salaries has been a large factor in the result.

Temporary abatement of the congestion of grades on the West side, has been made by opening a primary school in Temperance Hall. This step toward consolidation removes in large measure the inequality of organization between the East and West schools, and will undoubtedly give greater efficiency in instruction on the West side. Consolidation of the primary grades on the East side should follow.

We are working at a health program and making progress. The dental clinic has been established. Each pupil has been examined by the dentist and a card record of the examination is on file for reference in determining the response made to the dentist's reports.

A beginning of physical training is being made under direction of Miss Catherine Robie of the Sargent School of Physical

Training, who at present is meeting the teachers monthly for counsel and guidance. I hope we shall be able to provide means whereby her services may be available more frequently.

I am glad to be able to report a commendable effort for professional improvement on the part of the teachers. In response to the demand that increased efficiency must accompany increased salaries, nearly all of our teachers have voluntarily formed classes for the study of methods and organization and results. A teachers' club meets weekly for discussions and monthly with the teachers of Marshfield and Scituate. It is too early in the school year to state any results of these studies, but we are looking for more effective teaching as a result of the investigations we are making.

The activity of the Parent Teachers organizations in promoting the hot lunch is most commendable. Interest in this particular problem is spreading to the smaller schools. Slowly but surely, public opinion is turning to the support of this and other changes in administration which changing social conditions demand, and which the best educational authorities command.

The recommendations of last year still stand as the best I can give. The arguments for consolidation need not be repeated. School libraries are greatly needed to make possible the best forms of instructions.

Our scientific equipment has been materially increased through the action of the Trustees of the Academy in refitting the room for laboratory purposes. By systematically adding to the equipment each year we shall eventually have all the equipment desirable. The objections to conditions as they were a year ago are removed so that our High School is prepared to meet the requirements of the college entrance boards.

The usual statistical tables have been prepared and are submitted herewith for record, together with such reports of other officers as have been received.

This school year will complete the third and last year of the present administration. I am sorry not to have accomplished

all we wanted to. I am pleased to feel that some things worth while have been done, and am especially grateful for the many and repeated assurances of confidence and support extended to me by the committee, individually and collectively.

Respectfully submitted,

FREDERICK E. BRAGDON, *Superintendent.*

## REPORT OF SUPERVISOR OF MUSIC.

---

To the Superintendent of Schools, Duxbury, Mass.

In our program this year we have made no attempt at brilliant or difficult show work, but have made every effort to bring ordinary note-reading well within the grasp of the average boy and girl. To this end we went a long way back in each grade, to take up a review of the essentials of music-theory, selecting song material that would be illustrative of the principles under consideration. Most of the teachers agreed that this review has been beneficial, and that by it the interest of the students has not been dulled but stimulated.

In schools of the same grade I have tried to give the same work. The primary work has been done for the most part individually from the board, with a good deal of attention paid to elementary ear-training. In the higher grades we have tried to introduce enough individual and written work to make each pupil feel that the music concerned him personally.

In the High School our problem has been to arouse interest among the boys, and partly for this reason we have introduced a little solo, trio and quartet work to add variety to the full chorus music. To some extent, at least, I think we have succeeded.

I wish to thank all the teachers, both in the grades and in the High School, for their cordial cooperation, which has made my work among them so pleasant.

REBECCA PHILLIPS, *Supervisor of Music.*

West Duxbury, Mass.

## HIGH SCHOOL REPORT

---

To the Superintendent of Schools of Duxbury:

Your attention is respectfully invited to the following items:

Growth of High School, Attendance, Courses Offered, School Classification, Work of the Duxbury Teachers' Club, Morale.

For the last three years there has been a gradual increase in the High School enrollment. This increase while not so apparent for any single year becomes prominent when we consider the years from 1917-1920 as a single period. In 1917 our total enrollment was 46; in 1920 our total enrollment was 66, an increase of about 40 per cent. for the period. Present indications are that this upward tendency will continue for quite some time.

The attendance for the past year has been better than for any single year in the above indicated period. The weather has been extremely mild and where so many of the pupils come from a distance as is the case in the High School, it is no inconsiderable factor in attendance.

At present we are offering two courses of study, "College Preparatory" and "Commercial." Our "College Preparatory" course is sufficient to enable our graduates to meet the entrance requirements of the New England College Entrance Board. We are sending some pupils to college on the preliminary certificates of this board in the fall. Our "Commercial" course, while not broad is thorough and efficient. The pupils receive thorough training in the fundamentals of Bookkeeping, Accountancy, Stenography and Typewriting. In both courses a total of twenty-four classes recite daily.

We have met all the recommendations of the State Board of Education as to courses and the prescribed amount in each. We have met the requirements of recent state legislation as to Ameri-

can History and Civics. For the ensuing year we have been classified in Class A by the State Board.

Two years ago the teachers of the town formed the Duxbury Teachers' Club. The purpose of the club was to bring about a better understanding of the problems existing in the grades and their relation to the High School. The club has carried forward a systematic program of study and self-improvement meeting weekly for this purpose. The individual problems of each teacher have been studied and discussed and already better results are being obtained.

The morale and scholastic standing of the school have been considerably improved the past year. There has been a more earnest application on the part of the pupils, to the work at hand. Discipline has been easy and we have made good progress. I look forward to the completion of a highly successful year.

Respectfully submitted,

ARTHUR J. MOTT, *Principal.*

## TOWN OFFICERS, 1921

---

Selectmen, Assessors and Overseers of the Poor—Sidney C. Soule, Wendell Phillips, Alfred E. Green.

Town Clerk, Treasurer and Collector—George H. Stearns.  
Auditors—Herbert E. Walker, Myron M. White.

School Committee—Ralph K. Bearce, Elizabeth A. Phillips, John Simmons.

Board of Health—Charles W. Eaton, Eugene E. Covell, Paul C. Peterson.

Constables—Charles S. Pierce, Warren C. Prince, Joseph Nickerson.

Cemetery Trustees—Albert M. Goulding, Elisha Peterson, William J. Alden, Henry F. White, John Simmons.

Tree Warden—John D. Morrison.

Fire Engineers—Hortence E. Merry, Arthur C. Greene, Harry S. Winslow, Charles R. Crocker, Leroy M. Peterson. Harrison E. Hartford, Carl J. Santheson, Charles E. L. Nickerson.

Surveyors of Wood and Lumber—Charles P. Grueby, Charles E. L. Nickerson.

Field Drivers—J. Knowles Parker, James L. McNaught, Harry S. Winslow, John A. Hunt, Daniel W. Studley, Charles R. Crocker, Edward S. O'Neil, and Albert M. Goulding.

Registrars of Voters—John H. Glover, Thomas W. Herick, Wendell B. Phillips, George H. Stearns.

Inspector of Animals—Herman H. Delano, Jr.

Inspector of Slaughtered Animals—Charles S. Pierce.

Sealer of Weights and Measures—Charles S. Pierce.

Measurer of Grain—Charles P. Grueby.

Inspector of Lime—Charles P. Grueby.

Weighers of Coal—Arthur C. Greene, Roy A. Holmes, James McKay, Mary Cary, Charles P. Grueby, Benjamin F. Goodrich, John S. Edwards, and John J. Edwards.

Fence Viewers—Charles R. Crocker, J. Knowles Parker, Edward S. O'Neil.

Keeper of Almshouse and Pound—Herbert Packard.

Superintendent of Streets—Edward S. O'Neil.

Town Physicians—N. K. Noyes, M. D., Roger Spalding, M. D.

## REPORT OF THE SELECTMEN

---

Your Board of Selectmen herewith submit their report for the year of 1921:

In accordance with the vote of the Town Toby Garden Street has been completed for the \$10,000 appropriated and later being reimbursed by the State. This would not have been completed had we been obliged to pay the prices for labor paid in 1920.

Josselyn Avenue has been resurfaced as far as money would allow, the amount of grading and the long distance to cart material made it impossible to complete the whole distance.

Mattakesett Court Town Landing sea wall and entrance to shore have been completed for amount appropriated. The heavy storm of the present winter carried away the adjoining wall belonging to Duxbury Coal and Lumber Co. without any damage to Town property.

Massasoit Road and Mayflower Avenue at Standish Shore have been graded and hardened and are in very good condition at the present time.

The steps at the Town Hall grounds have been completed and the Soldiers' Memorial erected in the triangle across the street and sand filled in around same temporarily, which is to be loamed the following Spring.

We would suggest that the Town vote to instruct its Selectmen to widen the easterly end of Winsor Street in order to make room to turn vehicles without trespassing on private grounds.

There is also a great need of an additional Town landing

on the easterly side of Powder Point as there are not any landings between the Gurnet Bridge and Blue Fish River Bridge.

Your Selectmen feel that in regard to the appropriation for highways for the coming year that the town vote one general appropriation and leave it to be spent where in their judgment would be the best for the town as a whole as you well understand all parts of the town feel that they should receive a special appropriation for their immediate vicinity. If this is voted the amounts are so large that it runs the tax rate to an excessive amount.

By the good judgment of the voters at the annual meeting of 1921, the tax rate of Duxbury has been 50 per cent. less than any of the adjoining towns without practically any raise in valuation which has raised a great deal of surprise by our neighbors. We realize there are many things we need and must have, but we sincerely trust you as voters will join hands with us and vote only for what is necessary.

SIDNEY C. SOULE,

WENDELL PHILLIPS,

ALFRED E. GREEN,

Selectmen of Duxbury.

# FINANCIAL REPORT

Number of polls exempt,	78

WENDELL PHILLIPS,

SIDNEY C. SOULE,

ALFRED E. GREEN,

Assessors of Duxbury.

## REPORT OF OVERSEERS OF THE POOR

---

The number of inmates in the Almshouse at present is six, with two boarders. We were obliged to employ a new caretaker the present year on account of Mr. and Mrs. Packard's resignation. However, this being only for a short time, as the new keeper getting dissatisfied with the work and Mr. and Mrs. Packard being willing to return, has made it much more agreeable for both the inmates and the Overseers.

The general care being about the same from year to year there seems to be very little to report.

There has been added to the equipment the present year a new one-pipe heater which greatly improves the heating power. There are a few minor repairs needed to the building the coming year.

SIDNEY C. SOULE,  
WENDELL PHILLIPS,  
ALFRED E. GREEN,

Overseers of the Poor.

## REPORT OF THE HEALTH DEPARTMENT.

At the beginning of 1921 the board divided into three sections, one member taking the division of dairying, diseases, settlements and laws, another, nuisances, garbage and sewage and the third, slaughtering, enforcement of rules and schools. This has worked out very well and we feel that it is a most efficient system.

Dairy inspection has again been taken up as necessitated by State law and all premises, where milk is produced, have been inspected and tabulated. In some cases follow-up work was necessary. These inspections are ultimately bound to bring up the standard of milk produced in the town.

The number of contagious and communicable diseases this year has been rather high, owing to an epidemic of measles early in the year.

There have been several communicable cases in other towns and cities, residents of Duxbury, for which this board was obliged to settle.

At all times this department will be glad to answer questions or make suggestions regarding health problems to any of the citizens. The board meets the first day of each month, in their room at the Town Office building. Following is a list of the communicable diseases in town for the year 1921; chickenpox 12, diphtheria 1, measles 79, mumps 12, tuberculosis 1, typhoid fever 1.

Respectfully submitted,

PAUL C. PETERSON, Chairman.

CHARLES W. EATON, Secretary.

EUGENE E. COVELL,

## REPORT OF FOREST WARDEN.

To the Honorable Board of Selectmen and Citizens of Duxbury:

We have had our usual number of grass fires, but a very small acreage and no timber land burned. Each year I seem to get more co-operation from the people. The look-out towers locate fires quickly and the telephone operators call the men intelligently. There is one thing that I wish to call your attention to and that is the slash and permit laws. Our State Forester says they must be enforced, so am calling your attention to it at this time.

I have at Herrick's garage, a small truck loaded with extinguishers and water, that must be given great credit for quick work. I hope to have one somewhat similar at North Duxbury, as it can be placed there at a very small cost to the town, and could be used on buildings as well as grass and woods fires.

Thanking you for your co-operation in the past year, I remain,

Respectfully yours,

H. E. MERRY, Forest Warden.

---

## REPORT OF FIRE DEPARTMENT.

To the Honorable Board of Selectmen and Citizens of Duxbury:

We have had several building fires and chimney fires in the past year but have had no very serious losses. One of our most serious losses was the old landmark, known as Ford's Store. It has been investigated very carefully, but no satisfactory decision could be reached as to the cause. It seems such a pity to lose these old landmarks, which, if

they mean nothing to strangers, mean a great deal in their sentimental value to Duxbury.

North Duxbury and Ashdod section are without adequate fire protection. We are intending this year to make some arrangements which will give them the protection they so much need.

Would say the best thing next to extinguishers to put out or control small fires is bicarbonate of soda, it can't freeze or corrode and when thrown on a fire develops a gas that will smother the fire almost instantly. We have an ample supply at our storeroom at the Poor Farm, and by bringing receptacles it can be obtained there at any time.

The engines are in good condition, but will have to buy about five hundred (500) feet of hose. This is the first hose that has been purchased for replacement.

Respectfully submitted,

H. E. MERRY, Fire Chief.

---

## REPORT OF MOTII DEPARTMENT.

To the Honorable Board of Selectmen,  
Gentlemen:

I submit the following report of moth work done since last report, continued from December 16, 1920.

Finished up the street tree treating and orchard work about May 25, 1921. It was then time to start the summer spraying. Sprayed the road sides and cemetery. Stopped work July 1st, 1921.

Respectfully submitted,

JOHN D. MORRISON, Local Superintendent.

## STANDISH SHORE ROAD COMMITTEE.

To the Honorable Board of Selectmen,  
Town of Duxbury,

The Committee chosen at the annual Town Meeting, March 12, 1921, 'To consider the matter of laying out a highway leading from the southerly end of Columbus Avenue, southerly and westerly to Standish Street' submits the following report of progress.

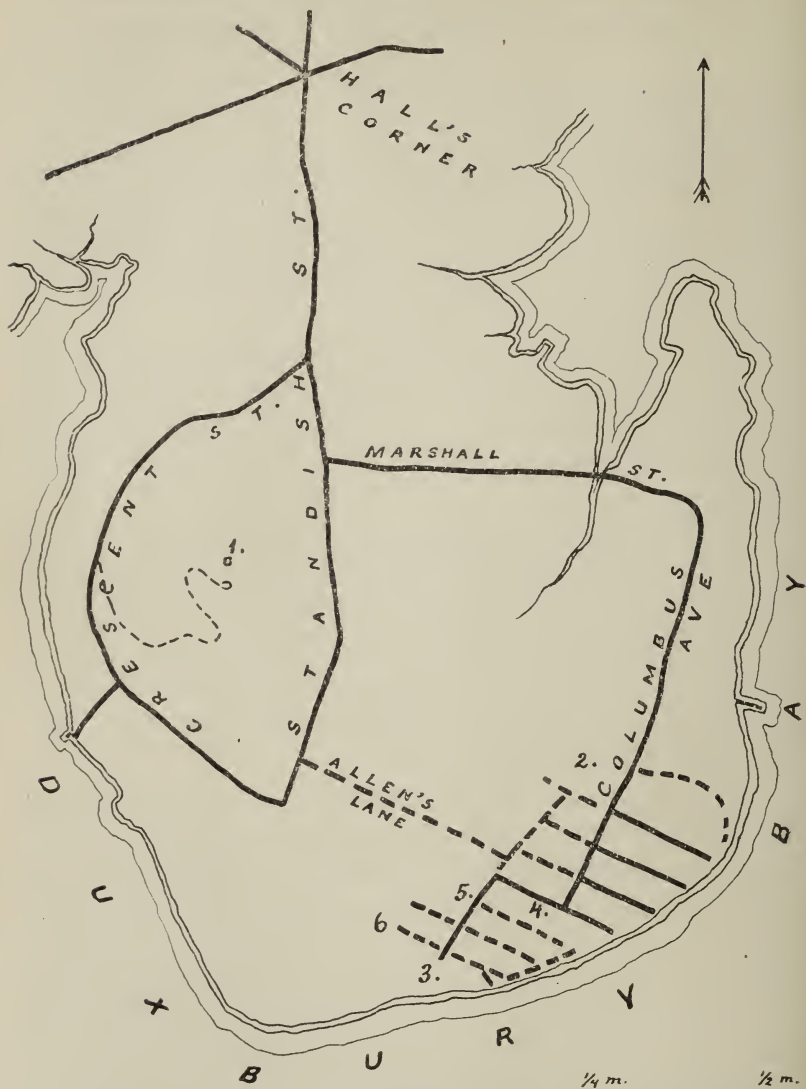

April 1st, 1921, the Committee organized with Edward S. O'Neil, Chairman, Charles S. Clark, Clerk. At the invitation of the chairman, Mr. F. B. Knapp sat with the Committee and his expert knowledge has been helpful, and is appreciated.

The congestion of automobiles at the end of Columbus avenue, on Sundays and holidays, which was the immediate cause for the election of the Committee was alleviated by the re-surfacing of Massasoit road and Mayflower avenue. Allen's lane, if put in safe condition for the summer months would afford a temporary outlet for the automobile traffic which has no occasion to stop.

The Committee made several plans for a new road from the southerly end of Columbus avenue, southerly and westerly, through private land and gave a public hearing to all interested, on August 6, 1921. Only ten or twelve persons were present, no one spoke in favor of the project. Mr. E. H. Packard said the Directors of the Standish Shore Improvement Association were opposed to anything being done at present. Several others also opposed.

As the congestion which caused the petition to be presented to the Selectmen has been largely overcome, and as most of the petitioners request nothing be done at present, respecting a new road, southerly and westerly, from Columbus avenue, your Committee reports the facts and seeks further instructions.

# CAPTAIN'S HILL AND STANDISH SHORE.

February 3, 1922. F. B. Knapp, circ. log.

Public Roads are shown by full lines and Private Ways by dotted.

1. Captain's Hill and Standish Monument.
2. The Elder's Lilacs, site of William Brewster's house.
3. Site of Myles Standish house.
4. Massasoit Road.
5. Puritan Road.
6. Spring Street.

The land at Standish Shore and south and west of Captain's Hill is about all the undeveloped shore property in town. Some comprehensive plan to insure the best result in the future seems desirable for all. If any part is to be reserved for public use, now is the time to secure it.

The Standish Monument Association propose to acquire the site of the house of Miles Standish, erect a suitable tablet or marker, and present it to the town of Duxbury. This will attract many visitors and direct attention to the land thereabout. If small lots are sold, a beach or park, for the benefit of all townspeople, may be impossible except at prohibitive cost. The same difficulty respecting roads as is now before us will be repeated.

The traffic to the monument, the sites of the homes of Brewster and Standish and around the shore has increased rapidly the last few years, and is bound to become very much greater as time goes on. As shown on the accompanying map, Columbus avenue comes to a "dead end" in a network of streets so placed that as they now exist no satisfactory circuit is possible and further development on these lines will mean many sharp, dangerous corners on a main thoroughfare.

The necessary modifications could now be made and a really good circuit laid out connecting Columbus avenue with Standish and Crescent streets with exceedingly little damage to improved property. But development is going on so rapidly that each year the difficulty naturally increases.

If all can agree on a well defined plan of improvement, the Town can obtain property of the largest taxable value; its citizens an opportunity to enjoy the delights of the seashore, soon to be the privilege of the few.

These great possibilities have been in mind while considering the "extension of Columbus avenue, southerly and westerly, to a connection with Standish street." Even if a

general plan covering the whole area and making suitable provision for the future welfare of this section and of the Town cannot now be evolved; either or both of two partial plans would be well worth while:—

1. To continue Columbus avenue on a curved line joining Spring street to the site of the home of Miles Standish.

2. Broadening Allen's lane and giving it good connections with Sagamore road at the east end and both Crescent and Standish streets at the west end.

Your Committee feels confident that such changes as are proposed will help the development of the Standish Shore in the satisfactory manner so much desired by the present residents but that this must be done with their co-operation and not against their opposition.

The Committee submits this report as one of progress and asks that further time be given them to study the subject with the instructions or suggestions of the Town.

EDWARD S. O'NEIL, Chairman,  
CHARLES S. CLARK, Clerk,  
CHARLES K. B. NEVIN,  
C. WARREN PIERCE,  
PERCY L. WALKER.

Duxbury, February 4, 1922.

---

## REPORT OF TREE WARDEN.

To the Citizens of Duxbury:

The work in this department has been trimming and mulching trees on several streets in town.

Respectfully submitted,

JOHN D. MORRISON, Tree Warden.

## REPORT OF CEMETERY TRUSTEES.

Soon after the annual appropriation was made a squad of men was put to work removing dead trees and limbs in Mayflower cemetery, this work followed up by the raking, made inroads on our money, but we were able to make a respectable showing and are in a better condition to commence the season's work than last year.

The trees were given two thorough sprayings, but many have died and will have to be taken out this spring. We should finish cutting out the dead wood in that section not done last year; put in at least one catch basin and make extensive repairs on avenues cut through by heavy motor carriages and this, added to the ever-increasing incidentals, calls for an appropriation equal to that of 1921.

We want to impress on the citizens the need of more lot space, having available at present less than forty such, some of them requiring extensive grading before use. The following memoranda may help those not familiar with the history of this department of the Town to a better knowledge of conditions:

Duxbury has within its limits five cemeteries, four of these owned by the Town, viz. Standish, not now used; Dingley at North Duxbury, not now used; Ashdod, containing one and one-half acres, divided into one fifty family lots, and Mayflower, on Tremont street, containing twenty acres, divided into one thousand family lots, estimated to contain seven thousand burials, the first burial said to have been in 1787. The last addition of six acres was given by The Ladies' Cemetery Association. This tract was ideal from a landscape point of view but not available for burials until a large amount of grading is done and then does not seem desirable to many obliged to make a selection.

Some years ago the Town was given a tract of woodland on the south side of Mayflower street, for cemetery uses.

This lot contains about seven and one-fourth acres, fronts on Tremont street and is practically level and capable of development with reasonable expense, into what will be our needs for many years to come. We recommend that action be taken this year by an article in Town Warrant and a sum appropriated for this use.

Respectfully submitted,

BY THE TRUSTEES.

---

### REPORT OF TOWN PHYSICIAN.

Chairman Board of Selectmen,

Dear Sir. :

In accordance with the vote at the last annual town meeting I beg to submit the following report of services rendered which may properly be charged to this account.

Number of house visits,	165
Number of office visits,	3
Number of minor surgical operations	3
Number miscarriages cared for,	1

In addition I have dispensed medicines for which there has been no charge made (to town patients, charity), to the value of approximately \$25.

Respectfully,

N. K. NOYES, M. D.

---

To the Board of Selectmen,

Gentlemen :

I submit herewith in report as a physician to the town of Duxbury, for the year 1921 :

Number of visits,	64
Number of office visits,	16

Respectfully,

ROGER SPALDING.

## REPORT OF THE STREET DEPARTMENT.

To the Honorable Board of Selectmen and Citizens of  
Duxbury,  
Gentlemen:

I submit the following report of work done on the streets during the past year.

The general road work was completed in the spring and what repairing was needed for winter travel has been attended to. It was necessary as a matter of economy on some of the streets where there was a great deal of traffic to use oil to keep them in proper condition, also over three miles of the stone road was covered with tarvia and sand for a seal coat.

The work at the Town Landing off Mattakeesett court has been done and has proven satisfactory, so far.

The work on Massasoit road and Mayflower avenue, which was delayed last year, was taken up and finished, also Josselyn avenue and Careswell street were resurfaced.

The road from Hall's Corner to Temperance Hall was completed within the limit of the appropriation of 1920 plus the \$10,000 granted by the State.

We have on hand 250 barrels of asphalt which was condemned by the State Commissioners as not being suitable for a road of such heavy traffic, which I would suggest could be used on streets of less travel.

The machinery has been properly housed and cared for but will need some minor repairs and overhauling for the upkeep and use for the coming season.

Respectfully,

EDWARD S. O'NEIL,  
Superintendent of Streets.

# REPORT OF THE TREASURER OF THE DUXBURY FREE LIBRARY, INC.

The above report has been examined and found correct.

E. R. BELCHER, *Auditor*.

B. C. LEAVITT, *Treasurer*.

## REPORT OF THE DUXBURY LIBRARY.

The Library has had a banner year, having served more people and issued more books than ever before during the same period of time. The total number of books issued was 15,561. Of this number, 4,415 were non-fiction and 2,697 were sent through basket delivery to North Duxbury, South Duxbury, Ashdod, High street and Island Creek. The Library was open 156 days for the use of the public.

Accessions to the Library for the year were 508 volumes. Of these 297 were bought with Library funds, and 211 were received as gifts. *Bad*

? The Trustees have made a thorough over-hauling of the storeroom in the Library, and much useless matter has been eliminated. Five hundred books were selected for re-binding. It is hoped to have them in circulation in the immediate future.

RICHARD T. LORING, Clerk.

## REPORT OF TOWN CLERK

---

### MARRIAGES RECORDED IN DUXBURY IN 1921.

- January 9. In Duxbury, Nathaniel M. Raymond of Plymouth and Ella C. Reynolds of Duxbury, by Rev. Lewis J. Thomas.
- January 23. In New Bedford, Henry Ferguson Beal of Duxbury, and Harriet Barron of New Bedford, by Rev. C. H. Kershaw.
- February 8. In Boston, George E. Short of Boston and Lucy H. Loring of Duxbury, by Rev. Francis X. Dolan.
- March 21. In Boston, George H. Stetson of Duxbury and Violet A. Oates of Hanson, by Rev. Roland D. Sawyer.
- May 7. In Duxbury, James W. Hastings and Caroline W. Blodgett, both of Duxbury, by Rev. W. H. Alexander.
- June 27. In Duxbury, Henry Dean Nott of Boston and Ina Gertrude Handy of Newton, by Rev. Ralph Holbrooke Cheever.
- July 26. In Duxbury, Alpheus Nickerson and Teresia Walborg Jonsson, both of Duxbury, by Rev. Lewis J. Thomas.
- July 28. In Duxbury, Elijah W. Reed of Duxbury and Susie L. Drake of Hingham, by Rev. Ralph H. Cheever.
- August 3. In Duxbury, Clifford Batchellor Sweet and Mary Ethel Brewer, both of Worcester, by Rev. Charles Edward Spaulding.
- August 23. In Duxbury, Amelio Malaguti of Kingston and Lea Vecchi of Plymouth, by Rev. Lewis J. Thomas.
- August 24. In Boston, Warren R. Holmes and Christine MacKinnon, both of Duxbury, by Rev. Albert H. Walker.

- September 10. In Kingston, Glenn Hubbard and Evelyn N. Hardy, both of Duxbury, by Rev. H. S. Kilborn.
- September 24. In Kingston, Herman Korth of Plymouth and Katherine E. McKay of Duxbury, by Rev. William J. McCool.
- October 19. In Boston, Patrick J. Boyle and Mary B. Lynch, both of Duxbury, by Rev. Edmund D. Daly.
- November 2. In Scituate, Arthur N. Delano of Duxbury and Laura A. Ramsdell of Scituate, by Rev. William Ware Locke.
- November 22. In South Braintree, Harold K. Delano of Duxbury and Jennie T. Foley of Hoboken, N. J., by Rev. J. A. O'Leary.
- December 3. In Kingston, Samuel Mendes and Paulina A. Barboza, both of Duxbury, by Rev. William J. McCool.
- December 20. In Kingston, Ralph B. Ford and Sarah Belle Cook, both of Duxbury, by Rev. H. S. Kilborn.

November 29	Enma L. White	78 16 4	Plymouth, Mass.	Chronic myocarditis
December 12	Judith W. Smith	100 — 16	Boston, Mass.	Senile degeneration
December 22	Catherine M. Eant (Bradford)	77 4 8	Roslindale, Mass.	Diphtheria
December 24	Grace Peterson	9 11 7	Fairhaven, Mass.	

## TOWN MEETINGS

---

### ANNUAL TOWN MEETING, MARCH 12, 1921.

Chose Henry P. Moulton, Moderator.

The Tellers, Harold F. Hanigan, Harry A. McNaught, Charles E. L. Nickerson and Eden S. Glover, were sworn by the Town Clerk.

The polls were opened at 6, and closed at 11 o'clock A. M.

The register on the ballot-box indicated 375, there were 375 names checked on each list, and 375 ballots were counted from the ballot-box.

An intermission was taken for luncheon until 11.45.

Following is the result of balloting for Town Officers:

For Selectmen for one year:

Alfred E. Green,	222 votes
Herbert Packard,	180 votes
Wendell Phillips,	276 votes
Sidney C. Soule,	327 votes
Scattering,	3 votes
Blanks,	117

For Assessor for three years:

Sidney C. Soule,	325 votes
Scattering,	1 vote
Blanks,	49

For Overseers of the Poor for one year:

Alfred E. Green,	215 votes
Herbert Packard,	186 votes
Wendell Phillips,	269 votes
Sidney C. Soule,	317 votes
Blanks,	138

For Town Clerk for one year :

George H. Stearns,	325 votes
Scattering,	2 votes
Blanks,	48

Town Treasurer for one year.

George H. Stearns,	323 votes
Scattering,	1 vote
Blanks,	51

Collector of Taxes for one year :

George H. Stearns,	323 votes
Blanks,	52

Constables for one year :

Joseph H. Nickerson,	218 votes
Charles S. Pierce, ,	265 votes
Warren C. Prince,	223 votes
Robert I. Tower,	215 votes
Blanks,	205

School Committee for three years :

John Simmons,	315 votes
Blanks,	60

Board of Health for three years :

Charles W. Eaton,	312 votes
Blanks,	63

Cemetery Trustee for five years :

William J. Alden,	323 votes
Scattering,	1 vote
Blanks,	51

For Tree Warden for one year :

John D. Morrison,	296 votes
Scattering,	1 vote
Blanks,	78

For Auditors for one year :

Herbert E. Walker,	319 votes
Myron M. White,	289 votes
Blanks,	141

“Shall licenses be granted for the sale of certain non-intoxicating beverages in this town?”

“Yes,” 168

“No,” 165

Blanks, 42

Voted, that the appointment of necessary officers not chosen by ballot be left with the Selectmen.

Voted, to take up and consider the reports of the various Town Officers and Committees separately.

The Chairman of the Selectmen made a report on matters relating to that Board, and it was then

Voted, that the reports of other Town Officers and Committees be accepted as printed in the Town Report.

Voted, to raise and appropriate \$2,862.23 for payment of bills remaining unpaid for the year 1920, and overdrafts in Police, Forest, Health and Snow departments.

Voted, that Article 7, (“Will the Town vote to apply the dividend from the Plymouth County Dog Fund to the Support of Schools?”) and Article 13, (“To see if the Town will vote to rescind the vote of March, 1920, whereby they voted to pay from fifty to sixty-two and one-half cents an hour for labor, and \$10 for man and double team,”) be taken up in connection with Article 6, (“To raise and appropriate such sums of money as may be necessary to defray town charges.”)

Voted, to raise and appropriate \$17,200 as follows:

Resurfacing St. George and Washington streets,

Loan of 1917, \$800 00

Resurfacing King Caesar Road, Loan of 1918, 1,200 00

Road Machinery, Loan of 1919, 1,000 00

Resurfacing Washington street, Loan of 1919, 1,000 00

Resurfacing Columbus Avenue and Marshall street,

Loan of 1919, 2,200 00

Resurfacing Chestnut, Toby Garden and Elm streets,

Loan of 1920, 6,000 00

Interest, 5,000 00

Voted, to raise and appropriate, for Gypsy and Browntail Moth work, \$1,693.03, and in this connection it was voted that this money be spent between May 1 and August 1, and that the town work shall be done before any private work is done.

State, County and Highway Tax,	\$21,000 00
Cemeteries,	1,500 00
Plymouth County Hospital,	10,610 50
Support of Schools,	25,000 00
Transportation of School Children,	6,000 00
Fire Protection,	400 00
Forest Warden,	500 00
Tree Warden,	100 00
Snow Removal,	1,000 00
Street Lighting,	1,569 00
Health Department, including Vital Statistics,	1,050 00
Animal Inspection,	150 00
Inspection of Slaughtered Animals,	150 00
Charities,	6,000 00
Soldiers' and Sailors' Aid,	100 00
Town Physicians,	400 00

(And voted that the Town Physicians make an annual report to the Selectmen of the Town)

Selectmen,	1,200 00
Election and Registration,	350 00
Treasurer,	950 00
Collector of Taxes,	1,000 00
Assessors,	1,200 00
Law,	500 00
Town Office,	700 00
Town Clerk,	450 00
Accounting,	600 00
Police,	500 00
Sealer of Weights and Measures,	150 00
Bounties,	75 00
Unclassified,	1,300 00

Town Dump,	50 00
Town Landing,	50 00
Highways, Bridges, and Sidewalks,	7,000 00

In connection with the appropriation for Highways it was

Voted, that no money be expended for light oil on sand or gravel roads.

Voted, to apply the dividend from the Plymouth County Dog Fund to the Support of Schools.

Voted, to rescind the vote of March, 1920, whereby it was voted to pay from 50 to 62½ cents per hour for labor, and \$10 for a man and double team.

Voted, to raise and appropriate the sum of \$300, to be expended under the direction of William Wadsworth Post No. 165, G. A. R., for the observance of Memorial Day.

Voted, that the Treasurer, with the approval of the Selectmen, be authorized to borrow money from time to time, in anticipation of revenue for the financial year beginning January 1, 1922, and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote, to be paid from the revenue of said financial year.

Voted, to lay on the table Article 10, which reads: "To see if the Town will vote to authorize its Treasurer, with the approval of the Selectmen, to hire money to continue the Moth work from December 1, 1921, to March 1, 1922.

Voted, that the balance of the 1917 Overlay of Taxes, \$684.35 be transferred to the Reserve Fund for the year 1921.

Voted, to raise and appropriate the sum of \$500 to repair the dyke at the Mattakeesett Court Town Landing.

Voted, to raise and appropriate, for the use of the Plymouth County Trustees for County Aid to Agriculture, the sum of \$200, and chose Alpheus H. Walker a Town Director, as provided in Chapter 273 of the Acts of 1918.

Voted, unanimously, that there be appropriated the sum of \$10,000 for the completion of Toby Garden and Elm streets; and that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to make a temporary loan in ac-

cordance with the provisions of Section 6, of Chapter 44, of the General Laws, any money received from the State as reimbursement to be applied to the payment of said temporary loan.\*

Voted, not to raise any money to resurface with sand asphalt that portion of Powder Point Avenue, from the residence of Mr. Phillips, easterly to Gurnet Bridge.

Voted, not to appropriate any money, this year, for resurfacing Harrison Street and Mattakesett Court, but whatever repairs are made to be taken from the General Highway Appropriation.

Voted, that no appropriation be made for the improvement of Crescent Street, beginning at Standish Street and continuing around the westerly side of Captain's Hill to a point called "Allen's Gate."

Voted, to indefinitely postpone action on Article 19, which reads: "Will the Town raise and appropriate \$1,000 to repair Temple Street and make it fit for public travel, from barn on E. S. Stevens' estate northerly by W. H. Hunt's place to Mr. Gerrish's place?"

Voted, unanimously, to postpone action on Article 20, which reads: "Will the Town raise and appropriate a sum of money (\$1,000 or more) to be expended during the season of 1921, in the construction of a permanent sidewalk along the main thoroughfare between Duxbury Railroad station and South Duxbury station, via St. George, Washington and South Station streets, and designate the place of beginning and the materials to be used?"

Voted, that a Committee of Five be chosen from the floor to consider the matter of laying out a highway leading from the southerly end of Columbus Avenue, southerly and westerly to Standish Street, and the following were chosen: Charles K. B. Nevin, Charles S. Clark, Percy L. Walker, C. Warren Pierce and Edward S. O'Neil, and Edward S. O'Neil was elected Chairman of this Committee.

Voted, to indefinitely postpone Article 22, which reads: "What action, if any, will the Town take toward the removal or change in location of the stone watering trough at the junction of St. George, Cove and Washington streets and Powder Point Avenue?"

Voted, to raise and appropriate the sum of \$500 for the Duxbury Free Library, to be used for the purchase of books.

Voted, to accept an act of the Legislature (Chapter 153, Acts of 1916) regarding the Slaughtering License Fee.

Voted, to raise and appropriate \$200 for improvement of the public playground at Train Field, part of this money to be used to provide swings and parallel bars for the children. This money to be expended under the direction of the Train Field Committee of the Duxbury Rural Society.

Voted, to return to the Treasury the unexpended balance of North Street repairs, Resurfacing Washington Street, Stone Road Repairs, Temple and Church Streets Layout, Surveying Washington Street, Commission on Schools and Fire Protection at South Duxbury. Total amount, \$720.99.

Voted, to accept the layout by the Selectmen, on February 25, 1921, of the south side of Massasoit Road, to supersede the layouts of 1907 and 1920.

Voted, that the Moderator be paid the usual amount for his services.

Voted, to adjourn.

GEORGE H. STEARNS, Town Clerk.

---

### SPECIAL TOWN MEETING, MAY 31, 1921.

Chose, Harry B. Bradley, Moderator.

The Tellers, Russell B. DeWolf and E. Burton Freeman, were sworn by the Town Clerk.

On the motion of Mrs. Margaret L. Edgar, that fifty cents

per hour be paid for Town labor, eight hours to constitute a day's work, forty-seven (47) voted in favor and sixty-eight (68) against, and the motion was not carried, and was so declared by the moderator.

Voted, to adjourn.

GEORGE H. STEARNS, Town Clerk.

---

### STATEMENT OF DOG LICENSES ISSUED.

Whole number of dogs licensed,	146
Males,	123
Females,	23
Kennel,	1
Paid County Treasurer,	\$356.60
Fees, paid Town Treasurer,	29.40
Duxbury, Dec. 3, 1921.	

GEORGE H. STEARNS, *Clerk.*

---

### JURY LIST FOR TOWN OF DUXBURY FOR 1922

George A. Studley, laborer	Walter F. Weston, laborer

Harry E. Hunt, fisherman	Roy E. Parks, laborer

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

Town of Duxbury

For the Year Ending December 31

1921

## ORGANIZATION OF THE SCHOOL COMMITTEE.

Ralph K. Bearce, Chairman,	term expires in 1923
John Simmons,	term expires in 1924
Elizabeth A. Phillips, Secretary,	term expires in 1922

The regular meetings of the Committee are held at 2.00 p. m. on the first day of each month at the committee rooms.

## SUPERINTENDENT OF SCHOOLS.

Frederick E. Bragdon, Egypt, Mass.

Telephone Scituate 289-2

School Physician,	N. K. Noyes, M. D.
Attendance Officers,	Harry G. Freeman, Edw. S. O'Neil

## SCHOOL CALENDAR.

The winter term begins January 3, 1922 and closes February 24. Reopens March 6 and closes April 28.

The spring term opens May 8; closing (to be announced).

The fall term opens September 5 and closes December 22, 1922.

The winter term opens January 2, 1923.

## HOLIDAYS.

January 1, February 22, April 19, May 31, October 12, Thanksgiving Day and the day following.

## REPORT OF SCHOOL COMMITTEE

---

To the Citizens of Duxbury :

The School Committee, Superintendent of Schools, Principal of High School, Supervisors of Music and Drawing, herewith submit their reports.

Nineteen hundred and twenty-one has been an uneventful but successful year in many instances. The standard of our schools has been raised through the great efforts of our Superintendent and Teachers.

The Committee regretted the loss of some of our former teachers, but were very fortunate to fill the positions with successors who have maintained the standard of our schools.

As transportation was a much agitated question of the past year, it may be of interest to the citizens of Duxbury to know of the slight changes made. It was the intention of the Committee to discontinue one route in the west part of the town by combining North and West Duxbury, but the increase in the number of children would not allow the change to be made, so the two routes were continued.

Ashdod school being overcrowded, the Millbrook route was extended to North Duxbury with very little added expense, and eight children are now transported to Millbrook and Village school, which seems to be giving better satisfaction to all concerned.

The South Duxbury barge was discontinued on the Bay road, as the children were within the two mile limit. The Committee measured the distances as accurately as possible with a speedometer and the children who live outside of the two mile limit were allowed to ride in preference to others who live within the limit, this lessening the number

to be transported. Two miles seems a long distance for the lower grade children to walk, but all cannot be accommodated without an increase in the appropriation for transportation.

Only necessary repairs have been made. The partition in Ashdod school building was changed, the interior painted and a well driven (which is now an experiment on account of the location and subsoil), which will be greatly appreciated if proven a success.

The seats in Tarkiln Intermediate, South Duxbury, and Millbrook schools have been reversed. One side of the roof of Tarkiln Intermediate building was shingled, interior painted and cesspool and drain laid, as the waste water from the sink was contaminating the drinking water.

A new wardrobe was built in Tarkiln primary, and screens built in front of toilets where needed. The halls were sheathed and painted and ceilings murescoed in South Duxbury school house. At Village Grammar a partition was placed in the basement to provide a sanitary place for the making of cocoa. Minor repairs, which seem unnecessary to mention, were made on all buildings.

The supplies and movable property in Island Creek building were taken to the town office and schools where needed, in lieu of purchasing new.

Some of the buildings are very much in need of paint. This must be done next year if they are to be kept in proper repair. The grounds around the buildings need grading and beautifying in many of the districts.

Your Committee still has consolidation foremost in mind, as the present system is not entirely satisfactory and up to the standard, although a great improvement can be seen in the last few years. But the town still wishes to progress.

As has been expressed by a few, "One more burden has been added to the town by the State," a school nurse. Your Committee feel it is one more added item to the school

budget, but a great help in time of need, as there have been times when the school physician was not available.

This is an opportune time to express the Committee's appreciation of the kindness and assistance of the Duxbury Nurse Association, Inc., rendered the schools in past years. It is also timely to speak of the need of some means of comfort for the children when taken ill so far from home, other than a bare settee for a bed and a coat for a pillow. With a little expense a few army cots and quilts can be added to our school equipment, and when not in use can be folded and placed in closets. We trust this will meet with the approval of all interested.

We recommend for the support of schools for the year 1922 an appropriation of \$31,000, together with the dog fund and all reimbursements on school accounts.

In closing this report, your Committee wish to express their gratitude to the voters of the Town of Duxbury for their generous support in the past.

RALPH K. BEARCE, Chairman,  
ELIZABETH A. PHILLIPS, Secretary,  
JOHN SIMMONS

## SUPERINTENDENT'S REPORT

---

To the School Committee of Duxbury :

Complying with custom and statutory law I present herewith a review of the work of the schools for the year 1921. The facts of attendance and receipts and expenditures will be found in the statistical tables. The written reports of the Principal of the High School and Supervisor of Music accompany this report.

As we review the achievements of the year we find no outstanding events which merit our admiration or deserve criticism.

The schools have been operated as during the preceding year, with the exception of the Island Creek school, which was not opened in September because of the small number of pupils. Transportation routes were so arranged that the few children residing in this district could be carried to the West Side school. Thus the natural course of events gradually brings to pass the consolidation which in former years was offered as a desirable step and rejected. It is, perhaps, worthy of note that with the actual accomplishment of consolidation, there is less of objection and far more of satisfaction than was expected. This is also the experience of many communities.

Further drift in the direction of consolidation took place this last fall when motor transportation was extended to North Duxbury from the East Side. So far as reports have reached me, this arrangement, too, is proving satisfactory, or at least more satisfactory than the former way.

It is to be hoped that the good people of Duxbury will not forget that the housing arrangements for the West Side

schools is confessedly merely a temporary shift and by no means acceptable as a solution of the school problem. Let us hope that economic conditions will soon enable us to build a community building which will adequately and honorably reflect the intelligence and progressiveness of this section of the town.

It may be well to again call attention to the argument for a consolidated East Side school.

Consider the meaning in terms of profit to pupils and returns for expenditures, of these enrolment figures:

	I	II	III	IV
Millbrook	8	2	6	7
Point	8	1	3	5
South Duxbury	4	10	5	5
	—	—	—	—
	20	13	14	17—64

Here are three buildings maintained to do the work of two rooms.

Here are three teachers paralleling each other's work.

Here are twenty children of Grade I receiving the attention of a teacher less than one-fourth of the school day because of the four grades in one room.

Notice the single pupil of Grade II at the Point school, who ought to have as much time and attention from the teacher as a large class. If actually given, how expensive the instruction of that one child! Other illogical practices are easily seen in this simple tabulation or suggested by it.

The two rooms of the East Side Grammar school are filled to overflowing. Health and sanitation requirements call for more space. Should there be any further increase in school enrolment, problems will be created which will demand instant solution.

Enlargement of this building to provide for a splendid union school of six grades will be a step in the right direction, and in keeping with the best traditions of Duxbury.

But what about the upper grades? One answer is, a combined Junior and Senior High School at some easily accessible point, thereby removing the difficulties growing out of a double management of the High School plant. It seems but fair and just to call your attention to the unsatisfactory condition existing at the Academy in respect to heating, and the maintenance of fixed equipment. Much criticism has been made of the janitor service and the uneven temperature of the building, the temperature being excessively high in the annex and as excessively low in the old building.

From personal observation and investigation on a reasonably cold day, I conclude that the boiler supplying steam for the main building is too small to fill the pipes with live steam. Consequently laying the blame on the janitor is unjust. Whatever be the cause, we cannot expect the best results with the temperature twenty degrees too low for comfort.

The use of the building during the summer months has been the occasion, twice, of loss of school equipment, and has made necessary a lot of delay in finding books and materials for opening school in September. It would seem that some arrangement should be made in advance whereby the desirable use of the building might be continued, without subjecting the High School equipment to loss and derangement.

During the year the High School has had an entire change of teachers. Under the principalship of Mr. Mott for three years the school prospered greatly and gained recognition by the State and Collegiate Boards as a fitting school. Changes in teachers inevitably involve loss of motion, for a time, while acquaintances are being made and pupils and teachers are learning to work together. The present staff has the school well in hand. We expect the standards of the past year will be, not only maintained, but even surpassed.

The testimony of the teachers to the excellence of the preparation of the entering class is a tribute to our grammar school teachers, and confirms us in the belief that the course of study presented in the grades is suited to the needs of the pupils. Our attempt to "bridge the gap" between the eighth grade and the High School seems to have been somewhat successful. We hope to make it more so.

Looking forward—what needs to be done to make education more efficient? While we await the equipment for reorganization we can merely strive to get the best possible results from what we have—and we have a good deal.

We are emphasizing as best we can the importance of thoroughness in fundamentals—the ability to read, thoughtfully and pleasingly, the acquirement of a good and attractive handwriting, the habit of correct speech. On the side of character-training we sometimes feel keenly the apparent laxity of home training in courtesy and obedience to authority. Not all of us are agreed that the social customs of the day, the inter-sex freedom, the extremes of dress, and too frequent dances are conducive to the formation of high ideals or to the fixing of high standards of conduct. The school can help in these things, but the hearty cooperation of school and home, and a public sentiment that makes itself felt are absolutely necessary for the greatest success in character-forming.

The more isolated our several schools are, the more desirable it seems to me, are activities which bring together both parents and pupils from widely scattered sections of the town. Carnival days, exhibitions, friendly contests, athletic sports, and the like, have high social value if kept on a high plane. Would it not be worth while to make more of the closing week of the school year and try to arrange a grand gala occasion for the whole town, which shall be at the same time instructive and entertaining, and a demonstration of community enterprise? We are not able to do much in this

line during the cold weather, but with the coming of spring it seems easily feasible, and very worth while to direct our school work along lines of cooperative projects which will bring us together in thought and sympathy and be productive of real pleasure as well.

It seems quite superfluous to make any statement concerning the good will and friendliness that has been so manifestly present in and about all the work of the year, between Committee, teachers, citizens, pupils, and Superintendent.

The cheery faces of the children, their frank and hearty greetings make visiting schools a pleasure and lead one to think that perhaps the parents, too, though seldom seen, are nevertheless contributing their sympathy and appreciation through the children. However that may be, no censorious complaints have come to me, which in itself is a cause of pleasure.

Respectfully submitted,  
FREDERICK E. BRAGDON, Superintendent.

## HIGH SCHOOL REPORT

---

To the Superintendent of Schools:

An educator of note recently defined a good school as “a place of happiness, busyness and reasonable quiet.” I believe our school has attained the first and third of these objectives and is steadily moving on toward the second.

It would seem fair to interpret enrollment and attendance as measures of happiness, and in these important respects the same advances which have marked the last three school years have continued through the fall term of 1921.

The following tabulation will prove helpful:

	Total Enrollment	Average Attendance	Average Membership	Per Cent. Attendance
Fall term 1918,	53	48	51	90
Fall term 1919,	61	56	60	92
Fall term 1920,	64	56	59	93
Fall term 1921,	74	66.7	70	95.34

As a fine illustration of the splendid spirit which has obtained, we might cite the fact that recently (one cold morning when the Tarkiln bus failed to function) 14 of the 15 boys and girls usually transported by it, tramped over the road and reported less than half an hour late.

### THE ENTERING CLASS.

I desire particularly to speak of the entering class, which seems to be strong in numbers (27), strong in preparation, and strong in possibilities. There is within it, further that positive leadership of the right sort without which any

high school class is seriously handicapped. This class will make its presence felt for four years.

### NEW TEACHERS.

Since September 1920, there has been a clean sweep in the teaching force, and three of the four began their work here in September 1921. We have, however, been greatly favored by freedom from interruption in that neither the school nor any teachers have lost an hour of school time.

### RETENTION OF PUPILS.

Only three pupils have left school at this writing, all freshmen who have removed from town.

### TARDINESS.

Tardiness is on the increase, and, as it is customary for school people to give the "credit" for all shortcomings to parents, we are asking for a higher degree of cooperation to check the tendency.

We regret, too, that not less than 12 pupils found it necessary to delay entering school for from one day to ten weeks. Still this is not unusual in summer resort towns.

### ORAL THEMES.

It seems advisable to us to stress oral rather than written themes for at least the half of the school year. The average person makes his education felt far more by his speech than by his writing.

### THE NEW DICTIONARIES.

No more important addition to the school's equipment could have been made than the Winston dictionaries, recently supplied to the whole school by vote of the committee.

### CHRISTMAS SEALS.

The drive to sell these seals for the benefit of the Massachusetts Tuberculosis League was engineered by the High School with several other agencies assisting. We are hereby gratefully acknowledging this aid.

The drive netted \$79.56, in comparison with \$44.19, the amount the town contributed last year.

### OTHER MATTERS.

It seems wise to defer any discussion of other matters until further observations can lead to better based opinions.

I desire to record herewith my sincere appreciation of the efforts of all who are cooperating with me, supervisors, teachers, committee and parents.

Respectfully submitted,

ROBERT CUSHMAN, Jr., Principal.

## REPORT OF SUPERVISOR OF MUSIC.

---

To the Superintendent of Schools of Duxbury:

In the grade work this year I have pursued the same policy as last year, in trying to give the average boy and girl a chance to learn note-reading, rather than to do brilliant work on exhibition days, or to develop the most musical minority to a fine degree of excellence. The teachers almost unanimously, I think, endorse this policy, and certainly all cooperate to further it.

The shortening of the High School periods gave such a short time for music that the principal kindly arranged to give me an extra period beside the prescribed hour for general chorus singing. We had no trouble in getting together a glee club of the best musical talent in the school, and here we have a little opportunity for individual training.

Two new books were purchased for the music department this year. One, a volume of two-part songs for the Intermediate schools, supplements the Second Reader, which offers scant material in the two-part singing so desirable in these grades. The other, a volume of four-part songs for the High School, is the first of its kind introduced here for many years, and was much needed, both for the music periods and for the semi-weekly assemblies. Both books have been a great help in stimulating interest in our music. I believe our particular need of equipment in this department now is a volume for the grammar schools which shall give the boys more practice in reading from the bass-clef, as our present material in this line is meagre, and I feel sure the boys entering High School are handicapped for want of such training.

I wish to express my appreciation of the strong support of the grade teachers, without which I realize my work could not be effective, and to thank the High School staff for their interest and assistance.

Respectfully submitted,

REBECCA PHILLIPS, Supervisor of Music.

---

## REPORT OF SUPERVISOR OF DRAWING.

---

Note: The Supervisor of Drawing is unfortunately under quarantine at this time and therefore unable to submit a written report of his work. Instruction has been given regularly along the same lines as in former years and with as good success.

F. E. Bragdon, Superintendent of Schools.

GRADUATION EXERCISES OF PARTRIDGE ACADEMY  
AND THE DUXBURY HIGH SCHOOL, CLASS OF  
1921.

Unitarian Church, Wednesday Evening, June 22, 1921.

Fence Viewers—Charles R. Crocker, J. Knowles Parker, Edward S. O'Neil.

Keeper of Almshouse and Pound—Herbert Packard.

Superintendent of Streets—Edward S. O'Neil.

Town Physician—Nathaniel K. Noyes, M. D.

## REPORT OF THE SELECTMEN

---

To the Citizens of Duxbury:

Your Board of Selectmen make the following report:

In accordance with the vote of the Town, Powder Point Avenue has been completed from the residence of Mr. Phillips easterly to the Gurnet Bridge, all within the appropriation of \$4,000.

Sunset Road also has been completed from Washington Street to Chapel Street making this one of the prettiest little streets in town.

The Gurnet Road, so-called, at the northerly end of Duxbury Beach, has been repaired satisfactory to the property owners there. There is a small section just northerly of this street that needs repairs the coming spring.

Temple Street at North Duxbury has been greatly improved considering the material available for use.

A section of Standish Street has been graded and drained in anticipation of having funds the coming spring available for applying a surface of asphalt.

The question of clearing the streets of snow is getting to be a question of great importance. A majority of people now travelling by automobile are demanding that the streets in all parts of the town, even the most remote location be cleared immediately which means an enormous appropriation if there is much snow.

We believe that with two snow ploughs of a type suitable for a three or four ton truck used in the proper time and in a proper way can clear the streets within a reasonable time.

Your board recommends that we have all improvements

possible, bearing in mind at all times that the same must be paid for. Before deciding on the appropriations asked for the coming year consider your tax bill that you know you will receive the following fall and see if you really can afford to pay any higher rate than last year.

Respectfully submitted,

SIDNEY C. SOULE,  
WENDELL PHILLIPS,  
ALFRED E. GREEN,

Selectmen of Duxbury.

**REPORT OF AN AUDIT OF THE ACCOUNTS OF THE  
TOWN OF DUXBURY.**

---

FOR THE YEAR ENDING DECEMBER 31, 1921

---

April 22, 1922.

To the Board of Selectmen,  
Mr. Sidney C. Soule, Chairman,  
Duxbury, Massachusetts.

Gentlemen:

I submit herewith my report of an audit of the accounts of the town of Duxbury for the year ending December 31, 1921, made in accordance with the provisions of Section 35, Chapter 44 of the General Laws.

This report is in the form of a report made to me by Mr. Edward H. Fenton, Chief Examiner of this Division, who was placed in charge of the work.

Very truly yours,

THEODORE N. WADDELL,

Director of Accounts.

Mr. Theodore N. Waddell,  
Director of Accounts,  
Department of Corporations and Taxation,  
State House, Boston.

Sir:

In accordance with your instructions, I have made an audit of the accounts of the town of Duxbury for the financial year ending December 31, 1921, and submit the following report thereon:—

The books and accounts in the selectmen's office were examined and checked in detail. The recorded receipts were compared with the treasurer's books, and the expenditures were checked with the bills, pay-rolls and with the treasury warrants. The ledger accounts of appropriations were checked to the town clerk's records. The ledger was analyzed, a trial balance taken off, and a balance sheet prepared. The classification book was neatly and accurately kept and proved to the ledger accounts.

The books and accounts of the treasurer and collector of taxes were examined and checked. The treasurer's cash book was proved and checked to the records in the selectmen's office. The cash on hand February 1, 1922, was verified by an actual count and the bank accounts were reconciled with statements furnished by the bank. The trust funds in the custody of the treasurer were verified by an examination of the savings bank books and by checking the income and expenditures with the records in the selectmen's office.

The accounts of the collector of taxes were verified and checked. The commitments were proved to the warrants, collections were checked to the commitment book, and payments to the treasurer were compared with the treasurer's records of receipts. The abatements were checked to the assessors' records of abatements granted, and the outstand-

ing accounts were listed and verified by the mailing of verification notices to a number of persons whose names appeared on the books as owing money to the town. One claim was made that the tax had been paid and was investigated. The amount in question is probably a part of the collector's cash over, therefore with the possible exception of a clerical error, I am satisfied that the accounts are correct. The collector's cash on hand was verified by an actual count on February 1, 1922.

The financial records of the town clerk and of the sealer of weights and measures were examined and checked to the treasurer's and the selectmen's records.

The records of departmental accounts receivable are incomplete, and I would suggest that these accounts be brought through the books so that they may be shown on the balance sheet. It was also found that there were unpaid bills, on account of various departments, amounting to \$731.26, which should be reported. These bills, however, should not be shown as a liability on the balance sheet in case they represent bills in excess of the appropriation, or at least they should not be so shown until they are validated by vote of the town.

Appended to this report are tables showing a reconciliation of the treasurer's and collector's cash, summaries of the tax, assessment, town clerk's, and sealer of weights and measure's accounts, together with tables showing the condition of the trust funds and a balance sheet.

While engaged in making the audit I received the hearty cooperation from every town official, and on behalf of my assistants and for myself I wish to express to them my appreciation of the courtesy extended and assistance rendered.

Respectfully submitted,

EDWARD H. FENTON,

Chief Examiner.

## TOWN MEETINGS

---

### ANNUAL TOWN MEETING, MARCH 11, 1922.

Chose Harry B. Bradley, Moderator.

The Tellers, Harold F. Hanigan, Harry A. McNaught, Herbert Packard and Ray M. Parks, were sworn by the Town Clerk.

The polls were opened at 6 and closed at 11 o'clock A. M., and at that time it was voted that a recess of an hour be taken.

The register on the ballot-box indicated 120, there were 120 names checked on each list and 120 ballots were counted from the ballot-box.

Following is the result of balloting for Town Officers:

For Selectmen for one year:

Alfred E. Green,	83 votes
Wendell Phillips,	99 votes
Sidney C. Soule,	107 votes
Scattering,	7 votes
Blanks,	64

For Assessor for three years:

Alfred E. Green,	78 votes
Scattering,	4 votes
Blanks,	38

For Overseers of the Poor for one year:

Alfred E. Green,	81 votes
Wendell Phillips,	96 votes
Sidney C. Soule,	105 votes
Scattering,	5 votes

Blanks,	73
For Town Clerk for one year:	
George H. Stearns,	110 votes
Blanks,	10
Town Treasurer for one year:	
George H. Stearns,	107 votes
Scattering,	1 vote
Blanks,	12
Collector of Taxes for one year:	
George H. Stearns,	108 votes
Scattering,	1 vote
Blanks,	11
Constables for one year:	
Charles S. Pierce,	94 votes
Warren C. Prince,	89 votes
Robert I. Tower,	88 votes
Scattering,	2 votes
Blanks,	87
School Committee for three years:	
Elizabeth A. Phillips,	100 votes
Blanks,	20
Board of Health for three years:	
Paul C. Peterson,	97 votes
Scattering,	2 votes
Blanks,	21
Cemetery Trustee for five years:	
Albert M. Goulding,	98 votes
Blanks,	22
Tree Warden for one year:	
John D. Morrison,	100 votes
Scattering,	1 vote
Blanks,	19
Auditor for one year:	
Charles L. Simmons,	98 votes
Blanks,	22

“Shall Licenses be granted for the sale of certain non-intoxicating beverages in this town ”

“Yes”,	71
“No”,	40
Blanks,	9

Voted, that the Selectmen appoint the necessary officers not chosen by ballot.

Voted, that it is the sense of this meeting that the Selectmen be requested to take steps to change the form of the annual town meeting, one day to be for election of Town Officers and another day for action on the other articles of the warrant, 32 voting in favor and 26 in opposition.

Voted, that the reports of the various Town Officers and Committees be accepted as printed in the Town Report.

Voted, to raise and appropriate the sum of \$1,109.88 for payment of bills remaining unpaid in the various departments for the year 1921, and over-drafts in Police, Forest, Fire and Snow departments.

Voted, to raise and appropriate \$39,941.14 as follows:

Resurfacing St. George and Washington Sts.,	
Loan of 1917,	\$800 00

Town Physicians,	400 00
Repairs of Gurnet Bridge,	762 31
Selectmen's Department,	1,200 00
Election and Registration,	350 00
Treasurer's Department,	950 00
Collector of Taxes Department,	1,000 00
Assessors' Department,	1,200 00
Law Department,	500 00
Town Office and Hall,	1,000 00
Town Clerk's Department,	450 00
Accounting Department,	600 00
Police Department,	500 00
Department of Sealer of Weights and Measures,	150 00
Bounties on Hawks, Crows and Seals,	75 00
Unclassified Department,	1,300 00
Town Dump (to be expended under the direction of the Selectmen),	100 00

For regular maintenance and repairs of Highways, Bridges and Sidewalks (including new construction),	7,500 00
Town Landings,	50 00

Voted, to raise and appropriate the sum of \$300, to be expended under the direction of William Wadsworth Post No. 165, G. A. R., for the observance of Memorial Day.

Voted, that the Treasurer, with the approval of the Selectmen, be authorized to borrow money from time to time, in anticipation of revenue for the financial year, beginning January 1, 1923, and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of said financial year.

Voted, to indefinitely postpone action on Article 9, which reads, "To see if the Town will vote to authorize its Treasurer, with the approval of the Selectmen, to hire money to continue the moth work from December 1, 1922 to March 1, 1923."

Voted, to raise and appropriate \$500 for a reserve fund for the year 1922.

Voted, to raise and appropriate \$200 for the use of the Plymouth County Trustees for County Aid to Agriculture, as provided in Chapter 273, of the Acts of 1918, and chose Alpheus H. Walker as Town Director.

Voted, to raise and appropriate \$4,000 to resurface with sand asphalt that portion of Powder Point Avenue from the residence of Mr. Phillips, easterly to Gurnet Bridge.

Voted, to lay on the table Article 13, which reads, "To see if the Town will raise and appropriate a sum of money to resurface with sand asphalt or other suitable material, the road called Surplus Street, beginning on the easterly end of Washington Street to the westerly end which joins Depot Street, and take any other action thereon."

Voted, to lay on the table Article 14, which reads, "To see if the Town will build a sand or gravel asphalt road from

the State Road at Island Creek Post Office over Park and Loring streets to Bay Road, and appropriate money for the same.”

Voted, to raise and appropriate \$1,500 to fix and repair Temple Street from Laurel Street to Franklin Street.

Voted, to raise and appropriate \$1,000 to resurface Sunset Road with sand asphalt.

Voted, to raise and appropriate \$1,000 for repairs of that part of Standish Street which leads southerly from the end of Marshall Street.

Voted, to raise and appropriate \$1,000 for repairs of the roads at Duxbury Beach.

Voted, to indefinitely postpone Article 19, which reads, “To see if the Town will take any action regarding building a sea wall at Duxbury Beach between Webster Island and the Hummock”.

Voted, to lay on the table Article 20, which reads, “To see what action the Town will take, if any, regarding changing the location of Town Landing and entrance thereto, northerly of premises of the late Captain Adams.”

Voted, to indefinitely postpone Article 21, which reads, “To see if the Town will vote to instruct the Selectmen to lay out a Town Landing on the southerly side of Powder Point, called Cedar Pond.”

Voted, to raise and appropriate \$1,000 for the purchase of books, to be expended under the supervision of the Trustees of the Duxbury Free Library.

Voted, to lay on the table Article 23, which reads, “To see what action the Town will take regarding discontinuing flagmen at Harrison and Surplus Streets, to be substituted by automatic signals.”

Voted, to raise and appropriate \$2,000 to enlarge Mayflower Cemetery.

Voted, to raise and appropriate \$200 for a road index and plan, also file and index for same.

Voted, to raise and appropriate \$300 to be spent by the Selectmen in establishing the bounds of town ways.

Voted, that the Selectmen be instructed to obtain and publish an opinion of the Town Counsel as to the rights and restrictions of the land owners, citizens and others, to the shore and town landings.

Voted, to raise and appropriate \$250 to purchase settees for the Town Hall.

Voted, to raise and appropriate \$250 for signs about town, \$45.91 of this amount to be paid to Mr. Alfred E. Green as a refund for money paid out for street signs.

Voted, that the sum of \$25 be expended for one or more portfolios for the proper filing of blueprints, maps, etc., in the office of the Town Clerk, this amount to be taken from the Unclassified Account.

Voted, to authorize the Selectmen to appoint a Committee of Citizens to investigate, and report at the next Town Meeting, on the possibility of establishing a Town Forest, and to appropriate the sum of \$25 for the use of this Committee, who are to serve without pay; and Frederick B. Knapp and John D. Morrison were appointed to serve on this Committee.

Voted, to lay on the table Article 36, which reads, "To see if the Town will raise and appropriate the sum of \$1,000 for the Gypsy Moth Department;" Article 37, "To see if the Town will vote to raise and appropriate the sum of \$1,500 for the purchase of two one-ton trucks for the Highway Department;" Article 38, "To see if the Town will vote to instruct the Selectmen to widen the easterly end of Winsor Street."

Voted, to instruct the Selectmen to sell the old schoolhouse lot at the Corner of Chandler and Summer streets at public auction.

Voted, that \$25 be paid the Moderator for his services.

Voted, to adjourn.

GEORGE H. STEARNS, Town Clerk.

## SPECIAL TOWN MEETING, MAY 6, 1922.

On the motion of Sidney C. Soule it was unanimously voted that the Town Clerk deposit one ballot for Alfred E. Green for Moderator, and Alfred E. Green was chosen Moderator.

Voted, to raise and appropriate \$1,000 for the Moth Department, 11 voting in favor and 6 in opposition.

Voted, unanimously, to adopt the following resolution, offered by Charles S. Clark:

“Be It Resolved:

Citizens of Duxbury in town meeting assembled hereby represent to His Excellency the Governor that the assessed valuation of real and personal property is less than six million dollars, that they have already appropriated town funds to an amount equal to one twenty-fifth of one per cent. of their assessed valuation of real and personal property, for the suppression of Moths.

They question the authority of the State Forester to order a further expenditure and respectfully request His Excellency to secure the opinion of the Attorney General with respect thereto.

Having complied with the requirements of G. L. C. 132, S. 13 and the Forester is of the opinion an amount in addition is necessary, they respectfully request His Excellency to direct that the Commonwealth shall expend within the limits of the town for the suppression of said Moths such an amount as the Forester, with the advice and consent of the Governor, shall determine,”

and that a copy be forwarded to His Excellency, the Governor.

Voted, to lay Article 3, which reads, “To see if the Town will vote to transfer any unexpended balances from special highway appropriations of 1922 to the general highway account, and take any other action thereon,” on the table.

Voted, to indefinitely postpone Article 4, which reads, “To

see if the Town will raise and appropriate the sum of \$250 for electric lights on Marshall Street and Columbus Avenue.

Voted, to adjourn.

GEORGE H. STEARNS, Town Clerk.

---

May 8, 1922.

To His Excellency the Governor,  
State House, Boston, Mass.

Dear Sir:

At a special town meeting held in Duxbury on May 6, 1922, the following resolution, offered by Mr. Charles S. Clark, was adopted:

“BE IT RESOLVED:

Citizens of Duxbury in town meeting assembled hereby represent to His Excellency the Governor that the assessed valuation of real and personal property is less than six million dollars, that they have already appropriated town funds to an amount equal to one twenty-fifth of one per cent. of their assessed valuation of real and personal property, for the suppression of moths.

They question the authority of the State Forester to order a further expenditure and respectfully request His Excellency to secure the opinion of the Attorney General with respect thereto.

Having complied with the requirements of G. L. C. 132, S. 13 and the Forester is of the opinion an amount in addition is necessary they respectfully request His Excellency to direct that the Commonwealth shall expend within the limits of the town for the suppression of said Moths such an amount as the Forester with the advice and consent of the Governor, shall determine ”

Yours very truly,

(Signed)

GEORGE H. STEARNS, Town Clerk.

State House, Boston (9),  
May 17, 1922.

Mr. George H. Stearns,  
Town Clerk, Duxbury, Mass.

Dear Sir:

Your letter of May 8th addressed to the Governor containing a copy of a resolve adopted at a special town meeting held in Duxbury on May 6th has been referred by His Excellency to this department, with the request that this department obtain from the Attorney General an opinion on the specific question,—Has the State Forester authority under the law to require a town to spend money in excess of one twenty-fifth of one per cent. of its assessed valuation for the suppression of gypsy and browntail moths?

Pursuant to the above request, on May 17th this office consulted the Department of the Attorney-General, and all the facts surrounding the case were submitted, and after taking sufficient time to read the law very carefully the Attorney-General's office expressed the opinion that the State Forester has in no wise exceeded the authority granted him by law in requiring a continuation of moth-suppression work in the town of Duxbury which would involve an expenditure of one thousand dollars in addition to the amount already expended there this year.

Very truly yours,

(Signed)

W. A. L. BAZELEY,  
State Forester

---

#### SPECIAL TOWN MEETING, JULY 5, 1922.

The Town Clerk not being present, the meeting was called to order by the Chairman of the Selectmen, and Wendell B. Phillips was chosen Clerk Pro Tem.

Voted, unanimously, that the Clerk deposit one ballot for Charles S. Clark for Moderator.

Voted, to raise and appropriate \$250 for approximately sixteen electric street lights from where they now discontinue on Standish Street, through Marshall Street to and through Columbus Avenue.

Voted, to raise and appropriate \$1,800 for a suitable chassis to carry the apparatus and hose at No. 2 Engine House.

Voted, unanimously, to raise and appropriate \$500 for the Police Department.

Voted, unanimously, to raise and appropriate \$300 for the Forest Warden Department.

Voted, unanimously, to raise and appropriate \$795.56 for repairs of Gurnet Bridge for year 1920

Voted, to adjourn.

WENDELL B. PHILLIPS, Town Clerk, Pro Tem.

---

SIDNEY C. SOULE,

ALFRED E. GREEN,

Assessors of Duxbury.

## REPORT OF OVERSEERS OF THE POOR

---

Your Board of Overseers make the following report:

The work of caring for the needy does not vary much from year to year. While the Town may relieve itself of some expensive case by some reason or other, and things look bright for a smaller appropriation needed. There always seems to be another of equal expense appear which makes it impossible to reduce the appropriations.

There have been several deaths at the Almshouse the past year. At the present time there are five inmates living, three men and two women.

The work of caring for people of the age and condition of the inmates at the Almshouse at the present times is very hard and needs the attention of the best ability and disposition a person can furnish. We believe the present caretakers there fill the needs beyond question.

The out-of-town cases cared for in Duxbury amount to about \$1,000 annually, making the appropriation asked for greater than we actually need for our own poor.

We would suggest that we be granted the amount asked for the coming year which will be listed in the appropriation recommendations.

Respectfully submitted,

SIDNEY C. SOULE,

WENDELL PHILLIPS,

ALFRED E. GREEN,

Overseers of the Poor.

## REPORT OF THE HEALTH DEPARTMENT

The year 1922 has been free from any epidemics and the communicable diseases total but 15 as against 106 of last year.

The work of the board has been largely along preventive lines with results very gratifying. We have answered several complaints regarding unsanitary conditions on private property and in each case these conditions have been remedied, although in some instances not without persistent effort on the part of this board. A general survey of sanitary conditions in all parts of the town has been made, recommendations offered, and on the whole a marked improvement has been shown. In the near future toilet facilities should be erected at the Green Harbor end of Duxbury Beach and at Powder Point Bridge. Care should be exercised at the camp sites off Bay Road in constructing cess-pools and driving wells.

You will note in the financial report, a reimbursement to the town of \$418.10. This was long overdue the town from the State Board of Charity and though out of our jurisdiction, was collected through the persistent efforts of this board.

The dairy inspection has shown good results this year and in closing we refer you to a complete report herein published, showing activities in that direction. The inestimable results of this work cannot well be overlooked.

Following is a list of communicable diseases within the town this year: Measles, 5 cases; Chicken Pox, 4; Scarlet Fever, 2; Diphtheria, 1; Pulmonary Tuberculosis, 1; Mumps, 1; Anterior Poliomyelitis, 1.

Respectfully submitted,

PAUL C. PETERSON, Chairman,  
CHARLES W. EATON, Secretary,  
EUGENE E. COVELL.

## DAIRY INSPECTION, 1922

In conformity with the laws relative to the production and sale of milk, over 100 places were visited and 91 permits to produce and sell milk were granted. These expire April 1, 1923, and unless the producer is found to be complying with the rules as posted up in each barn, to the extent that the milk is deemed clean and safe for infants, no new permit will be granted until such compliance is made.

It is a well established fact the world over, that the mortality of the bottle-fed infant is frightfully in excess of that of the breast-fed infant and this excess of mortality is in great measure due to intestinal trouble or communicable diseases caused by contaminated or infected milk. The health and cleanliness of the cow is of first importance and the health and cleanliness of the person or persons caring for the cow is of almost equal import. The more important diseases of man that milk may play a chief part in transmitting, are Tuberculosis, Diphtheria, Typhoid, Scarlet Fever, and Septic Sore Throat. A volume could easily be written on the method and results of the same, but it is enough to say that if we expect to save the bottle-fed infant, it must have clean and safe milk.

On the first inspection of 1922, there were found only 31 dairies with a score of 60 or more out of a possible 100. There were the same number with a score ranging from 50 to 55. There were 22 whose score was less than that of 1921 and 25 scoring the same as in 1921 or with a difference of only one point. The U. S. score card was used and the producers were given the most favorable score possible. There were 40 or more who were warned and recommendations made. The second inspection found all but 11 had complied to a far greater extent than the most optimistic inspector would have dared hope. The other 11 were given another chance and when inspected later, had done fairly well. Two permits were revoked but on compliance with the rules were reissued.

The 91 producers keep 237 cows which at the time of inspection were giving 479 gallons of milk daily. Five had 13 or more cows; six between 3 and 13; ten had 3; twenty-five had 2; and forty-five had only one. Those keeping only one or two cows do so for their own families and to accommodate, supply one or more neighbors. Generally speaking the conditions are primitive. Those keeping from 3 to 10 cows have in most instances modernized and improved both methods and equipment; and the five keeping 13 or more have invested considerable money in their plants and are thoroughly equipped.

But some of these say and with considerable truth, "What is the use? The man who keeps a scrub cow in an old barn, uses no ice, and keeps the milk stored in the pantry unbot-tled, gets the same price per quart as I". True; but a scrub or even a grade cow kept under such conditions, with sometimes a quart or two of grain and watered once daily, will produce but little milk and that which barely gets by with the requisite amount of milk-fat and solids." The inspector is fully convinced that in justice to all, milk should be graded. Then each one would get paid for what he had,—either grade A or grade B. Then the dairyman keeping high grade, tuberculin-tested cows, under the most sanitary conditions, can command and receive a higher price for his output than the man selling grade B milk. This is because the one selling A grade furnishes an implied guarantee that the milk so sold is clean and safe even for babies, while those buying B grade know that it is inferior and will see that it is not given to infants. A copy of the law governing A grade milk may be found in General Laws, Chap. 94, Sect. 13.

Thanking all who so willingly co-operated in the producing of clean and safe milk for babies, I submit this report.

CHARLES W. EATON,  
Dairy Inspector of the Board of Health.

## REPORT OF THE MOTH DEPARTMENT

To the Honorable Board of Selectmen:

Gentlemen—I submit the following report of moth work done since last report:

Worked two weeks in October, 1921, and three days in January, 1922, treating roadside trees. Started roadside treating again about the first of February, 1922. Continued this work until May 19. Started spraying May 20th, stopped spraying July 1. Started creosoting roadside trees September 16, 1922, continued this work until November 30, 1922. Started creosoting roadside trees again January 10, 1923, which I am still doing.

Respectfully submitted,

JOHN D. MORRISON, Local Superintendent.

---

## REPORT OF THE TREE WARDEN

To the Citizens of Duxbury:

The work in this department this year has been trimming trees on Sunset Avenue, cutting down three dead trees on Elm Street, and one on Franklin Street.

There should be some work on Elm Street as the trees there are in very bad shape.

I am handicapped for lack of funds to do the necessary work.

Respectfully submitted,

JOHN D. MORRISON, Tree Warden.

## REPORT OF THE STREET DEPARTMENT

To the Honorable Board of Selectmen and Citizens of Duxbury:

Gentlemen—During the past year the usual work on highways was completed.

Powder Point Avenue and Sunset Road were built for the appropriation voted, also repairs were made on Gurnet Road at Duxbury Beach, residents there being well pleased with what was done.

The appropriation to be spent from Laurel to Temple Streets, North Duxbury, was used, although it was late in the fall when finished, is I believe in satisfactory condition as far as we went.

On Standish Street part of the work was done but on account of lack of funds it was laid over until spring. There are 60 barrels of asphalt on hand to be used on this road.

We also repaired the sidewalk and gutter in front of Dr. Noyes' house, he hiring the men and trucks and paying the Town for material used.

The machinery has been cleaned and housed for the winter.

Respectfully submitted,

EDWARD S. O'NEIL, Superintendent of Streets.

---

## REPORT OF FOREST WARDEN

To the Honorable Board of Selectmen and Citizens of Duxbury:

The year just passed has been one of the worst in the history of this department. For six weeks we fought fires almost continuously. During that time we were called and assisted the towns of Kingston, Marshfield and Hanover.

The men doing their work very efficiently were a credit to the town. I am having the Ford chassis that was taken from No. 2 Engine House fitted with a skeleton body, suitable for carrying extinguishers and other equipment for forest fire work, to be located at E. S. O'Neil's. Have installed the truck at North Duxbury previously mentioned. It has done good work and given general satisfaction. I am also having an emergency truck suitably equipped, located at Cushing's Garage. The railroad's right of way through the town was in a very dangerous condition, but they, co-operating with me, burned it, the work being done under my personal supervision and as a result we have had practically no fires from that source. Asking for the same loyal support and co-operation you have given me in the past, I remain,

Respectfully yours,

H. E. MERRY, Forest Warden.

---

## REPORT OF THE FIRE DEPARTMENT

To the Honorable Board of Selectmen and Citizens of Duxbury:

We have had very few house fires in the past year and no great financial loss. The quick response and hearty interest taken by the men, also the efficiency of the telephone operators are responsible in a large measure for this.

At a bad woods fire the No. 2 Ford chassis, being overloaded, broke an axle, putting the men to a great disadvantage in the face of a bad fire. At a special town meeting it was voted to purchase a suitable chassis for No. 2 Engine House. A Brockway truck was purchased, the Brockway being recommended by the American La France Fire Engine Co. as being the best for work and would recommend at this time that a similar one be placed in Engine House No. 1.

If this was done it would complete our fire fighting system. I would also call your attention again to the great efficiency of bicarbonate of soda as was demonstrated at the Blue Fish River Landings. There is nothing better known to science for gasoline, oil or chimney fires. I have it in cartons at the Town Farm, come and get it and make your homes and garages safe with it. Under other names it costs three dollars and a half, but this is free.

Respectfully submitted,

H. E. MERRY, Fire Chief.

---

## REPORT OF DUXBURY FREE LIBRARY

To the Selectmen:

The number of books issued last year by the Duxbury Library was 15,545. This practically equals the circulation of the previous year. August was the banner month with an issue of 2,142 volumes. Approximately a quarter of the books taken out were non-fiction. North Duxbury, South Duxbury, Ashdod and High Street benefited as in the past through the basket delivery.

The Library has been strengthened by the addition of 737 new volumes. This excellent showing was made possible by the money appropriated by the Town. As many as 625 books have been rebound, and thus placed again in circulation.

The aim of the Board of Trustees is to secure for Duxbury the choicest and best of what each year produces in the field of literature. The use made of the Library justifies the belief that Duxbury appreciates its opportunity.

RICHARD T. LORING, Clerk.

## In Memoriam Elisha Peterson

October 20, 1857—October 4, 1922

By the death of Mr. Elisha Peterson, who for more than thirty years was a member and Secretary of the Board of Trustees of Duxbury Cemeteries, the remaining members of the board feel that the community have lost an energetic and efficient official and that we have lost a cordial co-worker and loyal friend.

In his quiet, unassuming way and the sympathetic manner in which he discharged his duties in times of sorrow and affliction, he won the respect and gratitude of those whom he served and many are the expressions of esteem and sense of loss that have been spoken.

During his long service as Trustee he obtained much historical data that has been of great help in making our records as complete as possible, and for their accuracy much credit is due to his untiring efforts.

## REPORT OF CEMETERY TRUSTEES.

To the Honorable Board of Selectmen and Citizens of Duxbury:

Much work has been accomplished in the cemeteries this past year. The Gypsy moths have been kept well in hand. Quite a number of trees have died during the year, several of them large ones, and have had to be removed. Much credit is due to the cemetery workmen in getting these trees down and cut up without causing any damage to the numerous monuments with which they were surrounded.

The cemetery lots have been fertilized and have been mowed several times. That together with the copious rains has given them a fine appearance.

Many of the avenues have been rebuilt and are now in good condition, this being made necessary by the heavy motor vehicle travel and also by the wash of the rains on the side hills. The leaves have been raked in Mayflower cemetery and other necessary work has been done in this and other cemeteries under our care. Martin Hanigan was appointed superintendent to fill the vacancy caused by the death of Elisha Peterson, who filled the position in such an able manner for so many years. We feel that the appropriation for the past year has been judiciously spent and would ask for a like appropriation for this coming year, namely fifteen hundred dollars.

In asking for this amount for cemeteries for 1923 we would respectfully call your attention to the fact, that aside from Mayflower cemetery there are three outlying cemeteries that come under our supervision. Ashdod Cemetery, one of the early burial places and still in use for the purpose for which it was intended, is of great interest to the citizens in that vicinity and requires care and attention. Standish Cemetery, situated on one of the main streets at South Duxbury is of historical interest, and is visited by many

people from all sections of our country. For the good name of the town, if for no other reason, it should be kept in as neat and attractive appearance as possible. Dingley Cemetery at North Duxbury is one of, if not the earliest burial grounds in the westerly part of the town. There have not been any interments there in recent years, but one Revolutionary soldier, one of the war of 1812, and several of the early settlers of the town were buried there. It is now surrounded by a neat fence and we feel that the grounds should not be allowed to grow up to weeds, brush and scrub oaks.

### PERPETUAL CARE FUND.

We are told by the State Bureau of Statistics that Mayflower, as a town cemetery, has one of the largest "Perpetual Care Funds" in the State. For the benefit of some who do not understand the way the law requires that the "Perpetual Care Funds" be expended, we would explain. When a sum of money is provided for the perpetual care of a lot, that money is deposited in the bank and the interest withdrawn by the Town Treasurer. That interest is expended upon the lot by direction of the Cemetery Trustees, and then only by the approval of the Selectmen. The principal cannot be used. December 31, 1921, there were one hundred fourteen named funds in the Duxbury Cemetery Trust Fund Account.

This past year, 1922, thirteen more have been added.

### CEMETERY EXTENSION.

Considering the area and shape of the tract of land on the westerly side of Mayflower Street, a part of the present cemetery but never used, it was not thought to be economical or practical to develop it in its present condition as it would only meet the requirements of the community for a limited period. The Conservation Committee relinquished their

control of a tract of land for cemetery purposes. The George M. Winslow heirs sold to the town the so-called Winslow Lot, for the same purpose, for one hundred dollars. At the same time the Winslow heirs deposited one hundred dollars in the "Perpetual Care Fund" for the care of the George M. Winslow lot in Mayflower Cemetery. There was also purchased a tract of land of the Rural Society for two hundred dollars and while the whole of this tract may not be needed at the present time, it was considered a good investment. Taking the whole of some and parts of other lots, we have had an ideal tract surveyed giving a frontage of one thousand five hundred eighty-five feet on Tremont Street and extending back about nine hundred feet, with practically straight boundary lines which will meet the requirements of the town for many years. It is our purpose to reserve a strip of land along Tremont street with a depth of about thirty feet for trees and shrubs, thus helping to beautify the grounds. After the first cost of starting the building of some of the main avenues preparatory to the laying out of lots, with an annual appropriation, which need not be excessive or burdensome to the tax payers, it can be developed to meet all requirements and result in one of the finest and most beautiful burial grounds in Southeastern Massachusetts. There has been expended three hundred dollars for land, for surveying and plans, one hundred sixty-one dollars and thirty cents; for cutting wood, clearing underbrush and other labor, one thousand three hundred ten dollars. There has been paid to the Town Treasurer one hundred seventy-nine dollars for wood sold. We would ask for an appropriation of two thousand dollars, which will enable us to get this beautiful addition to our cemetery in condition to open to the public. There is another matter which we wish to bring to the attention of the town. The cemetery as it now stands is divided practically in the center by a town street. Your Trustees feel that this is a detriment in many

ways. If the course of Mayflower Street could be changed, beginning at that section known as "Soule's Bear" and running practically straight to Tremont Street, the easterly end of the present Mayflower Street could be used for the main drive into the cemetery. This would not be a very great expense to the town and would be much more satisfactory than the present arrangement. Should Mayflower Street remain as it is, it will necessitate building a fence on both Mayflower and Tremont streets, but if the street be changed the fence which is on Mayflower Street, beginning at the Soldiers' Monument and running to the end of the cemetery lot could be removed and placed on the Tremont Street side. This would save some expense as granite posts to match the present fence are more expensive than when the fence that now surrounds the cemetery was built. The plan on the following page will show the present line of Mayflower Street and the proposed change.

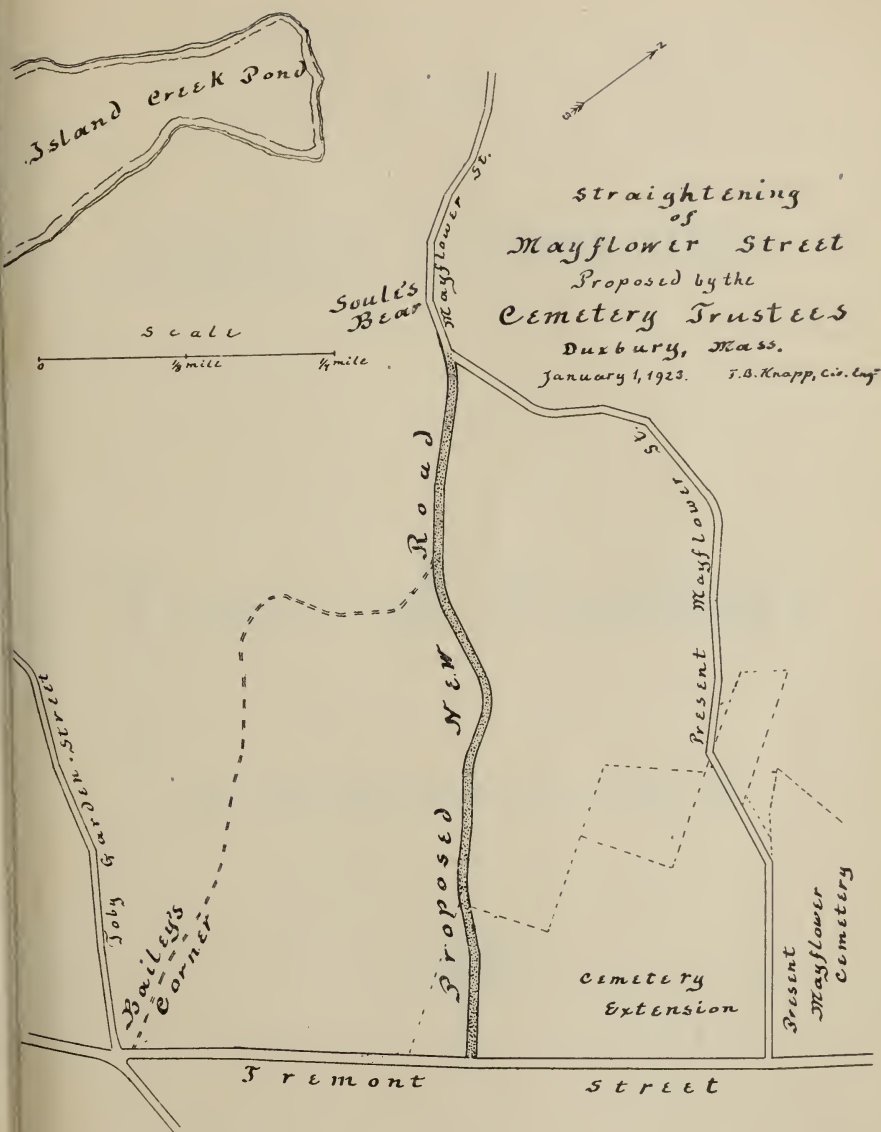

Should the question be raised regarding the approach to the town dump, that matter was taken into consideration, and we feel that the Dump can be reached much better from the proposed new part of Mayflower Street and be much more satisfactory than the present entrance. We hope our action thus far will meet the approval of our citizens.

Respectfully submitted,

ALBERT M. GOULDING, Chairman,  
JOHN SIMMONS, Secretary,  
WILLIAM J. ALDEN,  
HENRY F. WHITE.

## REPORT OF SCHOOL COMMITTEE

---

To the Citizens of Duxbury:

The School Committee, Superintendent of Schools, Principal of High School, Supervisors of Music and Drawing, School Physician and Nurse herewith submit their several reports.

The year 1922 has been of very little moment in regard to changes in the primary grades. The same teachers, except one, have continued with their ever faithful services. The High School has met with a decided change in the corps of assistant teachers and the report has been very satisfactory. The expense of repairs in many instances, have been beyond the past few years, as the time arrived when the Committee felt obliged to make them to preserve the buildings. As water was not accessible near the Ashdod school house, we were forced to furnish a well and pump at a great expense, as it had to be driven at a considerable depth through sub-soil and rocks, but is now giving very good satisfaction. The shades were in poor condition in Ashdod, South Duxbury, Tarkiln Intermediate, Tarkiln Primary and Village Grammar schools, therefore, they were replaced. Both sides of the roof of South Duxbury school building were shingled, the front of Tarkiln Primary building was painted and sashes drawn. The furnace at the Village Grammar school has been a source of trouble and expense for some time but at last the cause was found and remedied at an expense of (approximately) two hundred dollars and is now giving perfect satisfaction. The furnace at Tarkiln Grammar was also in need of new grates, etc.

The major repairs for this year were unforeseen by the Committee, but thanks to our generous voters we were able

to cope with them. All yearly minor repairs were made, such as buildings cleansed, floors oiled, latches, knobs, catches and cords replaced. A teacher's desk was furnished for Tarkiln Primary, new typewriters for High School, and also reference books which were very much needed.

For the ensuing year we recommend an appropriation of thirty-five thousand dollars. This amount includes the reimbursements received from the State treasurer on account of schools.

Respectfully submitted,

RALPH K. BEARCE, Chairman,

ELIZABETH A. PHILLIPS, Secretary,

JOHN SIMMONS.

## SUPERINTENDENT'S REPORT

---

To the School Committee of Duxbury:

I have the honor of presenting herewith in statistical and tabulated form such information concerning the schools as in my judgment should be had for immediate and future reference. The facts presented do not differ materially from those of former years upon which you have based your belief in the desirability of a partial consolidation of the schools and a reorganization of the system. The arguments are well known by yourselves and by all who have interested themselves in the problems, and need not be repeated here.

The schools have been conducted as heretofore. We have striven to emphasize essentials and to abate undesirable practice. The program of studies is gradually being changed to conform to the best practice of today. We have constantly in view the ultimate organization of a six-year elementary course to be followed by a six-year comprehensive high school course so that when the housing problem has been solved, we shall be in the best possible condition to use the new equipment.

The essential achievements of the pupils in the first six years should be, ability to read and speak fluently, to figure rapidly and accurately, spell correctly, and write beautifully. To these fundamentals we shall, of course, add as much as possible of information in history, geography and hygiene, and some skill in manual expression of thought.

The seventh and eighth years will be marked particularly by the attempt to train reasoning faculties, to establish correct habits of study and desirable social reactions and to help the pupil discover his own talents and aptitudes. To a pupil who has through these years acquired a desire for fu-

ture study along specific lines, the high school curriculum should offer a much more varied program than it does at present. The handicap of limited building accommodations and small faculty prevents for the present any further extension of the curriculum. At the present time choice of course is limited to a college preparatory and a short commercial course.

I feel that the work in music should be and can be improved by offering more than merely a weekly chorus period, and by allowing the same measure of credit as in other branches for an equivalent of effort. I personally believe that credit should be given for the study of piano, violin and other musical instruments, and that such study and practice should be included in the pupils' school-day program.

If art study is to be recognized at all I believe it, too, should have a sufficient amount of time. A place should be made for it in the program, and those who elect to receive instruction in art should be required to be as faithful in preparation of their work as they are in that of any other assignment. The adoption of these suggestions involves a modification of the curriculum and an increase in the amount of time given to the high school by the special teachers.

Some weak spots in the course of study in the elementary grades are to receive immediate attention. Heretofore we have relied too much on the individual teacher to give instruction in physiology and hygiene. The result has been variable, not so much through neglect on the part of the teachers as because of the inevitable difference in choice of topics and the frequency of presentation. To introduce systematic instruction from year to year and not further burden the already over-crowded program, has been and is still the problem. A series of supplementary readers dealing with the subject in a progressive manner has been provided—a book a grade above the third—and the teachers instructed

to use these books for reading and discussion at least once each week in the period usually devoted to reading. The nurse will naturally know what work is thus done and be able to correlate her instruction with it.

Similar criticism can be made justly of our requirements in the United States history. We have not had a definite program to follow in the first years. The formal study of history began in the sixth year. A progressive series of history readers suitable for each grade has been provided as a basis for oral instruction in the earlier years. Details of these books and the years to which they are assigned are given elsewhere in this report. It is intended that these like the health books shall be used as supplementary readers and not as a separate study until the sixth year.

The outline of the requirements in English is confessedly quite general and lacking in specific character especially for the first four years. The outline given in the Baltimore Course of Study which has been supplied to each teacher, is comprehensive enough, and the suggestions as to the methods are splendid but there seems to be difficulty in procuring much of the material needed to carry out the plan. As yet I have failed to find any one series of books which gives promise of satisfying this particular desire of the teacher for a definite minimum outline. The small supplementary book by Hammond comes as near to doing this as any I have yet found. If it is followed and supplemented by similar exercises from whatever books are available the several classes can not get far apart in subject matter presented.

One more criticism may be made. Penmanship seems to defy all our attempts at mastery. I see no hope of getting real satisfactory results under existing conditions. The art of writing is a peculiar one and the teaching of it unlike any other teaching. Our teachers have not the time in these four-grade schools to give the supervision needed to insure desirable results. When consolidation is achieved one obstacle will

be removed—there will be less degree of variation of ability in a single room. The teachers will have a better chance to get results, but even then, there should be a teacher whose sole business is teaching, drilling, judging and insisting upon the proper use of the pen and pencil in writing. The advantage of such instruction will appear in better postures and a more beautiful handwriting.

Toward the correction of these and other recognized defects we are working as rapidly as we can. Progress in social development of any sort is usually slow and involves the cooperation of many agencies, such as public sentiment, aggressive leadership, real team-work of employers and employees, official support, and financial resources. Much of this we already have and more is constantly developing.

I gladly testify to the prevalence of a spirit of cooperation and interest in the solution of our problems manifested by citizens and teachers in various ways, and thank each of you for the continuance of your confidence and support during the year.

Respectfully submitted,

F. E. BRAGDON, Superintendent.

## HIGH SCHOOL REPORT

---

### REPORT OF THE HIGH SCHOOL PRINCIPAL.

To the Superintendent of Schools.

The school year beginning September last, opened with a greatly improved faculty so far as the High School is concerned. And there has resulted a very noticeable increase in smoothness of operation, school spirit, attendance, enrollment and study. Substantial additions to our text-book equipment have been made freely by appreciative officials.

We are trying this year to emphasize excellence in classroom work by posting monthly, lists of pupils who are doing work of excellent quality. We have established a High Honor List on which are placed the names of those pupils who during any one month have no mark lower than 1 (Excellent). On a second list are the names of those pupils who have no mark lower than 2 (Very Good). This list we call the Honor List.

We believe scholarship merits all possible recognition, and we, therefore, present herewith, our High Honor and Honor lists for the four months whose record is already completed; September, October, November and December.

#### HIGH HONOR LIST SEPT. 1922.

Having work completed and no mark lower than 1  
DeLorenzo, Antonio, 25                      Hastings, Margaret, 26

#### HONOR LIST SEPT. 1922

Having work completed and no mark lower than 2.

Delano, P., '23	Noyes, E., '25
Osborne, R., '23	Thomas, D., '25
Battilana, P., '24	Walker, D., '25
Freeman, I., '24	Delano, L., '26
Jones, W., '25	Goodrich, V., '26
Merry, R., '25	Swanson, C., '26

### HIGH HONOR LIST, OCT., 1922

Having work completed and no mark lower than 1

DeLorenzo, Antonio, '25	Walker, Dorothy, '25
Merry, Robert, '25	Hastings, Margaret, '26

### HONOR LIST, OCT., 1922.

Having work completed and no mark lower than 2.

Osborne, R., '23	Byrne, B., '26
Peterson, E., '24	Delano, L., '26
DeLorenzo, B., '24	Goodrich, V., '26
Noyes, E., '25	Scholpp, M., '26
White, E., '25	Swanson, C., '26

### HIGH HONOR LIST, NOV., 1922.

Having work completed and no mark lower than 1

Hastings, Margaret, '26	Walker, Dorothy, '25
DeLorenzo, Antonio, '25	

### HONOR LIST, NOV., 1922.

Having work completed and no mark lower than 2.

Mann, H., '23	Loring, E., '25
Osborne, R., '23	Swift, F., '26
Thomas, D., '25	Swanson, C., '26
Sprague, A., '25	Goodrich, V., '26
Merry, R., '25	

### HIGH HONOR LIST, DEC., 1922.

Having work completed and no mark lower than 1

DeLorenzo, Antonio, '25	Hastings, Margaret, '26
Merry, Robert, '25	Swanson, Christine, '26
Goodrich, V., '26	

## HONOR LIST, DEC., 1922.

Having work completed and no mark lower than 2.

Mann, H., '23	Walker, D., '25
Osborne, R., '23	White, E., '25
Peterson, E., '24	Delano, L., '26
Jones, W., '25	Dinsmore, L., '26
Loring, E., '25	Scholpp, M., '26
Sprague, A., '25	Swift, F., '26

In September of 1922, the school certificated five recent graduates to the State Normal School at Bridgewater. At the first (Christmas) issue of marks, four of these pupils were found to have an average of B (with credit), and the fifth only slightly below the others.

To be able to make a report of this sort is most gratifying. Not less so, is the probability that an equal number of Duxbury girls will enter the same institution next fall. Perhaps it is fair to interpret this recent surprising tendency toward preparation for teaching as a direct result of the town's awakening interest in modern education.

The undersigned wishes to record himself as being most strongly in agreement with recent reports of his predecessor, of the superintendent, and of the school committee, in which they declare for a more varied and practical type of schooling. Surely, our boys should have opportunity for hand-work, our girls for cooking and sewing in our public school curriculum. Drawing, too, should be given more frequent and fuller time, especially mechanical drawing.

There are, of course, certain handicaps to our doing up-to-date high school work in accordance with up-to-date high school standards.

It is impossible to arrange to make one sink and faucet serve a class of 20 in Chemistry doing individual laboratory work. Reference works in large number and variety should be added to our equipment as soon as possible. It is only

fair to those in authority to state that this latter need is acknowledged and it is planned to meet it as fully as possible. But the most fundamental requirement, it seems to me, is for a broader and richer curriculum with equipment to correspond.

The pupils of the school are working well, and to date, late in January are registering excellent attendance, especially while genuine winter conditions are in evidence. Only one day of school has been lost.

The passing from service of an old and valued servant is always a source of regret. Increasing years and failing strength caused, during the year, the retirement of Mr. Harry Freeman, who, for many years, served us well in the care of the building.

We have been deeply conscious throughout the year of a sense of good will toward, and cooperation with, the school and its work, on the part of the public and our school officials. May I express, for its teachers, our keen appreciation and our determination to merit its continuance?

Respectfully submitted,

ROBERT CUSHMAN, Principal.

## REPORT OF SUPERVISOR OF MUSIC.

---

To the Superintendent of Schools, Duxbury, Mass.:

The Music Department has been encouraged this year by the addition of two new books. The first, a volume of Junior Songs for the Grammar Schools, furnishes us a wealth of new material to give the boys drill in the use of the bass-clef, an essential item in preparing them for High School music.

The other volume was made necessary by the moving of the piano at the High School down to the main room, for use in the morning devotional exercises. The song book we had last year was not chosen for a hymnal. Moreover, we had only half as many books as pupils; quite enough when the latter were seated on benches, but entirely impossible for use in the regulation school seats. The change of room has proved on the whole, an advantage, both because there is less temptation to disorder and because the more often a chorus has opportunity to sing together, the more confidence it acquires.

The next need of the department will be some Primary Song Books. Both teachers and pupils seem to like the board work we are doing, especially since we have had our new staff liners, but some book-reading is necessary, in order to give the fourth grades a chance to get used to it before passing on to the intermediate schools. Our present book is suited only to the older pupils of the four-grade primaries, but feeling that consolidation is in the air, offering a new scope of opportunities for our primary music teachers, we feel that we should make the best of what we have for the present, till we see what grading we are to have permanently.

We spent rather a disproportionate amount of time last spring in the primary schools, preparing songs for a health

crusade festival, which, however, never was put through, owing to the crowded program of the last term. We had a "parents" and a "friends" evening at the High School early in the spring, to give the chorus an incentive to work during the earlier part of the year. It was fairly successful, but involved considerable effort in turning the old assembly room, occupied now by the commercial department, into an auditorium. It is to be regretted that there is no place suitable for a simple entertainment on the High School's own premises.

In closing, I wish to thank, once more, all the teachers for their friendly support and cooperation.

Respectfully submitted,

REBECCA PHILLIPS.

## REPORT OF SCHOOL PHYSICIAN.

FOR THE SCHOOL YEAR SEPT., 1921 TO JULY, 1922

---

Duxbury, Mass., July 1, 1922.

During the past year the school physician has continued the work of examining pupils, much as carried out during the previous two years, and as was outlined in the school physician's report for the fall term of 1919.

The children in the first five grades have been examined with backs and feet exposed. In the higher grades, except in special cases, shoes and stockings have not been removed, and the examination has been carried out fairly carefully without exposure of the chest or back. This makes a fairly satisfactory chest examination but the lines of the spinal column and shoulders, except in such cases as a marked deformity, are not so accurately seen as they would with the clothing removed, and this has not been deemed wise as yet in the case of the majority of the older children. The height and weight of all the pupils has been taken and statistics are included in this report.

During the year there has been less contagious sickness than I think school years in general would average, and perhaps at this point some general remarks would not be amiss. Whenever, in this community, a case of contagious disease arises in the public schools, there is always a clamor from a portion of the parents to close the schools, and sometimes this clamor reaches such a point that a considerable number of the pupils remain away, making it difficult to carry on the school work to advantage with the remainder. Many times this is unwise and does more harm than good. With the facilities which are now at hand for repeated ex-

amination of the school children at school it would seem to me that very often the danger of a spread of contagious diseases was lessened by keeping the schools open than it was by closing them. This was well illustrated by what occurred during the past winter when one case of scarlet fever kept a lot of children away from school in a manner that was entirely unnecessary.

Repeated visits to the various schools have been made by the school physician throughout the year. At the time of these visits particular attention has been paid to general conditions of heat, light, ventilation, the seating of the children, the condition of the toilets, and the general aspect as to neatness of the school rooms and the school grounds. In a number of cases the attention of the teachers has been called to the fact that the grounds and the toilets were poorly cared for. I am glad to say that on the whole, however, there seems to be a marked improvement in these various items just referred to. The teachers, particularly in the grade schools, seem to have grasped a little more thoroughly the importance of using curtains to change the glare of light in childrens' eyes, and to be more careful in the sanitary conditions of the buildings and grounds. One cannot, of course, hold the teachers responsible entirely, yet it seems to me that it is as important to instruct children in habits of neatness and the general principles of sanitary living as it is to teach them the three R's. The condition of the grounds, which in one or two instances during the past year have been rather disgraceful, can be justly referred to the teacher only in such cases as are directly attributable to the carelessness of the children. Debris left by the mechanics and picnic parties are, of course, up to the Committee. The lighting facilities in several of the graded schools have been improved by reversing the position of the seats, as was suggested in our last report. This is a very great improvement.

The work of the school physician has been ably assisted and much helped by the work of the school nurse. As has repeatedly been said by the school physician, without careful follow-up work it was of very little practical use to call the attention of children, or even parents, to defects, but this is very much improved by the visits which have been made by the school nurse, and in some cases by the school physician at the homes. Parents apparently are realizing more than ever before the importance of careful attention to childrens' teeth, to tonsils, to adnoids, and to the other defects which interfere with a child's health as well as with its proper growth and development.

For several years a Throat Clinic has been in existence at the Jordan Hospital in Plymouth, and during the past year several of the children have had tonsils and adnoids removed at that Clinic, as well as some in the various clinics in Boston, and by their own physicians. This clinic at the Jordan Hospital is available at a very small fee to such only as cannot afford to employ a surgeon to do this work, and requires a certificate from the school physician or the school nurse, or both. All other cases should, of course, consult their own family physician as to what to do.

In the matter of the cases which show flat feet and deviation of the spinal column in young children, in some cases attention of parents, and in others of the teachers only, have been called to these faults in the children, and advice has been given as to methods of correcting the same.

The total number of children examined is 355. This number you will note is slightly over the total enrollment given for last year and is accounted for by the fact that in our statistics we have included all the different children that we examined during the two years since our last report for the year 1919 and 1920.

The following are the percentages of those examined: 35.77 per cent. show flat feet in the varying degrees.

25.07 per cent. show deviation to one side or the other of the normal spine.

11.55 per cent. show evidence of some skin disorder.

6.48 per cent. had trouble with hair, usually nits.

49.01 per cent. showed teeth needing attention.

31.55 per cent. showed enlarged tonsils—or glands.

10.14 per cent. had obstructed nasal breathing.

3.09 per cent. showed some imperfections of sight.

00.84 per cent. showed imperfections of hearing.

3.38 per cent. showed some organic disease of the heart.

00.84 per cent. gave evidence of disease of the lungs.

Now, please understand that these figures do not mean that a little over one-third of the children have crippled feet, or that a quarter of them have deformed backs, or that a third of them need to have their throats operated on, or that one in ten should have some operation on the nose. It does mean, however, as we have previously suggested, that a very large number of children have already formed habits of careless walking, standing and sitting, which only everlasting vigilance on the part of the teachers and parents will correct. It does mean that such children as have enlarged tonsils, or even tonsils that are unhealthy without being enlarged, who are mouth breathers at night, who are inclined to have frequent colds, who have ear aches or enlarged glands in the neck, should at least be examined carefully by some surgeon competent to give advice as to the necessity of having the throat attended to.

More and more we are coming to realize the importance of an unhealthy condition of the tonsils or of adnoid growths in the naso-pharynx as effecting a child's general health and development. All children, of course, are not built on the same lines. The weight of bone and the tendency to be slender or to be fat, and the child of the so-called slender type who may be under weight as shown by a given standard, need not necessarily be unhealthy or un-

der nourished, and may often have a much greater resisting power than the child who is fat and flabby and over-weight. Nevertheless, if a child persistently remains under weight it is at least a good plan to consult the family physician and ascertain whether there is some real physical fault or whether it is a characteristic of the child.

Again I want to emphasize the importance of careful examination and follow-up work for the children in the lower grades. I want to call the attention of the Committee, of the teachers and of the parents to the importance of selecting and retaining the best possible talent for teachers in your primary grades. For here is the secret of a good start, both physically and mentally, in the school life.

While I realize that it is not exactly required of the school physician to examine or report on the condition of teeth, I have looked at teeth and made a report on the records, looking at teeth from the standpoint of a physician rather than that of the dentist, and I have been a bit surprised, and somewhat disappointed, to find that after all the agitation over teeth that has been had among the school children during the past few years that the general condition of the childrens' teeth had not shown more improvement.

N. K. NOYES, M. D., School Physician.

---

## REPORT OF THE SCHOOL PHYSICIAN OF DUXBURY, 1922—1923

The results of physical examinations of the school children made in October, 1922 and January, 1923, are given in the following table:

Total number of pupils examined, 317.

Total number without defects, 227.

Total number with defects, 90.

Defects as follows:

Feet 28; Back 22; Skin 1; teeth 9; Throat 60; Nose 8;  
Heart 13; Lungs 1.

This table includes defects serious enough to be classified as real defects and does not include pupils showing a slight defect, such as cases of slightly enlarged tonsils or mildly round shoulders or slight deformity of foot. It means that there are 28 pupils whose feet should be attended to; 22 whose backs should be straightened; 60 whose tonsils or adenoids should be removed; 9 whose teeth are a menace to general health. There are besides a large number whose teeth should be cared for. Under defects of heart, 7 showed real heart disease; the remaining 6 a slight defect of heart that will entirely disappear as the pupil grows older.

When we know that one-half of all diseases come from enlarged tonsils and carious teeth, and how easy it is to have these defects removed, it is to be hoped that parents will do their utmost to attend to these cases. So doing will prevent disease and result in a strong, healthy body of citizens.

The percentage of pupils with defects is about 29. This is low compared with average results in towns and cities of Massachusetts. Boston in 1922 showed that 51% of its pupils were defective. On the whole the physical condition of our children is good and compares favorably with that of most towns in our state. This good rating it should be our effort to maintain, and to improve upon.

ROGER SPALDING, M. D.

Duxbury, Jan. 20, 1923.

## REPORT OF THE SCHOOL NURSE

---

To the School Committee of the Town of Duxbury:

In accordance with my contract, I have followed the plan of giving approximately one-third of my working time or two days a week to school work. I have so planned that each school has been visited once a week—the east side schools on Wednesday and those at the west side on Friday. My work has fallen into three divisions. The first consisted of visits of examination made with the school physician or the school dentist. I assisted Dr. Noyes with examinations in June, Dr. Spalding in September, and accompanied the school dentist on a round of inspection in the spring.

Under the second class of visits come those made to the children by the nurse during the school sessions. Once a month I have made a thorough general inspection covering hair, teeth, throats and skin. Once a week I have made individual inspections where they appeared to be necessary. The third class of visits are follow-up calls in the homes, when advice is given to parents in caring for the children's teeth, tonsils, diet, etc., and for meeting perhaps some special problem in child training. In the homes I have also given follow-up nursing care under a doctor's direction.

These various classes of visits were in number as follows: To the school buildings, 289 visits were made, of these 98 being visits of inspection. I have made 208 visits in the homes, caring for the children or giving instruction. I have also carried children to Kingston to meet 95 dental appointments, the Duxbury Nurse Association allowing their car to be used for a small fee from the parents. School cases

have included pediculosis, scabies, first-aid treatments, and also under the direction of the attending physician, such other cases as chicken pox, scarlet fever and infected glands.

At the regular school visits after the necessary inspection, I have talked to the pupils on health subjects, such as fresh air and exercise, diet, posture, cleanliness. The children have learned and enjoyed health songs under the instruction of Mrs. Phillips. We expected to hold a health day last June and give a series of little plays, had not sickness and absence of some of the pupils prevented proper rehearsing. Miss Baker of the Tarkiln Intermediate did present her play.

It has been very gratifying to note the improvement in appearance and general health of the pupils during even so short a time as one school year. This has been especially marked along the lines of cleanliness of person and care of teeth, as well as by an intelligent fundamental knowledge of health habits. The effort and spirit of cooperation on the part of children and teachers has been pleasing and praiseworthy. I desire to thank them and all who have helped me to further the health work in the Duxbury schools.

Respectfully submitted,

DOLLY A. TAYLOR, R. N.

## LIST OF TEACHERS.

Name, Address, Training, Term of Service and Salary.

### High School.

Robert Cushman, Jr., Duxbury R. F. D., Bridgewater Normal, Dartmouth,	2	\$2,400 00
Helen K. McKay, Duxbury, Bos- ton University,	1	1,600 00
Mabel E. Jenkins, Duxbury R. F. D.,	2	1,400 00
Ruth Tyler, (Wheaton) Duxbury,	1	1,200 00

## DUXBURY PUBLIC SCHOOLS.

### Supplementary Outlines of Course of Study.

#### READING.

The books listed below are available now. Others will be provided later. Basal texts are to be used regularly. Supplementary books should be used systematically; for example: Hygiene series, one day weekly; Historical series one day weekly, etc.

##### Grade I

Story Hour Primer or Beacon Primer. Basal Text.

Beacon First Reader.

Progressive Road to Reading.

Child Life. First Reader.

The Field Primer.

Other Primers are available.

##### Grade II

Story Hour Second Reader or Beacon Second Reader. Basal.

Progressive Road to Reading. Second Reader.

Child Life. Second Reader.

Red Feather. For silent reading drill.

America's Story for America's Children. Beginners Book.

Around the World. Book I.

##### Grade III

Story Hour Book III or Beacon Book Three. Basal Text.

Progressive Road to Reading, Book III.

Child Life. Third Reader.

Stories of Great Americans for Little Americans.

America's Story for America's Children, Book II.

Around the World, Book II.

Clematis, for Silent reading drill.

Dramatic Reader, Book I.

##### Grade IV

Basal Text.

Arlo for Silent reading drill.

Stories of American Life and Adventure.

America's Story for America's Children, Book III.

Little American Plays for Little Americans.

Around the World, Book III.

Hygiene Series: Good Health.

Grade V

Basal Text:

The Silent Readers, Book V.

America's Story for America's Children, Book IV.

Around the World, Book IV.

Hygiene Series: Emergencies.

Grade VI

Basal Text:

The Silent Readers, Book VI.

America's Story for America's Children, Book V.

Hero Stories from American History.

Around the World, Book V.

Hygiene Series: Town and City.

Grade VII

Junior High School Literature, Book I.

Faris, Makers of our History.

Hubbard's American Plays.

Hygiene Series: The Body at Work.

Grade VIII

Junior High School Literature, Book II.

Stories of the Day's Work.

Our Country, Turkington.

Hygiene Series: Control of Body and Mind.

## TOWN OFFICERS, 1923.

---

Selectmen, Assessors and Overseers of the Poor—Sidney C. Soule, Wendell Phillips, Alfred E. Green.

Town Clerk, Treasurer and Collector—George H. Stearns.

School Committee—Ralph K. Bearce, Elizabeth A. Phillips, John Simmons.

Board of Health—Charles W. Eaton, Eugene E. Covell, Paul C. Peterson.

Constables—Charles S. Pierce, Warren C. Prince, Andrew J. Delano.

Cemetery Trustees—Albert M. Goulding, William J. Alden, Henry F. White, John Simmons, Martin Hanigan.

Tree Warden—John D. Morrison.

Fire Engineers—Hortense E. Merry, Arthur C. Greene, Henry S. Winslow, Charles R. Crocker, LeRoy M. Peterson, Harrison E. Hartford, Edward S. O'Neil, Carl J. Santheson.

Surveyors of Wood and Lumber—Charles P. Grueby, Ray M. Parks.

Field Drivers—J. Knowles Parker, James L. McNaught, Henry S. Winslow, John A. Hunt, Daniel W. Studley, Charles R. Crocker, Edward S. O'Neil, Albert M. Goulding.

Registrars of Voters—John H. Glover, Thomas W. Herrick, Wendell B. Phillips, George H. Stearns.

Inspector of Animals—Herman H. Delano, Jr.

Inspector of Slaughtered Animals—Charles S. Pierce.

Sealer of Weights and Measures—Charles S. Pierce.

Measurer of Grain—Charles P. Grueby.

Inspector of Lime—Charles P. Grueby.

Weighers of Coal—Charles P. Grueby, Arthur C. Greene, James McKay, Mary Cary, Walter Hansen, Lloyd Sprague, Benjamin F. Goodrich, John J. Edwards, William H. Hunt.

Fence Viewers—Charles R. Crocker, J. Knowles Parker, Edward S. O'Neil.

Keeper of Almshouse and Pound—Herbert Packard.

Superintendent of Streets—Edward S. O'Neil.

Town Physician—Nathaniel K. Noyes, M. D.

## REPORT OF THE SELECTMEN.

---

To the Citizens of Duxbury:

Your Board of Selectmen make the following report:

While it seems useless to make a lengthy report as each department for which money was raised shows the amount raised and expended in the financial report.

The amount of money raised for the resurfacing of Harrison street was sufficient, leaving a small amount unexpended. It is recommended by your Selectmen that from this unexpended balance a new fence be built on both sides of the bridge as the one there is very poor.

The State and County are assisting towns to quite an extent in the construction of roads at the present time, and we would recommend that the town raise a certain amount to be met equally by the State and County for the construction of an asphalt road from the East Pembroke Post Office to the State Highway at Millbrook Corner. While it would be impossible to build the whole distance we feel we might build one half this year. The new proposed highway through the Cemetery extension has been laid out from Tremont Street to a point on Mayflower Street just northerly of the town dump. In making this layout we have only about one half the new road to build that we would have had we followed the extreme southerly boundary of the cemetery. And in addition we preserve that portion of the present Mayflower

Street that is so beautifully shaded with the belts of roadside trees.

We wish to report that Blue Fish River Bridge, so-called, is in very poor condition. While at this time we are not in a position to recommend the amount necessary, as it would need the services of an expert to decide as to just what should be required.

Respectfully submitted,

SIDNEY C. SOULE,

WENDELL PHILLIPS,

ALFRED E. GREEN,

Selectmen of Duxbury

**REPORT OF AN AUDIT OF THE ACCOUNTS OF THE  
TOWN OF DUXBURY.**

---

FOR THE YEAR ENDING DECEMBER 31, 1923

---

February 28, 1923

To the Board of Selectmen,  
Mr. Sidney C. Soule, Chairman,  
Duxbury, Massachusetts.

Gentlemen:

I submit herewith my report of an audit of the accounts of the town of Duxbury for the year ending December 31, 1922, made in accordance with the provisions of Section 35, Chapter 44 of the General Laws. This report is in the form of a report made to me by Mr. Edward H. Fenton, Chief Examiner of this Division, who was placed in charge of the work.

Very truly yours,

THEODORE N. WADDELL,

Director of Accounts.

Mr. Theodore N. Waddell,  
Director of Accounts,  
Department of Corporations and Taxation,  
State House, Boston.

Sir :

In accordance with your instructions, I have made an audit of the books and accounts of the town of Duxbury for the year ending December 31, 1922, and submit the following report thereon :

The books and accounts in the selectmen's office were examined and checked in detail. The recorded receipts were checked to the treasurer's books and to the original sources from which money was paid into the treasury. The payments were compared with the bills and pay-roll and also with the treasury warrants. The appropriation accounts were checked with the town clerk's records of appropriations voted by the town. An analysis of the ledger was made, thus proving the general accuracy of the work. A balance sheet, showing the financial condition of the town as of December 31, 1922, was prepared and is appended to this report.

The classification book was examined and checked in detail, the totals being checked to the ledger accounts.

The accounts of the treasurer and tax collector were examined. The footings of the treasurer's cash book were proved and checked to the records in the selectmen's office.

The cash balance as of February 1, 1923, was verified by an actual count of cash in office, and the bank accounts were reconciled with the bank statements.

The trust funds in the custody of the treasurer were verified by an examination of the savings bank books representing the investment of the funds, and the income and expenditures were checked to the records in the selectmen's office.

The books of the tax collector were examined and checked. The commitments were proved to the warrants, the collections were checked to commitment book, and the payments to the treasurer were compared with the treasurer's records.

The abatements were checked to the assessors' records of abatements granted, and the outstanding accounts were listed, the totals of the outstanding accounts for each year being reconciled with the ledger accounts. The outstanding accounts were further verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, and from the replies received I am satisfied that the accounts are correct.

Tables showing a reconciliation of the treasurer's cash and summaries of the tax and assessment accounts are appended to this report.

The financial transactions of the town clerk and of the sealer of weights and measures were examined and checked to the treasurer's and the selectmen's records.

The surety bonds of the treasurer, tax collector, and town clerk were examined and found to be in due form.

While engaged in making the audit I received the hearty co-operation of the various town officials, and on behalf of my assistants and myself I wish to extend my thanks and appreciation for the courtesy extended and the assistance rendered.

Respectfully submitted,

EDWARD H. FENTON,

Chief Examiner.

Bounty on Hawks, Crows and Seals,	75 00
Unclassified Department,	1,300 00
Town Dump,	100 00
Highways, Bridges and Sidewalks,	8,500 00
Town Landings,	100 00

Voted, to raise and appropriate the sum of \$300.00 to be expended under the direction of William Wadsworth Post No. 165, G. A. R., for the observance of Memorial Day.

Voted, that the Treasurer, with the approval of the Selectmen, be authorized to borrow money from time to time in anticipation of revenue for the financial year beginning January 1, 1924, and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of said financial year.

Voted, that \$592.68 of the balance of the Overlay Reserve Fund be transferred to the Reserve Fund for the year 1923, and that \$1,000.00 be returned to the treasury.

Voted, to raise and appropriate for the use of the Plymouth County Trustees for County Aid to Agriculture, \$100.00, as provided in Section 45, Chapter 128, of the General Acts of 1921, and chose Alpheus H. Walker, Director.

Voted, to apply the dividend (\$314.27) from the Plymouth County Dog Fund to the support of schools.

Voted, to return to the treasury the following appropriation balances: Alden Street repairs, \$5.50; Bay Road repairs, \$4.77; Toby Garden Street, \$251.20; Massasoit Road,

\$9.87; High Street sidewalk, \$150; Mattakeesett Court Landing, \$2.37; total, \$423.71.

Voted, that the sum of \$11,000 from the Excess and Deficiency Account be used by the Assessors in making the tax rate.

Voted, that the Town pay four dollars (\$4) per day as a minimum wage for labor.

Voted, for a two-day Town Meeting, the first day to be devoted to business and a later day for election of town officers, and that the first meeting be called at 9 o'clock A. M.; 71 in favor and 26 opposed.

Voted, to raise and appropriate \$1,000.00 for the purchase of land suitable for the use of citizens of the Town as a playground, and that the Moderator appoint a committee of three persons to ascertain if Train Field can be purchased, with power of purchase, and the Moderator appointed Harry B. Bradley, William J. Burke and Paul C. Peterson as this committee.

Voted, to lay on the table Article 17, which reads, "Will the Town instruct the School Committee to withdraw from the Superintendency Union No. 1?"

Voted, that the Selectmen be authorized to lease suitable quarters for the Duxbury Post No. 223, American Legion, for five years, and to raise and appropriate not more than one hundred dollars (\$100.00) for rent for 1923, and not more than one hundred dollars (\$100.00) per year.

The following resolution, offered by Mr. Henry P. Moulton, was unanimously adopted:

"Be it resolved, that the citizens of Duxbury in town meeting assembled, are most earnestly opposed to any action of the Legislature to remove the statue of Myles Standish from its place on the top of the monument on Captain's Hill, South Duxbury. We would respectfully urge the General Court to enact legislation providing for the restoration of the statue to its condition before the accident."

Voted, to appropriate \$200.00 to be expended under the direction of the Public Grounds Committee of the Duxbury Rural Society, to complete the swings and other necessary work on the Public Playgrounds at Train Field, subject to the opinion of the Town Counsel.

Voted, to raise and appropriate \$1,000.00 for the Duxbury Free Library, subject to the opinion of the Town Counsel.

Voted, to instruct the Selectmen to lay out a highway along the southerly side of the cemetery extension, leading from Tremont Street to Mayflower Street.

Voted, to raise and appropriate \$1,000.00 to complete the work now begun on Standish Street.

Voted, to raise and appropriate \$15,000 to build a sand and asphalt road on Harrison Street, to be built before July 1, 1923, if possible, notes to be issued, payable in five annual payments. Eighty-nine (89) voted in favor and thirty (30) in opposition. More than two-thirds having voted in favor, the motion was carried and was so declared by the Moderator.

Voted, that Surplus Street be put in a passable condition, the money to be taken from the General Highway appropriation.

Voted, to raise and appropriate the sum of \$1,000 to continue the road work started in 1922 on Temple Street.

Voted, to expend the sum of \$400 to complete the asphalt road on Josselyn Avenue, to be taken from the Highway appropriation.

Voted, not to raise and appropriate a sum of money to rebuild a macadam or sand asphalt road on School Street, Oak Street from School to Tremont Streets, Park Street from Tremont to Loring Streets, and Loring Street from its junction with Park Street to Bay Road.

Voted, to lay on the table Article 28 which reads, "Will the Town vote to resurface Chapel Street with sand asphalt and raise and appropriate money for same?"

Voted, to take no action under Article 29 which reads, "To see what action the Town will take in instructing the Selectmen in the laying out of a road at Duxbury Beach, beginning at the northerly end of the Hummock and continuing around the Hummock to Pine Point, so-called, and take any other action thereon."

Under Article 30 which reads, "To see if the Town will vote to raise and appropriate a sum of money for the enlargement of the two Grammar School buildings, and take any other action thereon,"

It was voted, that the meeting resolve itself into a Committee of the Whole to discuss the school buildings question, and

Mr. Henry P. Moulton was chosen chairman of this committee.

At 5.30 P. M., this committee voted to dissolve, and the Town Meeting voted to adjourn to Saturday next at 1 o'clock P. M.

GEORGE H. STEARNS, Town Clerk.

---

## ADJOURNED TOWN MEETING FROM MARCH 10 TO MARCH 17, 1923.

The meeting was called to order at 1.10 P. M., by the Moderator.

Voted, to consider Articles 33, 35, and 36 of the Warrant before taking up the matter of school buildings.

Voted, to raise and appropriate \$1,000 for dredging channel in Duxbury Bay.

Voted, to lay on the table Article 35 which reads, "To see if the Town will vote to exchange a piece of land at Town Landing at Old Cove, so-called, for a piece adjoining said Town Landing now belonging to Mrs. Helen Ripley Clapp

and Mrs. Clara Ripley Evans, and take any other action thereon."

Voted, to indefinitely postpone Article 36 which reads, "To see if the Town will vote to rescind the vote whereby it was voted to abolish the office of Highway Surveyor and vote to elect by a popular vote a Highway Surveyor."

Voted, that the Town Meeting resolve itself into a Committee of the Whole to continue consideration of the school buildings question, and chose Mr. Henry P. Moulton, chairman of this committee.

After a thorough discussion of the school buildings question for three hours at 4.45 P. M., it was

Voted, that the committee rise and report. The chairman reported that the matter was now ready for action by the Town Meeting. The matter was then discussed in Town Meeting until 5.30 when it was

Voted, to indefinitely postpone action under Article 30 which reads, "To see if the Town will vote to raise and appropriate a sum of money for the enlargement of the two Grammar School buildings and take any other action there on" 112 voting in favor and 81 against.

Voted, to lay on the table Article 31 which reads, "To see what action the Town will take regarding the construction of a new school building or buildings, and raise and appropriate a sum of money not exceeding one hundred thousand dollars (\$100,000) for this purpose, appoint the necessary committee and any other action thereon."

Voted, to indefinitely postpone Article 32 which reads, "Will the Town authorize and instruct the Treasurer, with the approval of the Selectmen, to issue bonds or notes to cover any action taken under Article 31?"

Voted, that the thanks of the meeting be extended to the Moderator and that he be paid the sum of \$25 for his services.

Voted, to adjourn.

GEORGE H. STEARNS, Town Clerk.

SPECIAL TOWN MEETING, DECEMBER 29, 1923.

Chose Harry B. Bradley, Moderator.

Voted, unanimously, to appropriate from the Excess and Deficiency Department the sum of \$1,650 for the various departments, as follows: Charity, \$1,000; Soldiers' and Sailors' Aid, \$125; Forest Warden, \$100; Fire Protection, \$150; Sealer of Weights and Measures, \$50; Bounties, \$25; Treasurer's Department, \$100; Tax Collector's Department, \$100.

Voted, that Article 3 which reads, "To see if the Town will vote to raise and appropriate the sum of \$25,000 for the purchase of the Partridge Academy property, including buildings and land, for the purpose of a Junior-Senior High School," be laid upon the table.

Voted, that Article 4 which reads, "To see if the Town will vote to raise and appropriate a sum of money to pay for plans to be provided for the Joint Committee for enlarging the Academy Building," be indefinitely postponed.

Voted, to adjourn.

GEORGE H. STEARNS, Town Clerk.

Number of polls exempt,	22

Respectfully submitted,

SIDNEY C. SOULE,

WENDELL PHILLIPS,

ALFRED E. GREEN,

Assessors of Duxbury.

## REPORT OF OVERSEERS OF THE POOR

---

There are at present four inmates in the Almshouse, three females and one male. One of these being a soldier's widow that pays her board.

There has been two deaths the past year.

The question of expense of caring for the outside poor varies from year to year.

We are obliged to aid the needy upon application whether or not they belong to Duxbury as regards settlement, as long as they live in town. In cases of this kind the town is reimbursed by the city or town from which they have their settlement.

It requires a much larger appropriation than it would otherwise need had we the right to use the receipts.

We would recommend about the same appropriation as last year.

Respectfully submitted,

SIDNEY C. SOULE,

WENDELL PHILLIPS,

ALFRED E. GREEN,

Overseers of the Poor.

## REPORT OF THE HEALTH DEPARTMENT.

---

During the year, eighty-nine cases of contagious or communicable diseases have been reported to the health department.

In the winter and early spring whooping cough, reached the epidemic stage because of neglect of parents in reporting cases, probably not a quarter were reported. Please bear in mind that these reports are made compulsory by law.

We have had two outbreaks of scarlet fever, and in each case were able to confine the disease to the household in which it started. One family, with seven cases, was cared for, within the home at an expense of one-third hospital rates.

We have had several non-resident cases to care for at a considerable expense, and for which the town has not been remunerated at the time of writing.

With the ever-increasing summer population, the proper disposal of garbage is still a problem.

A complete dairy inspection has been made again this year. Cases which needed it were followed up until satisfactory to the inspector. The expense of this inspection could be cut in half if cattle owners would comply with the rules as posted.

Following is a list of diseases as reported in 1923:

Chicken Pox, 5; Measles, 9; Mumps, 10; Scarlet Fever, 13; Pulmonary Tuberculosis, 4; Whooping Cough, 47.

PAUL C. PETERSON, Chairman,  
CHARLES W. EATON, Secretary.  
EUGENE E. COVELL.

## REPORT OF THE MOTH DEPARTMENT FOR 1923

To the Honorable Board of Selectmen:

Gentlemen:—I submit the following report of moth work done since last report. Continued creosoting on roadsides and private estates until the 19th of May, 1923, it was then time to start spraying the trees. Finished up this work, and put the machines under cover in July.

No more work was done in this department until October 1st, 1923, when I started creosoting the roadside trees. This work was continued until the 30th of Nov., 1923, and on Jan. 1st, 1924, I started creosoting on the roadside trees, and also private estates, which I am still doing.

Conditions all over the town look very good, and I sincerely hope they will continue.

Respectfully submitted,

JOHN D. MORRISON, Local Supt.

---

## REPORT OF THE TREE WARDEN

To the Citizens of Duxbury:

The work in this department this year consisted of cutting out some of the bad corners, one on Partridge Road through the kindness of Mr. Chas. Hayden, and another bad corner on Powder Point Avenue. On account of building Harrison Street so high, I had to take out quite a number of limbs from the trees, and on Bay Road I had to do quite a lot of cutting.

The appropriation for the Tree Warden is very small. This department should have about \$500.00.

Respectfully submitted,

JOHN D. MORRISON, Tree Warden.

## REPORT OF STREET DEPARTMENT

To the Honorable Board of Selectmen and Citizens of  
Duxbury:

Gentlemen—In this department the usual work of repairing the highways was done; also a seal coat was applied to about four miles of stone road, and dust laying oil to streets where there was much traffic. This being very satisfactory to citizens living in these sections.

The work on Josselyn Avenue and Standish Street has been completed; also the building of Harrison Street within the appropriation. The balance would be more than sufficient to build a suitable railing for the bridge on this street.

During the past fall and winter, work has been done on the outlying streets by cutting and burning brush, it being a time when this can be done with safety and less expense.

Respectfully submitted,

EDWARD S. O'NEIL,  
Superintendent of Streets.

## REPORT OF FOREST WARDEN

To the Honorable Board of Selectmen and Citizens of Duxbury, Greetings:

We have been very fortunate in having no serious fires this year; have had a number of small ones but none that have done any serious damage.

The apparatus and equipment is in good shape, the men have responded quickly to the fire calls, and have kept the fire confined to a small area.

Will have to replace the truck that I have been using at South Duxbury this year. Will equip it lightly and use it as an emergency fire apparatus.

I wish to call your attention at this time to the importance of having permits for all out-door fires. I will make it as easy and convenient for you as possible, but must insist on your having them.

The Town Dump (a place of great annoyance to me) has been turned over to me. I am taking such steps as I think necessary for the proper handling of rubbish, and ask your co-operation. It is not a pleasant job at best but with your help will endeavor to put it in shape and see that it is kept that way.

I respectfully urge you to use every precaution, at all times, in starting any fire in the open air when conditions are such as to be at all dangerous, as a permit does not guarantee safety. The Town of Duxbury has a splendid record in the handling of fires and with the continuance of your co-operation we will keep it in the front rank.

Respectfully submitted,

H. E. MERRY, Forest Warden.

## FIRE DEPARTMENT

To the Honorable Board of Selectmen and Citizens of Duxbury—Greetings:

We have had practically no losses from fires this year.

The citizens of the town being awake to the fact that prevention is worth a whole lot of cure and unless the fire department has the help and co-operation of the townspeople, it is an uphill fight for the department.

I am pleased to say that the townspeople have brought into general use for the protection of their homes, bicarbonate of soda.

They have called for and carried away a number of pounds, and I stand ready at any time to give any information or advice on any matter pertaining to fire.

I think my calling on the schools and giving them a few minutes' talk on fire prevention and handling of fires did a lot of good.

The little Ford at No. 1 has been with us eight long, hard years of toil and I think it has served its purpose and would recommend purchasing a suitable piece of apparatus to take its place as that section of the town now hasn't the protection it deserves to have.

As we are now if we have only one fire at a time we can take care of it. If we should happen to have two calls at one time we would be seriously handicapped.

As a state we are having altogether too many serious losses, an increase of over five million dollars in the last year.

The price of safety is eternal vigilance.

Respectfully submitted,  
H. E. MERRY, Chief of Fire Department.

## REPORT OF THE DUXBURY FREE LIBRARY

To the Selectmen:

The number of books issued by the Duxbury Free Library during the past year was 16,186. Of these 4,545 were non-fiction. As many as 2,983 were sent out by basket delivery, and to the schools, 372.

The Oval Room has been furnished with bookcases which are not only a delight to the eye but also provide a safe repository for many Edition de Luxe given by Mrs. William J. Wright.

It has been the aim of the trustees to place in circulation all the best books of the year. The money given by the Town has made this possible with the result that visitors often remark the high standing of the Library in this respect.

There has been added to the library 386 volumes. Numerous gifts were also received. One gift in particular is "A Collection of Wild Flowers of Duxbury." In this connection the librarian writes as follows:

"Nothing is more characteristic of the old New England life than the beginning of collections such as the Bradford collection of Duxbury plants and flowers just given to the Library.

From just such beginnings as this came the impulse to the work of Agassiz at Harvard and to the later work of Shaler. Came also to the Peabody Museum collection and to the Museum of Natural History with its long story of public service.

"Observation, Record, Limited and Just Inference from the result of observation and record", said President Eliot characterized the work at Harvard. And all the splendid story of Natural History advance in New England which he summarized in the Harvard phrase came from such observation and record" as the old volumes of the Bradford collection illustrate."

Such was the impression received and so expressed by a recent visitor at the Library after seeing the volumes of Duxbury Wild Flowers so beautifully mounted and indexed by class and order, Latin and common name, and the month in which the flower was found, nearly one hundred years ago, the patient and careful work of Elizabeth Bradford.

The Botany of Dr. Jacob Bigelow that was used in classification accompanies the gift and the three books placed in a beautiful chest which bears an engraved copper plate inscribed "Wild Flowers of Duxbury," collected by Elizabeth Hickling Bradford, 1809-1890.

The chest was the gift of Mr. and Mrs. Frederick B. Knapp of Duxbury, the collection containing 166 specimens, gathered from April to October 1836, was presented by Mr. Knapps mother, Mrs. Lucia Knapp of Plymouth, in fulfillment of the expressed wish of her aunt, that eventually they should be placed in the Duxbury Library.

Elizabeth Hickling Bradford was the third of the four daughters of Captain Gershom Bradford and his wife Sarah Hickling. They lived in one of the three interesting old houses built by Captain Bradford in 1809 on Tremont street, in Duxbury. This was one of the old Duxbury families. All the daughters were accomplished botanists, all gathered and pressed flowers, but Elizabeth did her work so thoroughly, with such nicety and dainty skill were these specimens mounted and classified so beautifully, that her collection was a model.

A young daughter of a summer resident of Duxbury began a similar work last year, not knowing of this earlier collection. It will be an impetus and inspiration in her further pursuit to see how many of Miss Bradford's specimen may be yet found in meadow, field and wood, in the Duxbury of to-day,

RICHARD T. LORING, Clerk.

## REPORT OF CEMETERY TRUSTEES

---

To the Honorable Board of Selectmen and Citizens of Dux-Bury:

We feel that much work has been accomplished in this department during the past year. Soon after the annual appropriation was made, work was started removing dead trees and limbs and repairing avenues. This was followed by raking. A wooded section on the southern side of Mayflower Cemetery was cleared up and twenty-seven new lots were made ready for use. On the south side of Mayflower Street in the Cemetery Extension about an acre was cleared, avenues laid out, trees removed and stumps pulled and the land graded. Ninety-four lots were staked out. Another section was turfed. We hope to see the section which is reserved along Tremont Street grassed over and otherwise beautified this coming year.

Especial notice has been taken of the perpetual care lots during the year. In the spring each lot was carefully gone over and its needs noted. Of the fifty-four lots which have been built and rebuilt, nineteen were "Perpetual Care Lots". More money has been spent on this particular branch of the work than ever before but we feel that we have something to show for the extra amount spent. It has been necessary to purchase quite a lot of new equipment this past season. We bought beside necessary tools, two hundred fifty feet of garden hose, it being very essential to keep the grass well wa-

tered during the hot weather. A ton of fertilizer was also purchased. Thirteen new lots were added to the Perpetual Care list in 1923. Many stones have been cleaned in the Mayflower Cemetery. In the Ashdod Cemetery each lot was carefully looked over and the stones put in place where necessary and many of them reset. The fence has been painted and the walks and lots kept in good shape giving ~~it a fine~~ appearance at the present time. The usual work has been done at the Standish. The guns have been painted, the fence repaired and the new parts painted. All the cemeteries in our care have been moved several times and otherwise kept in good condition. Much credit is due the superintendent and his men for the amount of work which has been done and the expressions of appreciation regarding the splendid appearance of the cemeteries, from out of town people who are interested as well as citizens of the town have been very encouraging. The usual fall work of raking and burning the leaves has been done. Three hundred and ten dollars has been paid to the Town Treasurer from the sale of wood and lots.

We feel that the water pipes should be extended to the southwestern side of Mayflower Cemetery and also to the Cemetery Extension this coming year. Owing to the heavy motor travel over Oak Avenue in the central part of the cemetery, we believe it should be repaired and given a coat of tarvia this spring.

We want to keep in the minds of our citizens the proposed change in Mayflower Street and ask that they accept the change as laid out by the Selectmen, thus making, as we have said in an earlier report, the Mayflower Cemetery one of

the finest and most beautiful burial grounds in southeastern Massachusetts.

In order to keep up the good work we would ask for a like appropriation as last year, namely, \$3,500. We wish to thank our townsmen for the help and cooperation they have given us this past year, and ask for their support and goodwill in the coming year.

Respectfully submitted,

ALBERT M. GOULDING,

Chairman,

JOHN SIMMONS,

Secretary,

WILLIAM J. ALDEN,

HENRY F. WHITE,

MARTIN HANIGAN,

Trustees.

## REPORT OF COMMITTEE ON PUBLIC PLAYGROUND

At the annual Town Meeting, March 1923, the Moderator appointed the following committee, Harry B. Bradley, Paul C. Peterson, William J. Burke.

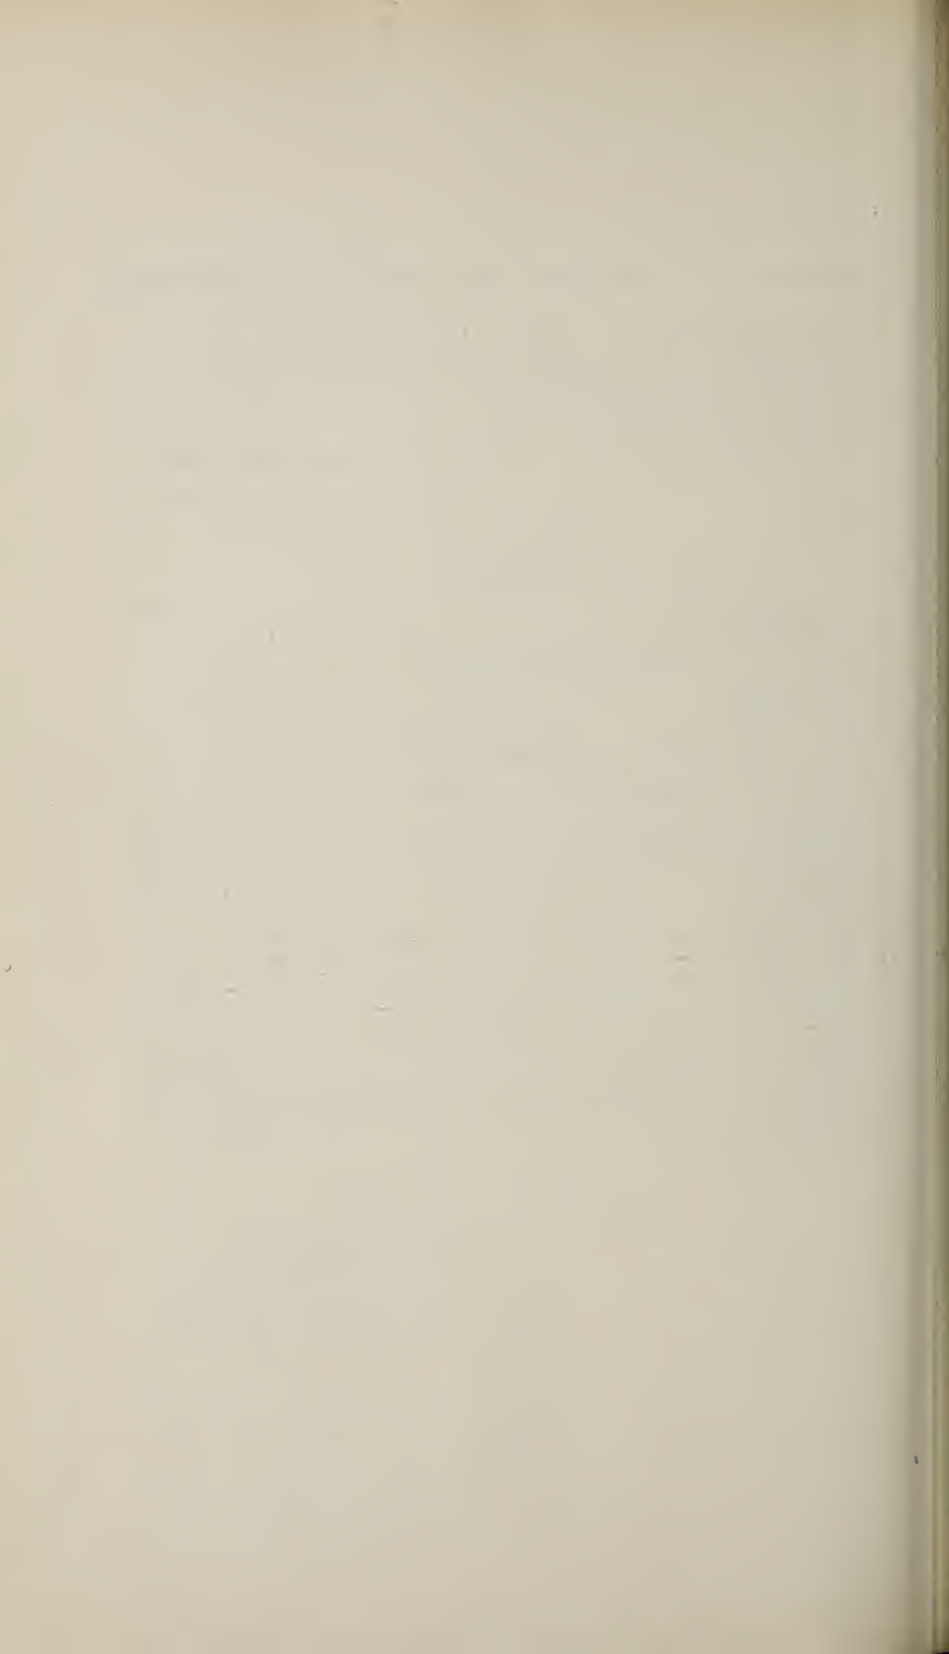

After some negotiation we acquired from the Duxbury Rural Society what is known as Train Field, at an expense of \$612.18, this being the amount they originally paid for same plus some expense in transferring.

In order to properly enlarge the field and to prevent trespassing at all times on the property adjoining and allow reasonable room for parking automobiles, etc., we opened negotiation with the owner of the adjoining property, Mr. Charles Alden. Mr. Alden was not at first inclined to consider the sale of any of this land much preferring to buy more, but was finally prevailed upon to let us have fifty feet additional on the south and from a point fifty feet west of the southerly boundary up to the original bound on Alden Street, for the sum of \$387.82, this being all the money available.

The Base Ball Association itself in the last few years has expended about \$1,800 on this lot, and if the Town will appropriate a sufficient amount of money to make certain very necessary improvements Duxbury will have in our opinion a public playground that will be a credit to the community for years to come.

Respectfully submitted,

H. B. BRADLEY,  
PAUL C. PETERSON,  
WILLIAM J. BURKE.

## REPORT OF SCHOOL COMMITTEE

---

To the Citizens of Duxbury—

The report of the School Committee, Superintendent of Schools, Principal of High School, Supervisors of Music and Drawing and Nurse are herewith submitted.

The School Committee and Joint Commission have been so closely allied in their work during the year 1923, it seems almost useless to attempt further report on schools, other than the routine work of the past year.

It is only just to our efficient corp of teachers to give them a word of commendation and acknowledge the Committee's appreciation of their good work.

It has been and will be the aim of your Committee and Superintendent to bring our schools up to the highest prevailing standards.

Many plans for better housing of our schools have been diligently sought and presented, but with no success as yet. Our present High School building is now inadequate, and if of all records prove true, we shall need a seating capacity for 85 to 90 pupils next year, and according to State laws, will require another assistant.

With an addition to and alteration of the interior of Partridge Academy, it can be made into an acceptable Junior-Senior High School building, and one up to date in its appointments; and surely one cannot be built more in keeping with old colonial Duxbury. The architecture of the front of the building cannot be altered for the better.

If this plan is accepted it will relieve the congestion of the lower grades, and the school problem will be solved for the present, at least.

In years past your Committee has attended to only necessary repairs, hoping for some change, but the year 1923 called for quite extensive repairs, and as there seemed to be no hope for immediate relief, we went as far as our appropriation would allow.

The heating and ventilating system in Village Grammar school was thoroughly over-hauled, and is giving very good satisfaction.

The interior of all buildings was cleaned and painted where needed.

The ceiling in Tarkiln Primary building was falling down and considered dangerous. It was replaced with beaver-board, and the room was then papered and painted.

Minor repairs were made in all schools including varnishing desks and chairs and oiling floors.

For new equipment we purchased new desks and chairs for the High School and Cyclopedias for both Grammar Schools and the High School.

The financial statement for the year will be found elsewhere in this report.

For the ensuing year we shall require an appropriation of \$36,5000.00.

Toward this sum, the Treasurer receives from the State the sum of \$2,126.66.

RALPH K. BEARCE, Chairman,

ELIZABETH A. PHILLIPS, Secretary.

JOHN SIMMONS,

Committee.

## SUPERINTENDENT'S REPORT

To the School Committee of Duxbury:

I present herewith for your consideration information and suggestions concerning the state of the schools at this time, as required by the statutes of the Commonwealth.

### GENERAL COMMENT.

The year 1923 has been one of marking time in respect to reorganization of the schools. No further advance in efficiency should be expected until the physical hinderances are removed. Indeed, to keep up the present, everything considered, very satisfactory standards becomes increasingly difficult, with every fresh disappointment to pupils and teachers who have talked and planned together so long for the enjoyment of adequate rooms and the means of pursuing the fascinating forms of school work enjoyed by children of other towns.

By a little shifting of routes of transportation from the northern and western sections of the township, the attendance at several buldings was somewhat equalized. The upper grade rooms are filled to capacity and more, and will continue so until such time as larger rooms are provided.

It has been my experience frequently to abandon desirable activities in the Grammar School for the sole reason of lack of space for the purpose. It has been my endeavor throughout the year to hold the teachers steadily toward the goal of efficiency in fundamentals. We have undertaken some studies in elimination of useless material from the course of study, and correlation of the branches to save time and prevent superficial work, and we have seen some satisfactory results. During all the process we have had in mind the maintenance of such classification as may be easily changed to the Junior and Senior High School program for which we hope and for which we have very definite plans to present at the proper time.

There have been but three changes in teachers within the year, and in these we have been fortunate. All our teachers may be commended for devotion to their work and faithfulness in the discharge of their obligations to their several charges. I call your attention to a graph herewith presented, showing the status of our teaching force. Interesting facts may be obtained from this graph.

---

### GENERAL SUGGESTIONS.

Recommendations for your consideration seem out of season, while as a Town you are unsettled in respect to plans to be adopted, but some minor steps toward a more rational and efficient organization may be timely.

It seems to me very foolish to continue two primary schools so near together as are the Point, and the Millbrook schools with four grades in each school. Neither can be really efficient. Why not halve the problem at least by making one school for grades I. and II., and the other for grades III. and IV. Expenses will be the same, but the children will be gainers in the amount of attention given them by the teachers, and more thorough drilling.

The Physical Education program which is now mandatory throughout this State, should be strengthened. Simple apparatus is needed. This may be of such kinds as may be used in any future developments of buildings or playgrounds. Teachers should be urged, or even required, to take up summer or other professional courses, which will help them meet the requirements in this and other new forms of school work. Professional growth in the teacher seems indispensable to the maintenance of a progressive school.

You should take into consideration in making up the budget for next year, the wisdom of providing a fifth

## REPORT OF PRINCIPAL OF HIGH SCHOOL

To the Superintendent of Schools:

In this report I shall place before the public the needs and conditions of the High School topically.

### ENROLLMENT.

Post-Graduate,	1
Seniors,	11
Juniors,	21
Sophomores,	18
Freshmen,	26
Total,	— 77

There have been, to date, on our register 81 names. \* Of these, one girl removed to New York City, one, a summer resident, to her private school after two weeks' attendance with us, one, to Somerville, to return to us in the Spring as she did last year, and one has permanently left school. No boy, at mid-year, has left school. We feel a pardonable pride in this remarkable record of retention.

Of the 26 Grammar School graduates, all but two reported at the school, and are still with us and their loss was equalized by the fact that two others have moved into town and entered our Freshman class.

---

### HOUSING EMERGENCY.

All of which leads, naturally, to a consideration of next September, while yet there is time.

Our Senior class numbers 11. All indications point to an entering class in excess of 25. There seems no escape from the conclusion that our enrollment next September will equal or exceed 90. Further, the grade enrollment table shows a long succession of 30-pupil grades.

We think no one will question that next September a fourth assistant will be absolutely necessary. State standards for approval for Normal school certifications, too, require this addition to our faculty, and this is no minor consideration, as many of our present pupils have already filed their entrance applications, in addition to the eight now in attendance at Bridgewater.

Thus, the town stands face to face with the prospect of a five-teacher school in a four-room building, and no possible preventive unless additional construction (or remodeling) is immediately provided.

---

#### SCHOOL RATING.

Our College Entrance Certification privilege has been extended, and our Class "A" rating by the State Board of Education has been renewed.

---

#### EQUIPMENT.

Two of our four rooms have been completely re-fitted with the latest type of combination desks and seats, our English department has received considerable additions of reference books, and a new encyclopedia has been added to the main room reference case.

---

#### SOCIAL PROGRAM.

School socials have been held monthly or oftener, with varying degrees of success. We have used for these, our own school hall, thus eliminating the "public-private" dance with its complications and uncertainties. We propose to continue this policy.

## ORGANIZATION.

We have been able to correct the irregularities which somewhat hindered our work last year.

Faculty meetings have been held weekly or oftener.

Milder weather and improved janitor service have made no necessary waiting for the rooms to warm up and become usable.

Teachers, pupils, and supervisors have been remarkably regular in their attendance.

No epidemic has yet appeared to disturb our operation. Last Spring, however, eight of our seventeen seniors, and five of our baseball team contracted mumps. In all, about thirty cases of this disease interrupted our closing weeks.

Finally, our lengthened session provides sufficient time for our work, although the extra period so gained is consumed by Music, Drawing, Red Cross Class and Prose Declamation on four of the five school days each week. Even with this added time, each assistant supervises study only two or three periods a week, though the principal's opportunity in this respect is much wider, owing to his location in the main room. We need more supervised study, however.

---

## MISCELLANEOUS.

In November, Number 1, Volume I, of our new school paper, "The Partridge" was successfully launched. I can recall no other school of our size which undertakes so admirable and ambitious a venture. Praise without stint is due Miss Helen McKay, our English teacher, and Miss Dorothy Walker, its Chief Editor, for its existence, and its high quality.

We wish to express to Mr. Carl Simmons our deep appreciation for having furnished our "Hi-Y" unit the sort of leadership it has needed for some time.

We accepted last year, from the Massachusetts Sons of the American Revolution, the gift of the Washington and Franklin Medal, to be awarded annually for excellent scholarship in the study of United States History. It was awarded in June to Robert J. N. Osborn, the valedictorian of his class.

I wish to thank all who have co-operated to forward the work of the school and its teachers.

The following table will prove self-explanatory.

Course		Fresh- men	Sopho- mores	Juniors	Seniors	Post Graduates	All	Teacher	Weekly Periods

Respectfully submitted,

ROBERT CUSHMAN,

Principal

## REPORT OF THE SUPERVISOR OF MUSIC

To the School Committee of Duxbury:

In the music department we are endeavoring to pursue the policy of "the greatest good to the greatest number," rather than that of developing highly individual talent. A choice between the two aims is inevitable, considering the time allotted to music, and the former seems to be in better accord with the general purposes of the public school. "One hundred per cent. participation" has been our aim for three years past, and this condition has been very nearly attained in all grades below the present eighth.

With the addition of the new Elementary Music Readers for the primary schools, we complete the set of new music books with which we have gradually been replacing the old ones throughout our schools. The large type in printed music for little children is a step ahead that makes music-reading easier for them, and music-teaching pleasanter for the teachers, just as large type in primer reading-books is an advantage.

Looking backward over the year, I judge, from the comments, that our music at the High School graduation was considered unusually successful, in spite of, or because of its being conducted from the balcony. It is only right to acknowledge here our debt to Miss McKaye, whose lively interest and excellent gift for accompaniment did much to make the program what it was.

For a slight novelty, I incorporated the primary songs for the whole year into a little play, which was given in three of the schools; a fourth was prevented from giving it by the sickness prevalent at the time.

Point and South Duxbury schools were especially well-done, notwithstanding the epidemics which handicapped us in our preparations.

In the upper part of the town this fall we gave an enter-

tainment, in which all four of the schools were represented, to raise money for the hot lunch fund. Owing to the impossibility of rehearsing all together on the spot, and to the overcrowding of the hall, the program did not go off as smoothly as might have been hoped for, but the audience seemed to enjoy itself, and we were urged to undertake a similar social again soon.

Two of our teachers used our school-music last spring in doing what seemed to many a very gracious act. They took their best singers and went to the Duxbury Home, where they held a May Day "song-feast". The old folks enjoyed it hugely, according to report, and some were even moved to join in the choruses.

Just a glance toward the future may be relevant here. If we are to keep abreast the times, we should have a lecture course in music appreciation at the High School, in addition to the required chorus period, conducted with the use of phonograph and some excellent records. Such a course is now a recognized part of the curriculum of most enterprising High Schools, and it is my hope that it be added to ours as soon as circumstances permit.

With one exception, the teachers have always been very ready to cooperate in any of my plans, either in the school-room or on special occasions outside, and this year conditions in that respect are practically ideal. I should like to close with a word of gratitude to all our present staff, from Primary to High School, for their interest and help.

REBECCA PHILLIPS,  
Supervisor of Music, Duxbury, Mass.

## REPORT OF SUPERVISOR OF DRAWING

To F. E. Bragdon, Superintendent of Schools.

Dear Sir:—In appreciation, we wish to thank the Duxbury Artists for the cash prizes they so generously offered and awarded for the best water color rendering of nature subjects done by pupils in the village grammar schools, and the Tarkiln grammar schools. The work of the successful contestants was passed upon by Mr. Charles Bittinger and Mr. Waldo Kennard, which was a sufficient guarantee that the best work would receive the honor it merited.

A selective exhibit by the same gentleman of the best work done in the two schools mentioned, was exhibited at the Duxbury Artists' Summer Exhibit at Partridge Academy.

The regular exhibition of drawings representing the year's work, was held at Mattakeesett Hall during the graduating exercises of the grammar schools.

This year we have added Perspective and Window Card Lettering to the other work under way at the High School, and as far as results go this was certainly our best year at the Academy. The teachers in all the schools have done excellent work as usual, and it has been a pleasure to find such earnest cooperation on their part.

Respectfully yours,

SAMUEL WARNER.

---

## REPORT OF SCHOOL NURSE

To the Superintendent and School Board of Duxbury:

During the year I have assisted Dr. Spaulding in the Spring inspection and Dr. Noyes with the examinations after the opening of the schools this Autumn.

I have visited the schools once a week and more often when some special inspection was necessary. In the Primary and Grammar schools I have given instruction in hy-

gene and given health talks. In the High School I have been instructing a class in "Home Hygiene and the Care of the Sick". In all schools the pupils have shown a keen interest in these classes. Through the kindness of the Red Cross we have received cards and stars to use in our health work. When a pupil has kept all the rules of health and cleanliness for a week they receive a blue star on this card and when four blue stars have been earned they are rewarded by a gold star. This system has stimulated the children to watchfulness for the little things that they are apt to forget.

All cases that needed special attention have been followed up in the home, such as pediculosis and scabies. These cases have been watched closely and instruction given parents or guardians. There have been a few cases of neglect and careless supervision. These cases have been investigated and followed up by the Department of Health and the State Society for the Prevention of Cruelty to Children.

A state physician and psychologist has examined several children who had defects of speech, some who stuttered and some who were retarded. The object of this examination is to classify them and have a special form of study for these pupils which will make their school work easier for them.

At the same time two idiots and one feeble minded child, all of school age, were examined, with the idea of advising the parents about placing them where they may be taught something while they are young.

I have made visits as follows:

To the homes of school children,	736
----------------------------------	-----

School sessions,	399
------------------	-----

Carried to Kingston for dental treatment,	42
---	----

Many others have gone for dental treatment with parents or friends which would bring the number of dental cases up higher. Many have had tonsils and adenoids removed, also.

Respectfully submitted,

ANNIE L. WILLIAMS, R. N.

### **ATTENDANCE HONOR ROLL.**

The pupils named below have been present every session of school between the dates given. Because of this record their names are registered here.

**September 1922 to June 1923.**

#### **High School.**

Lottie Densmore	Virginia Goodrich
Isabelle Freeman	Wadsworth Jones
	Howard Mann

#### **Village Grammar.**

Dorothy Morrison	William Wadsworth
------------------	-------------------

#### **Point.**

Walter Smith Edwards

**January 1, 1923 to June 21, 1923.**

#### **High School.**

Howard Mann	Wadsworth Jones
Martha Wadsworth	Lottie Densmore
Isabelle Freeman	Virginia Goodrich
	Evelyn Wadsworth

#### **Village Grammar.**

Alice Briggs	Ernest Jones
Helen Hanigan	Dorothy Morrison
	William Wadsworth

#### **Village Intermediate.**

Mary Edwards	Beulah Morrison
	Helen Jones

#### **Tarkiln Intermediate.**

Emma Brocklebank	Esther Nickerson
Robert McAuliffe	John King

**Point.**

Walter Smith Edwards

**September 5 to December 23, 1923.**

**High School.**

Alice Briggs	Edward Hobart
Bertha Chubbuck	Isabel Hunt
Mildred Chandler	Ernest Jones
Russell Chandler	Wadsworth Jones
Lottie Densmore	Horatio O'Neil
Helen Ellis	William Osterberg
Isabelle Freeman	Fred Soule
Doris Gilman	Bessie Studley
Virginia Goodrich	Evelyn Wadsworth
George Worster	

**Village Grammar.**

Willard Chubbuck	Beulah Morrison
Mary Edwards	Rowena Morrison
Helen Jones	Lola Pierce
Dorothy Morrison	William Wadsworth

**Village Intermediate.**

Mary Cushman	Donald Walker
Henry Thomas	Kenneth Walker
Arthur Wight	

**Tarkiln Primary.**

Arthur Peacock

**Tarkiln Intermediate.**

Clarence Berg	Elbert Little
Elsie Berg	John Little
Doris Foster	Chester Lovering
Jeannette King	Anna Nielson
John King	Albert McKinney
	Natalie Peterson

**Tarkiln Grammar.**

Harry Hunt	Hazel Nickerson
Robert McAulliffe	Charles Terevainen
	Russell Atwood

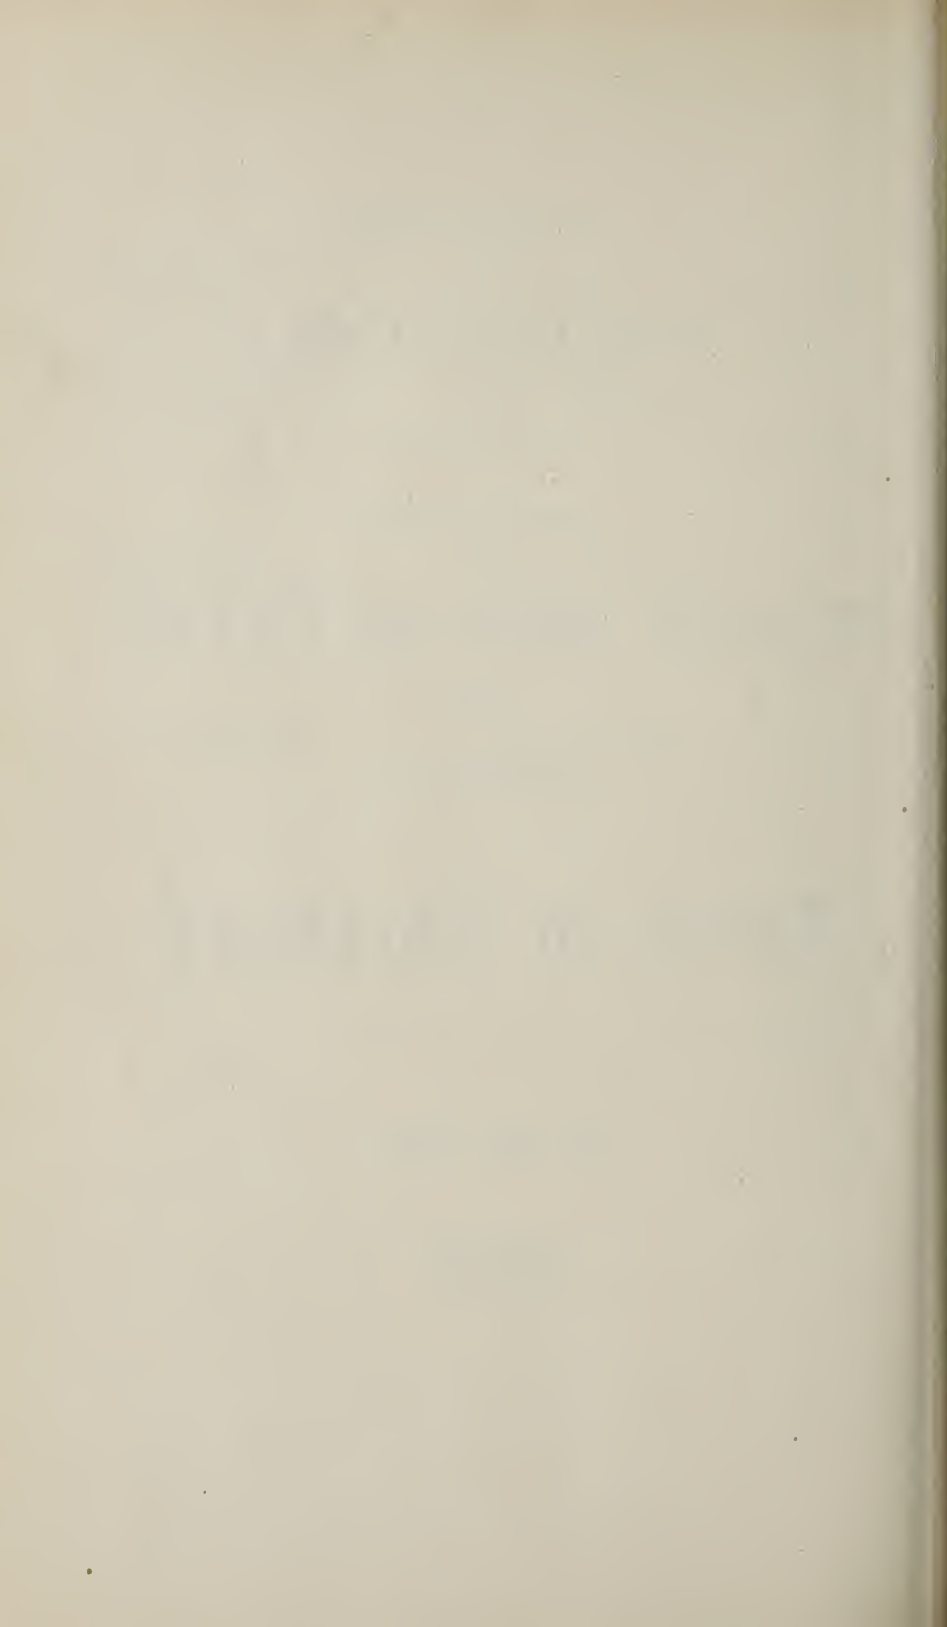

**Point.**

Irene Chandler	Annie Edwards .
	Walter Edwards

VALUATION  
OF  
POLLS AND ESTATES  
OF THE  
Town of Duxbury

For the Year

1923

## PERSONS ASSESSED FOR A POLL TAX

Parker, Edward S. O'Neil.

Keeper of Almshouse and Pound—Herbert Packard.

Superintendent of Streets—Edward S. O'Neil.

Town Physicians—Nathaniel K. Noyes, M. D., Roger  
Spalding, M. D.

## REPORT OF THE SELECTMEN

---

To the Citizens of Duxbury:

Your Board of Selectmen make the following report:

One of the chief departments requiring a large appropriation is the Highway Department. With the travel being nearly all by automobiles every one feels that they should have a hard smooth street, which would require a very large amount of money.

We feel that we should have a good appropriation the coming season in order to keep what hard roads we have in good repair, and also improve many places that are in need.

The road built jointly with the State and County was readily approved by both. We shall ask for more money this year to extend the road.

The Tamden Roller purchased this year has done nice work and saved the town quite a little money. It is run by gasoline instead of steam.

It was ready at a minute's notice while in using steam it would take some time to get up steam and require a great deal of time in carting water.

We shall recommend that the watering trough at the Cable Office corner be removed, and also the flag-pole at Hall's Corner, So. Duxbury, the latter to be replaced by a beacon light.

The white line painted on the street seems to be one of the best guides to travel to every one respecting rights of others.

The two dangerous curves at North Duxbury and Ashdod have been straightened.

Respectfully submitted,

SIDNEY C. SOULE,  
WENDELL PHILLIPS,  
ALFRED E. GREEN,  
Selectmen of Duxbury

## REPORT OF AN AUDIT OF THE ACCOUNTS OF THE TOWN OF DUXBURY.

---

To the Board of Selectmen,  
Mr. Sidney C. Soule, Chairman,  
Duxbury, Massachusetts.

Gentlemen :

I submit herewith my report of an audit of the accounts of the town of Duxbury for the financial year ending December 31, 1923, made in accordance with the provisions of Section 35, Chapter 44 of the General Laws. This report is in the form of a report made to me by Mr. Edward H. Fenton, Chief Examiner of this Division, who was placed in charge of the work.

Very truly yours,  
THEODORE N. WADDELL,  
Director of Accounts.

Mr. Theodore N. Waddell,  
Director of Accounts,  
Department of Corporations and Taxation, State  
House, Boston.

Sir:

Complying with your instructions, I have made an audit of the books and accounts of the town of Duxbury for the financial year ending December 31, 1923, and submit the following report:

The financial transactions of the town, as recorded on the books of the several departments, were checked and compared with the books and records in the selectmen's office.

The books and accounts in the selectmen's office were examined and checked. The recorded receipts were checked with the records in the several departments collecting money for the town and with the other sources from which money was paid into the town treasury. The disbursements were checked with the warrants authorizing the treasurer to make payments and with the treasurer's books.

The appropriation accounts were checked with the town clerk's records of appropriations voted by the town, the ledger was analyzed, and a balance sheet was prepared showing the financial condition of the town December 31, 1923.

The books of the treasurer and collector were examined and checked, the cash on hand being verified by an actual count, and the bank accounts reconciled with the statements furnished by the banks.

The receipts, as recorded by the treasurer, were compared with the selectmen's books and with the records of departmental payments to the treasurer; and the payments were proved by checking the amounts shown on the books with properly approved warrants.

The tax commitments were added and proved; the abatements were checked with the assessors' record of

abatements granted; and the outstanding accounts were listed and proved to the accounts in the selectmen's ledger. Verification notices were mailed to a number of persons whose names appeared on the books as owing money to the town, and from the replies received I am satisfied that the accounts are correct.

The surety bonds furnished by the officials for the faithful performance of their duties were examined and found to be in proper form.

The accounts of the several trust funds in the custody of the town treasurer were examined and checked, the income being verified and found to be as reported on the treasurer's and the selectmen's books. The securities, as represented by savings bank deposits, were examined and found to be as recorded on the books.

Tables showing a reconciliation of the treasurer's cash and summaries of the tax and assessment accounts, together with a balance sheet, are appended to this report.

During the process of the audit, uniform courtesy was extended by the several town officials, and I wish, on behalf of my assistants and myself, to express my appreciation.

Respectfully submitted,,

EDWARD H. FENTON, Chief Examiner.

Department of Sealer of Weights and Measures,	200 00
Bounties on Hawks, Crows and Seals,	100 00
Unclassified Department,	1,300 00
Town Dump,	150 00

and it was voted that a Committee of Three be appointed by the Chair to act in regard to change in location of the town dump. Hortense E. Merry, Frederick B. Knapp and Sidney C. Soule were appointed as this Committee.

Voted, to raise and appropriate for:

Highways, Bridges and Sidewalks,	11,000 00
----------------------------------	-----------

\$1,000 of this appropriation to be expended by a Committee of Three to be appointed by the Chair, for expert

advice and temporary repairs of Bluefish River Bridge. The Chair appointed as this Committee, Edward S. O'Neil, Wendell Phillips and John K. Parker.

Town Landings, 300 00

In connection with the Street Lighting Department it was voted to take up Article 21 and

Voted, to raise and appropriate \$1,888.00 to include placing three lights at North Duxbury as follows: One at the crossing of Temple and Franklin streets; one at the junction of Lincoln and Franklin streets, in front of or near the Fire Station; and one at the junction of Acorn and Franklin streets.

Voted, to raise and appropriate for:

American Legion Post No. 223, 100 00

Voted, to raise and appropriate the sum of \$350 to be expended under the direction of William Wadsworth Post No. 165, G. A. R., for the observance of Memorial Day.

Voted, that the Treasurer, with the approval of the Selectmen, be authorized to borrow money from time to time in anticipation of revenue for the financial year, beginning January 1, 1925, and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of said financial year.

Voted, to raise and appropriate the sum of \$500 for a Reserve Fund for the year 1924.

Voted, to raise and appropriate for the use of the Plymouth County Trustees for County Aid to Agriculture the sum of \$200.00, as provided in Sections 41 and 45 of Revised Chapter 128 of the General Laws, and chose Theodore W. Glover, Jr., Director.

Voted, to raise and appropriate the sum of \$1,000.00 for the Duxbury Free Library.

Voted, that the sum of \$11,000.00 from the Excess and Deficiency Account be used by the Assessors in making the tax rate.

Voted, to raise and appropriate a sum of money not to exceed \$15,000.00, to resurface with sand asphalt the road called Surplus Street, beginning at the easterly end at Washington Street, through said Street to westerly end which joins Depot Street, notes to be issued therefor, payable in five annual payments. Eighty-three (83) voted in favor and forty-four (44) against. More than two-thirds having voted in favor, the motion was carried and was so declared by the Moderator.

Voted, to raise and appropriate \$300 to straighten the two dangerous curves on Franklin Street, one on the northerly side of said street near the junction of West and Franklin streets, and one on south side of said street opposite the house of John Lovell.

Voted, to raise and appropriate a sum of money not to exceed \$10,000.00, to resurface with sand asphalt Union and Congress streets, subject to the State and County appropriating an equal amount, and to issue notes therefor, payable in five equal annual payments. Eighty-seven (87) voted in favor and thirty-eight (38) against. More than two-thirds having voted in favor the motion was carried and was so declared by the Moderator.

Voted, to accept the road as laid out by the Selectmen, beginning at a point on Tremont Street and running across the Cemetery Extension to a point on Mayflower Street near the town dump, and to raise and appropriate \$3,000.00 for the construction thereof.

Voted, to discontinue that portion of Mayflower Street beginning at Tremont Street and running to a point where the new proposed street across the Cemetery Extension enters Mayflower Street near Town Dump.

Voted, to indefinitely postpone Article 16, which reads: "To see if the Town will vote to raise and appropriate a sum of money to remove the Cemetery fence bordering on Mayflower Street, and set same along Tremont Street, and take any other action thereon."

Voted, to lay on the table Article 18, which reads: "Will the Town vote to raise and appropriate the sum of

\$1,000.00 for the purpose of repairing and extending the road work on Temple Street, North Duxbury? The new work to extend in either direction the Selectmen decide upon."

Voted, to lay on the table Article 19, which reads: "To see if the Town will vote to raise and appropriate a sum of money to grade and resurface with sand asphalt Crescent Street and take any other action thereon."

Voted, to resurface with sand asphalt South Station Street from Depot Street to Partridge Road, the amount expended to be taken from the Highway appropriation.

Voted, to increase the wages for unskilled town labor to \$4.50 per day for eight hours.

Voted, to give the Selectmen authority to relocate the Landing Road to the satisfaction of Mr. Timothy Coughlin and the Selectmen.

Voted, under Article 24, to name the square where the World War Veterans Monument stands, "Charles Boomer Square"; and to lay on the table the clause in this article which reads: "To see if the Town will dedicate the World War Monument and Square to the Duxbury Post, 223, American Legion."

Voted, to instruct the Selectmen not to sell or convey any Town land without the consent of the Town.

Voted, to apply the dividend from the Plymouth County Dog Fund to the support of Schools.

Voted, to raise and appropriate the sum of \$535.00 to purchase two traffic beacon lights, and that the Selectmen, with Harry B. Bradley, relocate the Millbrook traffic beacon, and that the Selectmen be instructed to view the location of the other beacon with view of relocating.

Voted, to raise and appropriate the sum of \$2,150.00 toward the purchase of a tandem roller, the understanding being that \$1,000.00 will be allowed for the old steam roller.

Voted, to raise and appropriate \$1,000.00 for the improvement of Train Field Playground, to be expended under the direction of a Committee appointed by the

Chair. H. B. Bradley, Paul C. Peterson and William J. Burke were appointed as this Committee.

Voted, to lay on the table Article 30, which reads: "To see what action the Town will take regarding the pay of the Chairman of the Board of Health."

Voted, to lay on the table Article 31, which reads: "To see what action the Town will take regarding the pay of the Chairman of the Board of School Committee."

Voted, to lay on the table Article 32 which reads: "To see what action the town will take regarding the pay of the chairman of the Board of Cemetery Trustees."

Voted, to accept the offer of the Trustees of Partridge Academy of the Academy Real Estate and furnishings for \$1.00, and subject to the following restrictions:

First. That the building shall be used for school purposes for not less than thirty years.

Second. That no structural changes shall be made in the original building.

Third. That any addition to the original building shall be in the rear of the back line of said building, or said line prolonged.

Fourth. That the same order of architecture shall be carried out in any addition, as in the original building.

Fifth. That the general wooded effect as now existing on the Academy land, northeasterly and southeasterly of the buildings, be preserved as far as possible.

118 voted in favor and 54 against.

Voted, that a sum not to exceed \$85,000.00 be raised and appropriated for the purpose of building a Junior-Senior High School Building joining or attached to the Academy Building, said sum to be raised by twenty-year bonds. 115 voted in the affirmative and 29 in the negative. More than two-thirds having voted in favor, the motion was carried and was so declared by the Moderator. This money is to be expended under the direction of a Committee of Seven Persons, one to be a member of the Board of Selectmen, to be selected by that Board;

one to be a member of the School Committee, to be selected by that Committee; and five to be chosen by this meeting, which chose unanimously, Harry B. Bradley, Nathaniel K. Noyes, Miss Sally Freeman Dawes, Mrs. Paul C. Peterson and Robert Cushman.

Voted, to accept the report of Joint Committee on Schools.

Voted, to exchange a piece of land at Town Landing at Old Cove, so-called, for a piece adjoining said Town Landing, now belonging to Mrs. Helen Ripley Clapp and Mrs. Clara Ripley Evans.

Voted, to accept Section 6, Chapter 148, General Laws.

Voted, to raise and appropriate \$4,200.00 to purchase new equipment for Engine House No. 1.

### RESOLUTION

BE IT RESOLVED, that the citizens of Duxbury in Town Meeting assembled, empower the Selectmen to appoint a Committee to oppose any and all legislation having for its purpose the removal of the statue of Miles Standish from its place on the top of the monument on Captain's Hill, South Duxbury.

Voted, that the Moderator be paid the sum of \$25 for his services.

WENDELL B. PHILLIPS,  
Clerk, Pro Tem.

---

"No,"	125
Blanks,	72
Voted, to adjourn.	

GEORGE H. STEARNS, Town Clerk.

---

#### SPECIAL TOWN MEETING, MAY 24, 1924.

The meeting was called to order by the Town Clerk.

Voted, unanimously, that the reading of the Warrant be waived.

Voted, unanimously, that the Town Clerk cast a ballot for William N. Cronin for Moderator.

Herbert Packard, William J. Burke, Warren C. Prince and Robert I. Tower were appointed Tellers and sworn by the Town Clerk.

Under Article 2 it was voted, to raise and appropriate the sum of \$15,000 for the purpose of resurfacing with sand asphalt the road called Surplus Street, beginning at the easterly end at Washington Street, through said Surplus Street to the westerly end which joins Depot Street: and that to meet said appropriation there be raised in the levy of the current year the sum of \$3,000, and that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow a sum not to exceed \$12,000, and to issue bonds or notes of the

Town therefore, said bonds or notes to be payable in accordance with the provisions of Section 19 of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than five years from the date of issue of the first bond or note. One hundred and thirty-seven (137) voted in favor and twelve (12) in opposition. More than two-thirds having voted in favor, the motion was carried and was so declared by the Moderator.

It was voted that Article 3 of the warrant be adopted as read, as follows: "To see if the Town will vote to raise and appropriate the sum of \$5,000, for the purpose of resurfacing with sand asphalt Union and Congress Streets, said sum to be used in conjunction with a like sum allotted by the State and the County, and that to meet said appropriation there be raised in the levy of the current year the sum of \$2,000, and that the Treasurer, with the approval of the Selectmen, be and is hereby authorized to borrow a sum not to exceed \$3,000 and to issue bonds or notes of the Town therefor, said bonds or notes to be payable in accordance with the provisions of Section 19 of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than five years from the date of issue of the first bond or note." One hundred and fifty-two (152) voted in favor and five (5) in opposition. More than two-thirds having voted in favor, the motion was carried and was so declared by the Moderator.

Under Article 4, which reads: "To see if the Town will vote to raise and appropriate the sum of \$85,000 for the purpose of building a Junior-Senior High School Building adjoining or attached to the Academy Building and for the original equipment and furnishings of said building or addition, and that to meet said appropriation there be raised in the levy of the current year the sum of \$2,000, and that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow the sum of \$83,000 and to issue bonds or notes of the Town therefor, said bonds or notes to be payable in ac-

cordance with the provisions of Section 19, Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than twenty years from the date of issue of the first bond or note." One hundred and four (104) voted in favor and eighty-five (85) in opposition. Less than two-thirds having voted in favor, the motion was lost and was so declared by the Moderator.

Voted to indefinitely postpone Article 5, which reads: "Will the Town vote to use the Town Hall for school purposes and the Committee be given authority to enlarge and repair the same according to plans procured by the school-house building committee, subject to the following restrictions, that the hall shall be open at all times for any meetings duly authorized by the Selectmen?"

Voted to indefinitely postpone Article 6, which reads: "To see if the Town will raise and appropriate \$1,000 for procuring plans and specifications for a Junior-Senior High School Building or such other school building as the Town may direct (to be erected on a site other than land of Partridge Academy) and to designate or appoint a committee to procure such plans and specifications and to recommend a site for said building, said committee to report at a town meeting to be held not later than July 15, 1924." Ninety (90) voted in favor and eighty-one (81) in opposition.

Under Article 7, voted not to rescind the vote under Article 33 of the Annual Town Meeting of March 1, 1924, whereby the Town voted to accept the offer of the Partridge Academy Trustees of the Academy real estate and furnishings for the sum of one dollar and subject to their restrictions. Eighty-one (81) voted in favor of rescinding and ninety (90) in opposition.

Under Article 8, voted to rescind the entire action taken under Article 34 of the Annual Town Meeting of March 1, 1924, whereby the Town voted an appropriation of Eighty-five Thousand Dollars (\$85,000) for a

Junior-Senior High School and elected a building committee to expend the said amount.

Voted that the Moderator be paid \$25 for his services.

Voted to adjourn.

GEORGE H. STEARNS,  
Town Clerk.

---

SPECIAL TOWN MEETING, MAY 10, 1924.

Chose Alfred E. Green, Moderator.

The Moderator ruled that no action be taken on Article 2, as the subject matter was not legally passed at the Annual Town Meeting.

Voted, to lay Article's 3 and 4 upon the table.

Under Article 5, which reads: "Will the Town vote to use the Town Hall for school purposes and the Committee be given authority to enlarge and repair same according to plans procured by the school-house commission, subject to the following restrictions, that the hall shall be open at all times for any meetings duly authorized by the Selectmen," thirty-six (36) voted in favor and seventy (70) against, and the motion was declared by the Moderator as not carried.

Voted, to adjourn.

GEORGE H. STEARNS,  
Town Clerk.

---

SPECIAL TOWN MEETING, DECEMBER 27, 1924.

In the absence of the Town Clerk the meeting was called to order and the warrant was read by the Chairman of the Selectmen, Sidney C. Soule.

Sally Freeman Dawes was chosen Clerk Pro Tem.

Chose, Harry B. Bradley to act as Moderator.

Voted, that the Town appropriate from the Excess and Deficiency Account the sum of \$2,159.19 for the various departments: Election and Registration, \$100; Fire Protection, \$800; Forest Warden, \$900: Unclassified,

\$112.57: Street Lighting, \$91.24: Junior-Senior High School appropriation, \$155.38.

Voted, that the Town Hall be used for school purposes under restrictions which the Selectmen may impose, for a term of two years unless sooner revoked by the Selectmen.

Voted, that Article 4, "To see of the Town will vote to raise and appropriate \$4,000 for the payment of architect fees in relation to Junior-Senior High School and take any other action thereon," be laid on the table.

Voted, that the meeting adjourn.

SALLY FREEMAN DAWES,

Clerk Pro Tem.

---

Respectfully submitted,  
 SIDNEY C. SOULE,  
 WENDELL PHILLIPS,  
 ALFRED E. GREEN,  
 Assessors of Duxbury.

## REPORT OF OVERSEERS OF THE POOR

---

Your Board of Overseers make the following report:

The number of inmates in the Almshouse are the same as last year being four in all, three females and one male. One of these being a soldier's widow who pays her board.

The expense of running the department will be found under the financial report.

We have at the present time one State and one out of town case that we are partially supporting for which we should receive reimbursement.

There are some necessary repairs needed at the Almshouse the coming spring.

Our recommendations for amount to be raised will be found in the general recommendations of the Board of Selectmen.

Respectfully submitted,

SIDNEY C. SOULE,

WENDELL PHILLIPS,

ALFRED E. GREEN,

Overseers of the Poor

## REPORT OF THE HEALTH DEPARTMENT

---

There have been reported to the Board of Health from January 1, 1924, to date, the following cases of communicable diseases: Chicken Pox, 59; German Measles, 3; Measles, 62; Mumps, 59; Ophthalmia Neonatorum, 3; Scarlet Fever, 2; Typhoid Fever, 1; Whooping Cough, 3; Tuberculosis, 2nd attack, hospital case, 1; Tuberculosis, 1st attack, home case, 1; making a total of 194 cases.

By months, these were reported as follows: In January, from all diseases, 6; February, 13; March, 28; April, 21; May, 29; June, 14; July, 6; August, 2; September, 2; October, 0; November, 44; December, 28. From February to July, mumps prevailed; from March to December, chicken-pox; from the middle of May to November 26, a few scattering cases of measles; and from then to the middle of December, an epidemic of them.

If we add an estimate of 10% of the 194 reported cases, or 20, as not having been reported in any way to the Board of Health, we have a total of 214 cases of communicable diseases. Why this large number? Simply because the first case is not reported, or if reported, not until after the seed has been sown over a wide area. On receipt of a report of a case, we are required by law to investigate the same. We have regulations for handling the cases. While investigating a reported case, we may hear of three or four other cases, "unreported", which have to be traced and followed up. When we reach home we find that so and so at the other end of the town has left phone message to come there at once; and so it goes, day after day. The last few days of the incubation period, the suspect should not be allowed to leave his premises. This requirement is very hard to enforce.

Again, perhaps we have a case where there is doubt as to the legal settlement. We learn that no settlement

has been gained here; then we have to see if residence has been established in any other city or town of the state. Before we can charge a settlement against a city or town, our statement of facts must show our claim "beyond a reasonable doubt." If we can find no such settlement, then the case comes to the Commonwealth and here the evidence must be not only beyond reasonable doubt, but beyond a doubt. Having established this, our troubles have just begun and end only when we learn that the town has received a check for the amount involved.

At the present time there is due from the State, the sum of \$449.43, which has been expended by the town of Duxbury from the Board of Health appropriation for the past year.

In nearly every case where a physician is called, he thinks even if he does report a communicable disease, that he is not really obliged to do so; which idea is incorrect, as the law puts the same obligation on him as on the family.

Even in view of this explanation of long and detailed casework, someone will say, "Look at the bills for transportation! Have you done all you could to make such bills less?"

There have been examined ten wells of water in the north and west parts of the town and all were to a greater or less extent, unfit for use.

PAUL C. PETERSON, Chairman,  
CHARLES W. EATON, Secretary,  
EUGENE E. COVELL,

Board of Health.

## REPORT OF FOREST WARDEN

---

To the Honorable Board of Selectmen and Citizens of  
Duxbury—Greetings:

The past year has been the most discouraging year for any Forest Warden. It seems as if each year were worse than last. The long drought we had, the high winds, and last, but not least, the carelessly thrown cigarette butt, and picnickers, have contributed largely to our misery. A Dodge truck was installed at Herrick's Garage with water tank and extinguishers and went to about every fire, it seemed to me, there was in the county. It made a splendid unit for forest fire work and I know was highly appreciated by our neighboring towns. The last forest fire we had was in November with the thermometer down to eight above. That seemed like the last straw on the poor old Forest Warden's back. I have come to the conclusion, after careful thought, that our picnickers must stay out of our forests if we expect to have any woods left. The people from the city seem to think our woods are maintained solely for their benefit and amusement. Seventy-five per cent. of all our fires the past year were traced to this source. The question comes now, how to solve the problem. It seems to me that if the wayside property owners would post their land against trespass and would make a few examples of trespassers, it would help mightily. The officer that patrols for fire would be instructed to enforce this law. I have arranged so that suitable parking places to accommodate these picnickers and notices of parking spaces be posted in conjunction with the "No Trespassing" signs. Written permission could be had from property owners so that no serious hardship would be put upon them. I wish to impress upon you, property owners of the town, that the

situation is very serious. And if any of you have a better plan I would be greatly pleased to have it put before me, and will call a meeting of wayside property owners at an early date to discuss this problem.

All the apparatus in the forest fire department is in good condition and the men are quick in responding and very enthusiastic, which is a great help. I have done my best to prevent and protect your property from destruction, but it has gotten to be a big job.

The influx of autoists to this town is at the bottom of our troubles.

Thanking you for your hearty co-operation in the past and asking you for any suggestion that would be of help. I certainly feel the need of help from you all.

Respectfully submitted,

H. E. MERRY,  
Forest Warden.

---

## REPORT OF THE MOTH DEPARTMENT FOR 1924

---

To the Honorable Board of Selectmen:

Gentlemen—I submit the following report of moth work done since last report. Continued creosoting on roadside and private estates until June 9th, it was then time to start spraying the trees, and this work had to be financed by the State Forestry Department, finished up this work and put machines under cover in July. No more work was done in this department until November 1, 1924, when I started creosoting the roadside trees, this was continued until November 30, 1924, and on

January 1, 1925 I started creosoting the roadside trees again, which I am still doing. Conditions all over town look good and I sincerely hope this will continue.

Respectfully submitted,

JOHN D. MORRISON.

Local Superintendent.

---

### TREE WARDEN'S REPORT

---

To the Citizens of Duxbury:—

The work in this department this year consisted of spraying with Lime Sulphur several streets in town where the Maple trees were badly infested with scale, and when the tent caterpillars were hatching I sprayed all the roadsides in town. Work on trees left over from last year on Harrison street and Sunset road was finished and several of the small roadside trees had to be watered to keep them from dying. I also cut down one dead tree on Harrison street, and one on Congress street. I wish to thank the citizens for the enlargement of the appropriation from \$100.00 to \$300.00, but if we are going to look after our trees on the roadsides the town should give this department more money to work with.

Respectfully submitted,

JOHN D. MORRISON,

Tree Warden

## REPORT OF STREET DEPARTMENT 1924

---

To the Honorable Board of Selectmen and Citizens of  
Duxbury:

Gentlemen—During the past year repairs were made on all roads, while in the outlying districts, the work was more extensive owing to the frost penetrating so deeply during the winter, therefore making the cost greater.

The work on Surplus Street and Mayflower Street Extension was completed.

With the appropriations from the State, County and Town of \$5,0000.00 each, there was built approximately a mile and a quarter of asphalt road in Duxbury beginning at the East Pembroke line.

I also wish to say that the Tamden, gasoline roller purchased by the Town has proven a valuable asset to this work.

Respectfully submitted,

EDWARD S. O'NEIL,

Superintendent of Streets.

## REPORT OF FIRE CHIEF

---

To the Honorable Board of Selectmen and Citizens of  
Duxbury, Greeting:

We have had very few house fires the past year, no great damage being done, but have used the larger apparatus to protect buildings at some bad forest fires we had and they worked well. The new Brockway purchased by the town last spring, has been installed at the Number One Engine House. The little Chemical Engine moved from the Number One House to the Number Three and is still doing good work there. At a small cost a sirene has been installed in the belfrey at the Number Two Engine House. It makes a very efficient fire alarm for the neighborhood and I wish to install one similar to it at the Number Three Engine House as it is very important that the men should be promptly notified. We will have to have some new hose this year for replacement. One reason, I think, for the small fire loss sustained by this town, is that the property owners are awake to the fact that prevention is a whole lot better than regrets and no one of us wish to have our homes and property destroyed by fire. I wish to impress upon you and call to your attention again, of the great fire killing virtue of bicarbonate of soda. One pound of this, convenient in the house, would prevent a very disastrous fire. It is inexpensive, efficient and can be used by anyone without fear of damage to anything. Don't forget to get it. It may save your home and you years of vain regrets. I am trying my best to keep your homes safe and I know you are all co-operating with me for which I give you thanks.

Respectfully submitted,

H. E. MERRY,  
Fire Chief.

## REPORT OF TRUSTEES OF DUXBURY FREE LIBRARY

---

To the Selectmen:

The Board of Trustees lost two members during the past year.

Mr. Ralph K. Bearce resigned May 1st, having moved from Duxbury to accept elsewhere a new work in his chosen vocation. Mr. Bearce, as President of the Board, gave of his best to the interests of the library.

Mr. Charles L. Simmons, elected to the Board in February, 1917, died November 9th, 1924. Kindly, courteous, a Christian gentleman, it was a privilege to know him. As a member of the Board of Trustees he was particularly helpful by reason of his training and his knowledge of books. His services will be missed.

Two new members have been elected to the Board of Trustees. Dr. Hollis Godfrey, President of The Engineering-Economics Foundation, and Dr. Hermon C. Bumpus, former President of Tufts College. We are, indeed, fortunate to have the services of these men.

The Library is increasingly used from year to year. There were issued 17,302 books from January 1st to December 31st. Of this number 3,560 were non-fiction, and 2,381 were sent through the basket delivery to sub-stations. The busiest months were July and August when over 4,000 books were given out. The largest daily circulation was on August 14th. On that day 226 books were issued.

Last year the Library was open to the public on 146 days, and on 51 days for work connected with the basket delivery. With very few exceptions the librarian worked at the Library every day in the week.

Magazines and books to the number of 168 have been rebound. Five hundred and forty-five volumes have been added to the Library by purchase and by gift.

RICHARD T. LORING,  
Clerk.

## DAIRY INSPECTION

---

On the first inspection, according to the United States Score Card, with a total of 40 points for Method and 60 for Equipment, 60% of the dairies scored between 50 and 60 points on both method and equipment; 25% were between 60 and 70; 5% were between 70 and 80; there were 10% lower than 50 who secured no permit to produce and sell milk until their score showed over 50. The first inspection was prior to July 1. On the second inspection, 45% showed a score between 50 and 60; 45% were between 60 and 70: and 10% between 70 and 80.

If the Board can see its way clear to do so, there will be left with each producer, a duplicate card and his score. When necessary, a test for dirt will be made in his presence, and if a second test is necessary and shows no improvement, the public will be warned not to buy from this producer. There will be three grades, clean, unclean, and dirty.

Cows' milk is an invaluable article of diet and in the cause of public health its use as food must be maintained. Healthy animals and proper methods are more important than equipment in the production of clean and safe milk.

Very truly yours,

CHARLES W. EATON.

Inspector for the Health Department.

## REPORT OF CEMETERY TRUSTEES

---

To the Honorable Board of Selectmen and Citizens of  
Duxbury:

The season of nineteen twenty-four has been an unusually hard one in the amount of work required to keep up to the standard of former years.

As soon as possible after the Annual March Meeting, the usual work of removing dead wood from the trees was started. Several of the larger trees which had died during the winter were also removed. The customary work of raking and burning the leaves was done in good time considering the high winds which kept them blowing in all directions making the work much more difficult. The avenues were raked over and edged, and Oak Avenue was given a coat of tarvia before Memorial Day. Quite a few shrubs were planted and several flower beds were laid out which proved to be greatly appreciated by our many visitors this past summer.

At the Standish Cemetery the fence was given a coat of paint as also were the gates. A gravel walk was laid out from the main entrance to the Myles Standish Lot. That together with a thorough mowing and raking gave this historic spot a pleasing aspect.

In Ashdod Cemetery the walks were hoed and raked over, the lots mowed and other work done which added much to its general appearance.

The usual fall work of raking the leaves in Mayflower Cemetery was done. The "Perpetual Care" lots were given constant care, the dry season making it necessary to keep them well watered nearly every day. Thirteen new lots, the same number as last year, have been added to the "Perpetual Care" list during 1924. It was our purpose to transfer the Cemetery fence on Mayflower

Street to the Tremont Street front of the new part of the Cemetery this season, but owing to the disastrous wind and rain storm in August, which raised havoc, blowing down thirteen large trees, besides covering the ground with limbs, it was necessary for the Cemetery not only to be wholly raked over again, but trees had to be removed and many were the loads of rubbish which were carted to the Town Dump to be burned. This work we were obliged to do, thus making it impossible for us not only to move the fence, but we were also unable to extend the water pipes to the southwestern part of the Cemetery as we had planned. It is our intention to do this during the coming season. We wish to thank our citizens for their loyal support, and for the interest which they have shown in our work this past year.

We would ask your favorable consideration of \$3,500 for cemeteries for 1925.

Respectfully submitted,

ALBERT M. GOULDING,

Chairman,

JOHN SIMMONS,

Secretary,

WILLIAM J. ALDEN,

HENRY F. WHITE,

MARTIN HANIGAN,

Trustees.

## REPORT OF THE PLAYGROUND COMMITTEE

---

To the Board of Selectmen:—

We submit herewith a report of the work of our Committee the past year.

A new fence has been built on the West line as agrees with the adjoining property owner when the extra land was purchased. A new driveway has been cut through and holes filled near the southwest corner of the lot. New stands were built on the south side of the field, as well as new seats on west side. Band stand was repaired and painted. Two new shower baths installed and new cesspool built.

New giant swing pole and high jump poles.

Tennis court has been laid out and sub-grade is already, it is hoped that this feature can be finished and made available.

Some further improvements suggested are:—

Men's and Women's toilets should be provided.

Water pipe should be buried.

Tennis court should be finished and equipped. Horizontal bars and other features for athletic exercises should be added.

Respectfully submitted,

H. B. BRADLEY,  
PAUL C. PETERSON.

Regular meetings of School Board are held at Town Office Building the first day of each month, 1.30 p. m.

## REPORT OF THE SCHOOL COMMITTEE

---

To the Citizens of Duxbury:

The report of the School Committee is herewith submitted.

The report of the Committee must necessarily be very similar to reports of the past years as the housing conditions remain comparatively the same.

The High School is still in a congested condition but the Committee tried to overcome the difficulty by erecting a movable partition in the upper hall but it was not a decided success, although it has enabled us to meet the requirements of the State Board relative to the fifth teacher. A majority of the Committee are ready to endorse and support the plan presented last year for a Junior-Senior High School Building and hope it will prevail.

Two of our High School teachers declined to accept re-election and we did not feel justified in placing the principal on tenure. We are permitted to quote from a letter written by Professor Frank W. Nicolson, Secretary of the New England Entrance Certificate Board, relative to withdrawal of the certifying privilege from our High School. He writes:

"I have received your letter regarding the relation of the Duxbury High School with the Certificate Board. I understand that the Duxbury High School is the same as the Partridge Academy. The school was given the specimen certificate privilege in 1921, and held it until 1924, when it was withdrawn because of the record of the students to the colleges on the Board were poor. The principal was so notified last April.

There is no way that I can see for the privilege to be restored to the school within the next few years unless there is a change of principal and the new man is one

who has had dealings with the Board and is familiar with their requirements so that we can trust him not to certify students who are poorly prepared."

The present corp of teachers deserves high commendation for their conscientious work and determination to surmount all handicaps and obtain good results, regardless of unavoidable circumstances. There were two changes in the lower grades. Miss Lovell having resigned her position in Ashdod, Miss Marianne Coughlin was engaged to fill the vacancy.

Miss Lucy Hill resigned from Tarkiln Grammar School and Miss Florence Monks was engaged to fill the position. All other positions were retained by our long experienced and faithful teachers.

The buildings are now in a very good repair except one or two which will need a coat of paint.

The High School Building was thoroughly cleaned from upper hall to basement including all closets, desks, chairs, and oiling all floors; the main room was painted and a telephone installed and the comments were not few on the great improvement made.

All buildings were thoroughly cleaned and the usual routine work completed.

All transportation routes are now equipped with comfortable "auto busses", as far as comfort extends in transportation.

The school appropriation seems to increase with coming years, but if we look backward for a few years we can see greater demands from the State Board and also greater improvements in our schools.

It is gratifying to know that many teachers have expressed this appreciation of supplies furnished by the Town of Duxbury, and in turn, the Committee will say that our teachers have been economical in their use and tried to inculcate principles of economy in our children.

Your Committee have tried to expend the appropriation judiciously and we wish to thank the citizens of the town for their generosity in school appropriations.

We shall require an appropriation of \$38,000 for next year.

John Simmons, Chairman  
Elizabeth A. Philips, Secretary  
Alpheus H. Walker

---

## REPORT OF THE SUPERINTENDENT

---

To the School Committee:

I present, herewith, a statement covering the operation of the schools of Duxbury during the year 1924, as required by statute and custom, together with such reports as have been presented by principals and supervisors.

In accordance with a policy unanimously approved early in the year, we have quietly made the best of a distressing situation and tried to so administer the schools, with the facilities afforded, as to secure the greatest possible efficiency. In organization and number of schools there has been no change. Except at the High School, there have been but two changes in teachers. Three teachers, each for a different reason, left the High School during the summer, and the plea for an additional instructor there was approved. It thus became necessary to secure almost an entirely new corps of teachers for the High School. To say that we are pleased with our selections is to speak reservedly. A most gratifying change in spirit and industry has taken place in the School. The manner in which the teachers have attacked the problems arising from inadequate building, and have risen above justifiable discouragement is most heartening. Teachers meetings have been held frequently and a united drive made for securing more satisfactory scholarship. The problems as the teachers of the High

School see them are set forth clearly and candidly in the report of the Principal which I take pleasure in presenting herewith.

Conditions at the several grade schools do not differ materially from those of a year ago. There is an "ebb and flow" of school population, which it is hard to predict, and which lessens the effectiveness of the schools. Until such time as public sentiment has crystallized and united on some workable plan, there is little possibility of changing either the extent or the quality of grade work. Suggestions looking toward such improvement have been given repeatedly in previous years and I shall not repeat them at this time.

There are, however, a few convictions which I do wish to express. There are in the schools of Duxbury some very promising children with whom it is a pleasure to work. In spite of limited opportunity they make a very creditable showing in scholarship, as shown by reports received concerning children transferred to other towns and by comparison with those transferred into our schools. Under equivalent conditions I should expect the young people of Duxbury to take very high scholastic standing.

Duxbury teachers are good workers and appreciative of their responsibilities which they are discharging with commendable faithfulness. I have always found them receptive of criticism, and responsive to every suggestion.

I most heartily endorse the stand taken by Principal Green and his staff, that the High School is a place for business and not a lounging room for the unemployed, and believe it is right to demand that those who will not work shall withdraw. Let it be understood by all that evidence of a definite ability must be shown to secure a credit. The school has not hitherto insisted on a year's work for a year's credit.

I believe that the introduction of a course in Appreciation of Music at the High School is timely and also that

the study of music in the High School should be elective, with periods enough to make it possible to secure a more thorough training in music than is now possible.

A more comprehensive course in Art, with instruction in the appreciation of beauty as well as in the acquisition of technique, seems to me to be most desirable. The primary grades have no manual or construction work in this field under the present arrangement.

I wish to acknowledge personal appreciation of your devotion as a committee to the difficult tasks you have faced during the year and congratulate you on the success achieved, a success daily becoming more apparent.

Respectfully submitted,

FREDERICK E. BRAGDON,  
Superintendent.

---

## REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL

---

To the Superintendent of Schools:

I wish that this report might be in the nature of a prophecy rather than a record of our accomplishments in the past.

When school opened in September, there remained on the faculty, at the Academy, only one teacher who was acquainted with the school or with the town. Therefore, considerable time, of the present school year, was spent in making such readjustments as naturally follow the inauguration of a new administration. I believe, however, that we have struck our strides and the results of our efforts will be noticeable during the last half of the year.

An honor group has been organized, including all pupils who attain an average mark of B2, or better, during any given month. A pupil is a member of this group for one month, following the month during which the proper grade was made. Each member wears a suitable pin

which must be returned when, because of poor mark, the wearer's name is taken from the honor group. At the end of the first month after this plan was started, eight pins were given out. At present, (the end of the third month) there are thirteen holders of the honor, showing that it is having a good wholesome influence on the attitude of the pupils in the school. This year, Mrs. Phillips is giving us an extra period of her time each week and a class in Music Appreciation is meeting regularly with her. There are twenty enrolled in this course. Military exercises and calisthenics were started in September and have been held daily ever since. Much interest was shown in an interclass track meet which was run off in the fall, and games of volley ball and basketball have been played regularly between the squads of the military company. At present, a basketball league is being organized among several schools of Plymouth County. If playing space is available we expect to have a team, representing Duxbury, in this league.

Of the twelve members of last year's graduation class, two are in college, one is at normal school, one training to become a nurse and four are studying at various preparatory schools in anticipation of entering institutions of higher learning next fall. Thus we are faced with the fact that seventy-five per cent of the boys and girls who are graduated from our schools go on. We are not a unit in ourselves but only a connecting link. As a connecting link, our course of study must be long and broad enough to meet with the rest of the chain, in order that the pathway from primary school to college may be a continuous thoroughfare with no abrupt breaks or threatening precipices as the pupil passes from one institution to another. In other words, our requirements and standards in high school must be governed somewhat by the requirements of higher institutions to which our boys and girls will go. We must fit them for college.

New equipment has been purchased for the Science

Department, so that now there is ample material on hand for a course in either Chemistry, Physics, or General Science. An oil stove was recently acquired and we expect soon to have classes in Home Economics preparing some hot dish for our daily luncheon period. This work must be carried on in a small way, at present, because of inadequate room. A course in Mechanical Drawing is planned for Freshmen boys during the last half year and such instruction in Woodworking and Carpentry will be undertaken, as the cramped conditions of our present environment will allow.

I think it is an undisputed fact that the limitations of the Academy building, as it is at present laid out, are inadequate for the needs of a well-organized high school in a town the size of Duxbury. I dare say there is not a factory in use in this county, or even in the state, which is as old and has received so little attention in regard to keeping its internal organization and equipment abreast of the time. It is imperative that we, of the older generation, think of the children of the present. They are the ones who suffer from our personal prejudices of inaction. The schools are for them and their welfare should be our first consideration in determining a policy. Whether it be a renovation of the old building, or the construction of one entirely new, a common ground for discussion should be found and an honest, openminded course pursued, so that the pupils of Duxbury may enjoy the birthright of every American child and receive a high school education equivalent to that of any town in the state. There is progress in the field of education as well as in the industrial world. We surely would not try to teach a boy to become a weaver in a modern factory by starting him on an old-fashioned hand loom. Why not be consistent in his education along other lines,

No report would be complete without mention of the teachers—those untiring workers whose loyalty and co-operation has made progress possible. I am unusually fortunate this year in having assistants who work to-

gether like the members of a well-organized football team. They tackle every task with a smile and before they quit, carry it through to completion. Their motto seems to be, "To Help," and they are on the job as long as there is anyone to be helped. I commend them for their sympathy, loyalty, and industry.

Respectfully submitted,

GEORGE E. GREEN,

Principal of the High School.

---

## REPORT OF THE SUPERVISOR OF MUSIC

---

To the committee and superintendent of Duxbury Schools:

I am glad to report the music department in good running order. The necessity for placing the fourth grade in Tarkiln Intermediate School has added difficulty to my task of keeping uniformity of instruction for all grades of the same rank throughout the town, especially as the fourth grade belongs, musically speaking, with the younger children, but we are doing our best under conditions assigned us.

Music at the High School is entering into its own, and becoming a real part of the school life. We are handicapped by crowded quarters for the chorus, rickety benches, and unspeakably worn-out piano, but for all that I believe the time and effort spent for chorus music is worth while, if only for the community and school spirit fostered thereby.

The new plan of an occasional program of entertainment given by each class in turn has been a spur to musical interest. We have been extremely fortunate the last four years in having members of our High School faculty who can and will take an active part in our music;

their interest and enthusiasm have added materially to our moral support.

The experiment of a course in music appreciation—music background might describe it better—was elected by a class of about twenty. More would have joined but for conflicting classes. Some no doubt, were actuated by curiosity as to the nature of the new course and soon dropped out, but the majority are still with us, and if only a few trustees remain to finish the year's work, it will have been worth while to give it in order to round out their eight or ten years of technical and theoretical instruction in music.

We are much indebted to the Village Grammar School for the use of their phonograph, and I have double use of the records bought, by carrying them down there occasionally and playing them for the four assembled grades, with very little comment, hoping thus to whet their appetites for more later on. A course in appreciation would be easier to give with a Victrola, as the Victor people have made a specialty of records suited to such work, and next year we are hoping to have one in our High School.

All our graduations last June went off smoothly. The suggestion that the two Grammar School programs be combined was made too late to be practical, but this year, if considered desirable, it could be done, and I should be glad to further the idea to the best of my ability.

Parents of the little children seem to like the somewhat fantastic musical programs, which I have arranged the past two years for closing day, and the little folks get them ready with great enthusiasm. For them, I believe it best to have the exercises in their own schools, as they are easily frightened by strange surroundings, and many mothers can come there who would not be able to get to a central location.

Last spring the Village Grammar School put an entertainment for the benefit of their cocoa fund and small miscellaneous needs. It was designed primarily for

amusement, and was not in the nature of school work, nor did it consist entirely of music, but the program contained some musical numbers, and I wish to mention it because the young performers were such a credit to their teachers.

We understood that there was a popular demand for a musical social again this year in Island Creek Hall, and we had made our plans to hold one, but had to give them up on account of the epidemic which closed our west-end schools.

Teachers and pupils all seem to be working together harmoniously on the whole, a condition much to be desired. I thank them all for their courtesy and interest.

Respectfully submitted,

REBECCA PHILLIPS

Supervisor of Music, Duxbury, Mass.

---

## REPORT OF THE SCHOOL NURSE

---

To the Superintendent and School Board of Duxbury:

I have made the usual visits to the homes of school children and to school sessions during the school year and continued the home and follow up visits during the vacation period. A class of eighteen girls in the High School passed the examination in Home Hygiene and Care of the Sick, and received their certificates from the American Red Cross.

There have been many cases of Measles and Chicken Pox which will be noted in the report of the Health Department.

I have received assistance from the Duxbury Nurse Association and the Red Cross in carrying out the health work for the schools. The Nurse Association paid (from a special fund) for the removal of tonsils, that were diseased, from several children. They also reimbursed

me for transportation of a child to the Union Training School for Boys. The Red Cross has assisted by giving clothing, health posters, and the cards and stars used in the primary and grammar schools. The Red Cross completely clothed one pupil who was transferred to the Plymouth County Hospital at South Hanson.

As there has been no discount for school children this year at the School Dentist's office, the children have been going to their different family dentists, and I have been unable to keep an accurate list of those treated. I am sure there were many.

I have made visits as follows:

To homes of school children	1,007
To school sessions	398
	<hr/>
	1,405

Respectfully submitted,  
ANNIE L. WILLIAMS,  
School Nurse.

Keeper of Almshouse and Pound—Herbert Packard, Benjamin G. Chase.

Superintendent of Streets—Edward S. O'Neil.

Town Physicians—Nathaniel K. Noyes, M. D., Roger Spalding, M. D.

## Report of the Selectmen

---

To the Citizens of Duxbury:

Your board of Selectmen make the following report:

Agreeable to the vote of the town at the last annual meeting. The road on Union and Congress Streets has been constructed in connection with the State and County, and accepted by both. The expense of construction being \$15,000 divided equally between State, County and Town.

We will ask for an appropriation at the March meeting to extend the construction as far as possible with the wish to reach the State Road at Millbrook corner.

School street was completed from Elm Street to Tremont Street at Island Creek Post Office at an expense of \$6,863.37 Alden Avenue and the small section of road at the triangle at Millbrook Corner have been laid out and will be ready for the action of the voters at the annual meeting.

We were unable to obtain a truck from the State Dept. this winter for removing snow. We were fortunate to be able to hire a five-ton Mack truck from Powers Bros. of Brockton to which we attached the State's plough. By this method we feel we can keep the streets passable.

The financial statement of the various departments will be found on the following pages.

Respectfully submitted,

SIDNEY C. SOULE  
WENDELL PHILLIPS  
ALFRED E. GREEN

Selectmen of Duxbury.

# Report of the Town Accountant

---

Following is a statement of all receipts and expenditures of the Town of Duxbury for the financial year ending December 31, 1925 in accordance with Chapter 41, Section 61, General Laws:

## THE COMMONWEALTH OF MASSACHUSETTS

Department of Corporations and Taxation

Division of Accounts

State House, Boston

February 25, 1925.

To the Board of Selectmen,  
Mr. Sidney C. Soule, Chairman,  
Duxbury, Massachusetts.

Gentlemen :

I submit herewith my report of an audit of the accounts of the town of Duxbury for the financial year ending December 31, 1924, made in accordance with the provisions of Section 35, Chapter 44 of the General Laws. This report is in the form of a report made to me by Mr. Edward H. Fenton, Chief Examiner of this Division, who was placed in charge of the work.

Very truly yours,

THEODORE N. WADDELL,

*Director of Accounts.*

Mr. Theodore N. Waddell,  
Director of Accounts,  
Department of Corporations and Taxation,  
State House, Boston.

Sir :

In accordance with your instructions, I have made an audit of the books and accounts of the town of Duxbury for the financial year ending December 31, 1924, and submit the following report thereon :

The financial transactions of the town as recorded on the books of the several departments, were checked and compared with the books and records in the Selectmen's office.

The books and accounts in the selectmen's office were examined and checked. The recorded receipts were checked to the treasurer's books and to the original sources from which money was paid into the treasury, and the disbursements were checked with the warrants authorizing the treasurer to make payments and with the treasurer's books.

The appropriation accounts were checked with the town clerk's records of appropriations voted by the town. An analysis of the ledger was made and a balance sheet was prepared showing the financial condition of the town December 31, 1924.

The accounts of the treasurer and collector of taxes were examined and checked. The treasurer's cash book was proved and checked to the records in the selectmen's office, and the cash on hand was verified by an actual count, the bank accounts being reconciled with statements received from the banks.

The books of the tax collector were examined and checked. The commitments were proved to the warrants, the collections were checked to the commitment book, the abatements were checked with the assessors' record of abatements granted, and the outstanding accounts were listed and proved to the accounts in the selectmen's ledger. Verification notices were mailed to a number of persons whose names appeared on the books as owing money to the town, and from the replies received I am satisfied that the accounts are correct.

The surety bonds furnished by the officials for the faithful performance of their duties were examined and found to be in proper form.

The accounts of the several trust funds in the custody of the town treasurer were examined and checked, the income being verified and found to be as reported on the treasurer's and selectmen's books. The securities, as represented by sav-

ings bank deposits, were examined and found to be as recorded on the books.

Tables showing a reconciliation of the treasurer's cash, summaries of the tax and assessment accounts, together with a balance sheet, are appended to this report.

For the courtesies extended by the various town officials during the process of the audit, I wish on behalf of my assistants and myself, to express appreciation.

Respectfully submitted,

EDW. H. FENTON,  
*Chief Examiner.*

## Town Meetings

---

### ANNUAL TOWN MEETING—MARCH 7, 1925

Voted, unanimously, that the reading of the warrant be waived.

Voted, unanimously, that the Town Clerk deposit a ballot for Henry P. Moulton for Moderator.

Voted, that at 12 o'clock an intermission of 30 minutes be taken.

Herbert Packard, Harry A. McNaught and Robert I. Tower were appointed Tellers and sworn by the Town Clerk.

Voted, that the Selectmen appoint the necessary officers not chosen by ballot.

The Committee appointed in March, 1924, to investigate the condition of Bluefish River Bridge made a report and it was voted that that committee, Edward S. O'Neil, Wendell Phillips and John K. Parker, be continued.

A report of the Committee, Hortense E. Merry, Frederick B. Knapp, and Sidney C. Soule, appointed March 1, 1924 in relation to the Town Dump, as made by Mr. Soule, was accepted.

All other reports of Town Officers and Committees were accepted as printed in the Town Report.

Voted, to raise and appropriate for:

Resurfacing Chestnut, Toby Garden and Elm Streets, loan of 1920	\$6,000.00
Resurfacing Harrison Street, loan of 1923	3,000.00
Resurfacing Surplus Street, loan of 1924	3,000.00
Voted, to appropriate	970.33

this being the amount received from the State under Chapter 480, Acts of 1924, and in connec-

tion therewith, voted, to raise and appropriate 29.67  
for the payment of Union and Congress Street  
loan of \$1,000 due in 1925.

Voted to raise and appropriate for:

Interest	4,500.00
Repairs of Gurnet Bridge, 1924	1,491.36
Gypsy and Browntail Moth	1,767.68
State, County and Highway Taxes, estimated	21,000.00
Plymouth County Hospital, maintenance, 1924	1,352.66
Cemeteries	3,500.00
Support of Schools	38,000.00
Forest Warden	1,100.00
Fire Protection	1,000.00
Tree Warden	100.00
Snow Removal	2,000.00
Health Department	2,000.00
Vital Statistics	50.00
Animal Inspection Department	150.00
Department of Inspection of Slaughtered Animals	150.00
Charities	6,500.00
Soldiers' and Sailors' Aid	200.00
Town Physicians	400.00
Selectmen's Department	1,400.00
Election and Registration Department	400.00
Treasurer's Department	1,000.00
Tax Collector's Department	1,000.00
Assessors' Department	1,200.00
Town Clerk's Department	450.00
Law Department	300.00
Town Hall and Office Department	1,300.00
Clerk. (Selectmen, Assessors and Overseers of Poor)	800.00
Police Department	1,500.00
Department of Sealer of Weights and Measures	200.00
Bounties on Hawks, Crows and Seals	100.00
Town Dump	250.00
Unclassified Department	1,300.00

Highways, Bridges and Sidewalks (unanimous) 18,000.00  
 and voted, that \$1,200 of this amount be used on  
 Sidewalks and \$200 of the \$1200 be used for  
 grading and keeping in repair the sidewalk  
 on Washington Street from Partridge Road  
 to Hall's Corner.

Town Landings	300.00
Street Lighting	2,100.00
American Legion, Post No. 223	100.00

Voted, to raise and appropriate the sum of \$350 to be  
 expended under the direction of William Wadsworth Post  
 No. 165, G. A. R., for the observance of Memorial Day.

Voted, to raise and appropriate \$4,000 for the payment  
 of architect fees in relation to Junior-Senior High School, 101  
 voting in the affirmative and 65 in the negative.

Voted, that the Treasurer, with the approval of the  
 Selectmen, be authorized to borrow money from time to time  
 in anticipation of revenue for the financial year, beginning  
 January 1, 1926, and to issue a note or notes therefor, pay-  
 able within one year, any debt or debts incurred under this  
 vote to be paid from the revenue of said financial year.

Voted, to raise and appropriate the sum of \$1,000 for the  
 Duxbury Free Library.

Voted to raise and appropriate for the use of the Ply-  
 mouth County Trustees for County Aid to Agriculture a sum  
 not exceeding \$200 and choose a Town Director as provided  
 in Sections 41 and 45 of Revised Chapter 128 of the General  
 Laws and voted, that the present incumbent, Theodore W.  
 Glover, Jr., be continued.

Voted, that the sum of \$9,000 from the Excess and De-  
 ficiency Account be used by the Assessors in making the tax  
 rate.

Voted, to raise and appropriate the sum of \$5,000 for the  
 purpose of resurfacing with sand asphalt Union and Con-  
 gress streets, said sun to be used in conjunction with a like  
 sum allotted by the State and County, and that to meet said  
 appropriation there be raised in the levy of the current year

the sum of \$1,000, and that the treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow a sum not to exceed \$4,000, and to issue bonds or notes of the Town therefor, said bonds or notes to be payable in accordance with the provisions of Section 19 of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than five years from the date of issue of the first bond or note.

One hundred forty-eight (148) voted in favor and none (0) against. More than two-thirds having voted in favor, the motion was carried and was so declared by the Moderator.

Voted, to resurface with sand asphalt the highway from the junction of Powder Point Avenue and King Caesar Road to the Gurnet Bridge, this expenditure to be taken from the regular highway appropriation. Voted, to raise and appropriate the sum of \$1,500 to gravel and oil Crescent Street.

Voted, that the matter of pay for the use of Motor Trucks on Town work be left in the hands of the Selectmen.

Voted, to instruct the Board of Selectmen and the heads of all departments that preference must be given to citizens of Duxbury on all Town work.

It appearing that one not a registered voter had voted on the above question, Charles S. Clark requested the Clerk to make a record that he challenged this and every vote cast in the meeting today. The Moderator ruled that confidence should be placed in the Tellers, who knew who were voters and who were not voters, and who stated that the vote of the one referred to was not counted.

Voted, unanimously, that the Selectmen lay out a highway from St. George Street to Tremont Street, between the Millbrook Triangle, so-called, and the land of Percy L. Walker.

Voted, to build a sand or gravel asphalt road from Elm Street through School Street to Oak Street, and Oak Street from School Street to Tremont Street, and that there be raised in the levy of the current year the sum of \$1,000 and that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow a sum not to exceed \$7,000,

and to issue bonds or notes of the Town therefor, said bonds or notes to be payable in accordance with the provisions of Section 19 of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than five years from the date of issue of the first bond or note. One hundred and sixty-four (164) voted in favor and none (0) against. More than two-thirds having voted in favor the motion was carried and was so declared by the Moderator.

Voted, to discontinue Modoc Street.

Voted, not to discontinue that portion of Oak Street leading from School Street to Elm Street.

Voted, unanimously, to raise and appropriate \$300 to be spent on Gurnet Road.

Voted, to raise and appropriate the sum of \$2,000 for the improvement of Train Field Playground, and that the charge of the Field and the expenditure of the money be placed in the hands of a Supervisor or Commission appointed by the Selectmen.

Voted, to indefinitely postpone Article 23, which reads, "Will the Town vote to raise and appropriate \$500 for the setting out and taking care of trees, under the Tree Warden?"

Voted, that the Selectmen lay out Alden Avenue, so-called, from Bay Road to White Street, so-called, a distance of about 300 feet, and consider a name for such street.

Voted, to raise and appropriate the sum of \$1,000 to be a fund for the purpose of beautifying and improving the grounds around the Memorial Tablet situated in Boomer Square. This fund to be held by the Town of Duxbury and to be available to Duxbury Post No. 223, American Legion, which will have full charge of and supervise the work.

Voted, to withdraw from the School Superintendency Union and instruct the School committee to proceed forthwith to take all necessary steps to accomplish this purpose.

Voted, to authorize the Selectmen to appoint a Town Accountant.

Voted, to abolish the office of Auditor.

Voted, to indefinitely postpone Article 29, which reads:

“Will the Town vote to pay the Duxbury Fire and Water District \$15 each for Hydrant rental, and raise and appropriate the sum of \$2595 for same?”

Voted, to apply the dividend from the Plymouth County Dog Fund to the Support of Schools.

Voted, unanimously, to raise and appropriate the sum of \$2,000 to procure plans, specifications and estimates of cost of a school building or buildings, and that the Moderator, within one week, appoint a Committee of Fifteen, including the School Committee, to make a survey of the school situation as regards housing and building sites and report, with recommendations, at a future town meeting.

Voted, that the Moderator appoint a Committee of Five to consider the matter of a Zoning By-Law and voted to raise and appropriate the sum of \$300 to pay the expenses of such Committee, said Committee to make a report, with its recommendations, at a future town meeting.

Voted, to create a Planning Board in accordance with Chapter 41, Sections 70 and 72, inclusive, of the General Laws, said Board to be chosen at the regular Town Meeting of March, 1926, and to consist of five members,—one elected for five years, one elected for four years, one elected for three years, one elected for two years and one elected for one year, and thereafter one member to be elected annually for a term of five years.

Voted, not to move the flag-pole at Hall's Corner to a point near the watering trough, and voted that the Selectmen be requested to investigate and report at the next annual Town Meeting as to securing greater safety at Hall's Corner.

Voted, not to remove the watering trough near the Cable Office.

Voted, that the thanks of the Meeting be extended to the Moderator for his extreme patience and courtesy in his conduct of this meeting and that the sum of \$25 be paid to him for his services.

Voted, to adjourn.

GEORGE H. STEARNS,  
*Town Clerk.*

To make a survey of the School situation the following Committee of Fifteen was appointed:

Alpheus H. Walker  
John Simmons  
Mrs. Wendell Phillips  
Mrs. Charles Bittinger  
Harry B. Bradley  
Franklin Brett  
Hermon C. Bumpus  
Charles S. Clark  
George B. Cushing  
Benjamin F. Goodrich  
Hortense E. Merry  
Edward S. O'Neil  
Mrs. Josephine H. Shaw  
Harry F. Swift  
Percy L. Walker

A letter dated March 17, 1925 was addressed to the Town Clerk as follows:

“Dear Sir: :

I am in receipt of a notice under date of March 14th, that I have been appointed on a Committee authorized by the Annual Town Meeting, ‘To bring in a report with their recommendation on the Duxbury High School situation.’

I beg to notify you that I decline to serve on this Committee and wish it to be so noted in the Town Records.

Respectfully yours,  
HARRY B. BRADLEY.”

Following the above letter, the Moderator appointed Mr. Theodore W. Glover, Jr., to fill the vacancy caused by Mr. Bradley's withdrawal.

To consider the matter of Zoning By-Law the Moderator appointed the following Committee of Five:

Percy L. Walker  
 Franklin Brett  
 Hermon C. Bumpus  
 Charles S. Clark  
 Mrs. Josephine H. Shaw

GEORGE H. STEARNS,  
*Town Clerk.*

### ELECTION OF OFFICERS, MARCH 14, 1925

The polls were opened at 7 o'clock A. M.

At 1 o'clock the ballot-box registered 399. It was voted that the polls be left open until 2 o'clock, and the polls were closed at 2 o'clock.

The register on the ballot-box indicated 405 and 405 ballots were counted out.

Following is a result of the balloting for Town Officers:

For Selectmen for one year:

Alfred E. Green	342 votes
Wendell Phillips	349 votes
Sidney C. Soule	362 votes
Scattering	1 vote

Scattering	6 votes
Blanks	252

## For School Committee for three years :

Elizabeth S. Peterson	157 votes
Elizabeth A. Phillips	241 votes
Scattering	1 vote
Blanks	411

## School Committee for one year :

Alpheus H. Walker	312 votes
Scattering	4 votes
Blanks	89

## For Board of Health for three years :

George E. Belknap	210 votes
Paul C. Peterson	147 votes
Scattering	1 vote
Blanks	452

## For Cemetery Trustee for five years :

Theodore W. Glover	338 votes
Scattering	1 vote
Blanks	66

## For Tree Warden for one year :

John D. Morrison	341 votes
Blanks	64

Voted, to adjourn.

GEORGE H. STEARNS,  
*Town Clerk.*

## SPECIAL TOWN MEETING, DECEMBER 12, 1925

In the absence of the Town Clerk the meeting was called to order and the warrant was read by the Chairman of the Selectmen, Sidney C. Soule.

Chose, Alfred E. Green as Moderator.

Chose Elizabeth A. Phillips to act as Clerk Pro Tem.

Voted, that the Town appropriate from the Excess and Deficiency Account the sum of \$1,500 for Charity purposes. Six in favor, one against.

Voted, that the Town appropriate from the Excess and Deficiency Account the sum of \$150, for Forest Warden.

Voted, that the Town appropriate from the Excess and Deficiency Account the sum of \$25, for Bounties.

Voted, to adjourn.

ELIZABETH A. PHILLIPS,

*Clerk Pro Tem.*

Respectfully submitted,

SIDNEY C. SOULE,  
 WENDELL PHILLIPS  
 ALFRED E. GREEN

*Assessors of Duxbury.*

## REPORT OF OVERSEERS OF THE POOR

Your Board of Overseers make the following report:

The expense of the department has been much larger the past year than usual. We were obliged to make extensive improvements in the Almshouse. The building has been newly papered and painted from top to bottom. One new bath room added on the second floor, and new bath room fixtures on the lower floor, new windows in dining room, and quite an amount of bedding and household requirements furnished. There are some repairs needed on the stable that will be attended to this spring.

There are six inmates at the present time with an average of five for the year. We have from time to time outside cases to aid within the limits of the town for which we are temporarily liable, and for which we should be reimbursed by other cities and towns. Therefore it is hard to estimate with any degree of accuracy the amount required to run the department. The expense the past year will be found under the financial report.

Respectfully submitted,

SIDNEY C. SOULE  
WENDELL PHILLIPS  
ALFRED E. GREEN

*Overseers of the Poor.*

## TOWN DUMP

To the Honorable Board of Selectmen and Citizens of  
Duxbury :

Greetings :

I feel that it is necessary to the vote of the town to report to you of the workings of the public dump on Mayflower Street. The dump has been a fire hazard and disreputable looking place for some years. I was appointed by the selectmen to correct abuses and regulate the use of that interesting spot. I have endeavored to reduce the fire hazard there and keep it looking respectable, but it is a herculean job with small funds and lack of interest by the users of the dump. There has been very little sunshine in this job. I have endeavored to adjust things there so that it will be easy and convenient to get rid of rubbish and I most humbly beg of you when using it to use sense and courtesy, in other words apply the Golden Rule and the town of Duxbury will have a beauty spot instead of a disgusting spectacle. ♦

Respectfully submitted,

H. E. MERRY.

## REPORT OF FIRE CHIEF

To the Honorable Board of Selectmen and Citizens of  
Duxbury :

Greetings :

We have been very fortunate this year in regard to building fires. A number of small chimney fires, three large fires, two buildings were practically destroyed before discovered, the other which was of incendiary origin was saved and the state police are now conducting a rigid investigation that I sincerely hope will bear fruit. The apparatus is in good condition. I have had two sirens installed; one at the number two, one at the number three engine house with a clock device attached which makes a very satisfactory fire alarm.

A system of covering in between adjoining towns and this town has been worked out which gives this town ample security. Co-operation between towns is very essential. Some system of drilling will be worked out in the near future and brought before the town meeting for your approval.

Respectfully submitted,

H. E. MERRY, *Chief.*

## REPORT OF FOREST FIRE WARDEN

To the Honorable Board of Selectmen and Citizens of  
Duxbury :

Greetings :

I am about to report to you a record for<sup>a</sup> forest fires. I have tried each year since in office for a similar report but did not obtain it. Namely: no forest fires. A number of small grass fires but not a dollar's worth of property destroyed as far as I know. That is due to various reasons. The care in which our citizens handle their permit fires, the patrol on the streets Sundays and holidays, the prompt response of the firemen and the splendid co-operation with our telephone exchange which I consider the most important of any branch of our co-operation plan. I cannot speak too highly of the intelligent service we get from that source. This town assisted other towns in a number of serious fires this past year and by so doing added laurels to the name of Duxbury as the firemen were very highly commended for their splendid work in each and every instance. Again I urge upon you to post your wayside property with "No trespass" signs. They can be procured from me as I have them at my office. That gives the patrol a right to so protect you. Ninety per cent of our fires are from the picnic source and I earnestly ask you to help me in your so doing. Again thanking you for your splendid help and co-operation in all branches of this service.

Respectfully submitted

H. E. MERRY,  
*Forest Warden.*

## REPORT OF MOTH DEPARTMENT

To the Honorable Board of Selectmen.

Gentlemen:

I submit the following report of moth work since last report. Continued creosoting on roadsides until May 29. It was then time to start spraying trees. Finished up this work and put machines under cover the last of June. Work was again started Sept. 21, creosoting the roadside trees which I am still doing. Conditions all over town so far are not very bad. Most of the roadsides in the northern and western parts of the town have been creosoted. And I have treated to date 12,800 egg clusters.

Respectfully submitted

JOHN D. MORRISON,  
*Local Superintendent.*

---

## TREE WARDEN'S REPORT

To the Citizens of Duxbury:

The work in this department this year consisted of watering and mulching some sick trees and cutting out dead limbs. The maple trees that were sprayed with Lime Sulphur last year looked well this year. It seems a shame in a town like Duxbury with all the good shade trees we have and no money to give them the proper care and the way some of the trees have been abused by some jazz tree trimmer cutting limbs off with an axe.

Respectfully submitted,

JOHN D. MORRISON,  
*Tree Warden.*

## REPORT OF ZONING COMMITTEE

February 3, 1926

To the Citizens of Duxbury:

The Committee on Zoning have prepared a by-law pursuant to the action of the meeting of March 7, 1925, a copy of which by-law was mailed to the home of each voter last August. Additional copies may be obtained at the home of the chairman of this Committee. This by-law was drafted after a great deal of study and investigation. It is proposed to bring up the question of adoption of this by-law, (as originally written) at the annual meeting in March, 1926.

It is hoped that the by-law will be adopted. If the by-law is not adopted, it is hoped that provision will be made for continuing the work with the idea of getting a modification agreeable to all parts of the town. The committee believe that Duxbury cannot afford to delay taking some action, before it is too late, to provide some system and order in the development of the community. Such protection will make your property more valuable and make Duxbury a better place to live in. You would probably not notice any curtailment of your liberties whatever.

ZONING COMMITTEE,  
*By Percy L. Walker, Chairman.*

## REPORT OF THE STREET DEPARTMENT

To the Honorable Board of Selectmen and Citizens of  
Duxbury.

Gentlemen :

During the past year more work has been accomplished on the sand roads in addition to the usual repair work, and by having the increase of appropriation we have used oil on some of these roads for the first time and if applied each year and properly treated, will make a good hard surface which will not rut. For instance Alden Street, Crescent Street and Winter Street have had an application for three successive years and show for themselves what can be done in this way. Many of the woods roads have been widened by cutting and burning brush. School Street, Union Street and the approach to Powder Point Bridge were completed.

Some repairs were made on sidewalks throughout the town, but on account of it coming cold so early in the fall we had to shut down the machinery and not do all we intended to do so that a balance of the appropriation is left.

Respectfully submitted,

EDWARD S. O'NEIL,  
*Superintendent of Streets.*

# REPORT OF THE TREASURER OF THE DUXBURY FREE LIBRARY, INC., YEAR 1925

Jan. 1, 1925, balance on hand \$184.08

## Receipts

## REPORT OF TRUSTEES OF DUXBURY FREE LIBRARY

To the Selectmen:

The Duxbury Free Library has continued another year of successful activity. The users of the library increase from time to time. Last year 145 new names were added to the register, making the total number of users 5355 since 1909.

The past year's circulation numbers 18,031 books. Of this number 3,719 were non-fiction. A total of 2,301 books were sent by basket delivery to outlying districts.

The Library has been fortunate in receiving 125 suitable books by gift. Books purchased makes the number of new books for the year 254.

Visitors to the library will have noticed new bookcases in the Reading Room. These cases are the fore-runners of others which will be provided in the near future.

RICHARD T. LORING,  
*Clerk.*

## REPORT OF CEMETERY TRUSTEES

To the Honorable Board of Selectmen and Citizens of  
Duxbury:

Much work has been accomplished in this department during the past year. As soon as possible after the annual appropriation was made we began work on the trees. They were given a thorough trimming and several of the large ones that had died during the winter had to be removed. This work has to be carefully done as one of these large trees could damage hundreds of dollars worth of monuments in a short time. There are several more large ones which will have to be removed this coming season and we feel that more should be set out to replace them, for without these beautiful trees, the cemetery would look barren indeed. The usual work of raking the leaves and rubbish accumulated during the winter was done. The flower-beds were renewed and the cemetery lots mowed and otherwise put in fine shape for Memorial Day. Quite a number of trees have been planted in the south side of Mayflower Cemetery to shade the grass topped lots from the hot summer sun. Trees and shrubs were also planted in the Ashdod Cemetery. The avenues and walks have been kept in shape with clay and coal ashes. Birch avenue was given a covering of stone dust which proved to be a very successful way of keeping it in shape and keeping out the grass and weeds. It is our intention to use more of this material this coming year. A strip of fence from the Soldiers' Monument to the first entrance on Mayflower Street has been removed and placed on the Tremont Street front of the new section of the cemetery. An added expense this year will be the rebuilding of that portion of Mayflower Street now inside the cemetery grounds making it the main avenue. We believe that something should be done regarding the building of a new

Receiving Tomb, for, considering the size of the funeral vaults used at the present time, should we have a closed winter, the one now in use would be altogether inadequate. Twenty-three new lots were built the past year and twelve added to the Perpetual Care list.

Standish, Ashdod and Dingley Cemeteries have been mowed, raked, the trees trimmed and otherwise kept in proper shape. We appreciate greatly the comment of our towns people and also strangers who visit the cemetery, regarding its appearance. Several who travel through the state have said that Mayflower was the finest looking country cemetery that they had seen. To keep it looking so it is necessary for a large amount of work to be done and we feel that the Superintendent and his men should be commended for the results accomplished. That the good work started may go on and the new work carried on toward completion it is necessary to ask for an increase in the appropriation and we would respectfully request that \$4,500.00 be appropriated this year.

Respectfully submitted,

ALBERT M. GOULDING

## SCHOOL CALENDAR

1926

Schools open January 4.

Schools close February 19—Seven weeks.

Schools open March 1.

Schools close April 16—Seven weeks.

Schools open April 26.

Schools close June 18 or 25—Eight or nine weeks.

Schools open September 7.

Schools close December 22—Sixteen weeks.

The statutes require high schools to have one hundred eighty sessions per year.

## HOLIDAYS

May 31, October 12, Thanksgiving Day and the day following.

Regular meetings of School Board are held at Town Office Building the first day of each month, 1.30 p. m.

## REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Duxbury :

The School Committee of Duxbury, with other members of the school organization, respectfully submit their report for the year 1925.

In presenting this report, your Committee wishes to inform the citizens of the town of Duxbury, of the action taken relative to the vote of the town, to withdraw from the Union.

All members of the School Board attended the meeting of the Joint Committee, held at Marshfield high school building on April 27th, 1925, at 8 o'clock P. M.

The question of the withdrawal of the Town of Duxbury from the Union was discussed, and the several Committees then retired for a short time, and privately discussed and voted on the question.

The Committee then assembled, and the reports of the Marshfield and Scituate Committee were read and the result of the ballot is as follows: 4 against—2 in favor.

It requiring two-thirds vote of the committee of the remaining towns to allow a withdrawal of a town from the Union, the motion was not carried.

The past year has been the same uncertain proposition as for many years previous, relative to repairs on our school buildings, and as there was no promising relief in sight, it was thought advisable to do more extensive repairing than years past; therefore our appropriation was none too large to meet expenses.

It may be of interest to our voters to know of our most important repairs.

The lighting of the Point school was quite unsatisfactory in a dark day, so the windows in the east side of the building

were closed, and new windows were cut through the south and west sides, which now give the required amount of lighting space per square foot of floor area. The seats were replaced, leaving a floor space sufficient for indoor exercises during stormy weather. All yearly repairs were made, including some painting which was necessary to preserve the new work. This building should have an exterior coat of paint this coming summer vacation.

Ashdod school buildings were cleaned and painted, also minor repairs attended to. A piano was presented to Miss Marianne Coughlin, teacher of the school, and she is now using it in her school work for the benefit of the children.

The committee does not wish to lose this opportunity of expressing their appreciation of the efforts and good work of our teachers.

The front of the Tarkiln Grammar, Intermediate, and Primary school buildings were painted, as it did not seem advisable to leave that portion of the buildings for a longer time, as they were quite badly weatherworn in places.

The South Duxbury school building had its share of expense, and another year your Committee recommends plowing the playground, and sowing grass seed as it is now very uneven and unsightly, as well as the Millbrook playground.

The Millbrook school building was shingled on one side of the roof, the blinds replaced, and outside of the buildings painted; the interior of all buildings were painted where necessary.

The interior of the Academy was cleaned and painted, a new ceiling was put on the small room, off the main room, more electric lights were installed in the basement, and in other parts of the building where necessary. The old drinking fountain was removed, and a large, double one with a suitable drip pan replaces it. The water supply was insufficient at times, so the water pipes from the street were replaced with larger ones, and it is much more satisfactory, and the supply of water much greater. A new piano (which was

very much needed) was purchased for the school. It is the desire of the committee to paint the Academy buildings during the summer vacation few are probably aware of the cost of thoroughly cleaning the interior of these buildings which must be done every summer vacation, at least.

In 1914 the cost per hour for cleaning the interior of school buildings was 12 1-2c to 20c; every year since then there has been a gradual increase, till at the present time it now costs from 40c to 90c per hour.

The increase of traffic on the roads has caused a greater responsibility on the town for transportation of school children; therefore the increased cost of transportation is largely due to insurance.

Many pages might be written of the improvements and repairs made and needed on our buildings, but it does not seem necessary, as everyone must know that minor repairs cannot be made without incurring quite an expense, at this day.

Your committee recognizes the fact, that it is the citizens' right to know of the expenditures, and we have tried to give all necessary explanations. We have also tried to expend the appropriation entrusted to us, with care.

We wish to thank the voters for their generous appropriation, and think the following amount will be needed for the ensuing year. \$39,700.00 and the dog tax.

JOHN SIMMONS

ELIZABETH A. PHILLIPS

ALPHEUS H. WALKER

## REPORT OF THE SUPERINTENDENT

To the School Committee :

I am transmitting with this the reports required by law and such other formal reports as I have received from the several heads of departments for the year 1925.

There is little or nothing to add to previous reports on the status and achievements of the schools during the year. The statistics show no decided changes in enrollment and the daily attendance has been good. There have been very few cases of non-promotion which fact may be taken to indicate interest on the part of the teacher in each individual pupil.

Comparison of costs for the last two years as shown by the net tax-rate for schools, shows that Duxbury decreased her school tax-rate from \$7.10 per \$1,000 valuation to \$6.35, and at the same time expended this last year for support of schools, \$1,685.40 in excess of the preceding year. This is possible because of the increase in valuation. The comparison also shows that, whereas Duxbury ranks 20th of the 355 towns and cities in the Commonwealth in valuation per pupil enrolled, she ranks 311th in the amount she taxes herself for the support of schools. It may be worth while to take this fact into consideration in connection with the problems of transportation and new buildings.

The school buildings are in good condition with the exception of the toilets at several schools. Much of the abuse of these occurs out of school hours. One remedy for this condition may be in connecting the outbuildings with the school rooms by a lattice or closed walk, and closing all outside entrances. Such action will be in conformity with the most approved practice whenever dry toilets are necessary.

Respectfully submitted,

F. E. BRAGDON,  
*Superintendent.*

January 15, 1926.

## REPORT OF THE PRINCIPAL OF HIGH SCHOOL

To the Superintendent of Schools:

Never have I come to the time of making my annual report with a greater feeling of optimism. I believe there has been progress in every department. The certificate privilege has been returned to us by the New England College Entrance Certificate Board and pupils graduating from this school may now enter any of the colleges of this board without taking the regular entrance examinations. Harvard and Dartmouth both accept our graduates on certificate. We have representatives who entered each of these institutions last fall and are unquestionably making good.

It is not alone in the preparation for college that we have striven for improvement, for we realize that the public school must, in so far as possible, adjust itself to the differences in human nature and consider the great number of boys and girls who are never going to schools of higher learning. In this direction we have reorganized our commercial courses, re-aligning the subjects into a more rigidly fixed grouping, leading to very definite vocational ends. The domestic science courses started last year have been more carefully planned and new equipment has been obtained. These courses, however, cannot be made adequate to the needs and demands of our high school girls until we have both room and teaching force enlarged. All the plans for manual training have had to be abandoned because of lack of proper space.

In the class room the pupils seem to be awakening to the seriousness of this opportunity to prepare for their life work. They work well and show toward their teachers a happy spirit of co-operation, without which our accomplishments would be small. Here I wish to express to you my delight in the fine spirit I have found among the boys and girls of Duxbury, and

extend to the parents of this town my heartiest congratulations for the straightforward, upright attitude of their children. At nearly every town in which our boys have played, either basketball or baseball, the spirit of good sportsmanship of the Duxbury team has been so noticeable that people from the other towns have remarked upon it. Surely this is something in which every loyal citizen can take pride, and we of the older generation should not allow it to die because of our lack of interest in the activities of the school.

The school has received many gifts for which we are deeply grateful. The chief of these is the beautiful silk American flag presented on Armistice Day by the Grange. The Senior Class of 1925 gave us at graduation time, a very valuable set of reference books covering the World War. Not to be outdone, the present Senior Class has bought for the school, the newest edition of the Encyclopedia Britannica. Besides these, the Campfire Girls, always present with a helping hand, have equipped the domestic science department with a fine set of silver.

When school opened in the fall, we came into a building spick and span. Everything had been thoroughly scrubbed; the desks were scraped and varnished; the floors nicely oiled; and the blackboards repainted. Everything had been done to make the old building as pleasant and habitable as possible. These improvements helped both teachers and pupils to forget the congestion and poor arrangements of the building, and spurred us on with a firm resolve to make the best of the situation until the town can provide proper quarters for carrying on a high standard of school work.

No report would be complete without mention of the work of the teachers. With conditions such as exist on the top floor, all but the most earnest workers would be discouraged, yet these teachers have neither complained nor lost enthusiasm. They are, one and all, deserving of the highest

praise not only from me but from every loyal citizen of Duxbury.

Respectfully submitted,

GEORGE E. GREEN,  
*Principal.*

## REPORT OF THE SUPERVISOR OF MUSIC

To the Superintendent of Schools:

There seems to be a growing sentiment in town for instrumental music of some kind, in the High School. This is a good time for me to lay the situation as I see it, before the public.

At a conservative estimate, the pieces for band or orchestra would average about \$25.00. There are few families represented in our High School who would wish to put the money into an instrument, not knowing whether or not the pupil would prove adapted to it or would persevere in learning to play it. Certainly some of the most promising human material we have for such an experiment would be barred by the expense. Vocal music may have its drawbacks, especially at the adolescent stage, but our voices such as they are, were a free gift of nature, and therefore the most universal musical instrument, regardless of price.

In the matter of instruction upon the band or orchestral pieces, the best authorities are agreed that a pupil should be "started right," that is, under a competent teacher. If instruments of much variety are chosen, i. e., string, wood, wind and brass, at least three such teachers would be necessary. Of course they can be hired, but again we are running into money.

We have a third problem in our High School, that of "bus" transportation. In most schools the rehearsals are after school hours, a perfectly satisfactory arrangement if the pupils are within walking distance or are served by trolley line, but here many pupils who are dependent upon the bus would be barred from after-school practice.

After some inquiry I have found that in one town the P. T. A. provided funds for starting an orchestra. In an-

other the Kiwanis Club became interested and raised \$7,000 for a High School band. In another the pupils pay something each week for the use of instruments, and if they decide to keep on the money paid goes toward the purchase price. Teachers are hired at 50 cents per lesson per pupil, to instruct the children in handling the instruments.

I do not believe it possible to launch such a project here unless money to buy or rent the instruments and pay instructors be forthcoming from some source, so that all who wish may have a chance to try without committing themselves to any expense. No doubt those who show talent and perseverance would be enabled to buy their instruments eventually. As for lesson hours and rehearsals, they should be arranged during school hours, so that those living on the outskirts of the town might attend at no more inconvenience than the rest.

We have plenty of pupils who could be instructed in starting such an experiment, and some, no doubt, who would stick to it, if the town wishes to finance it at the start, as we have no private organization capable of or interested in doing so.

Leaving the subject of bands I wish to thank the town and committee in the name of the High School, for our new piano. It was a satisfaction to have it to use at graduation last June, and is a pleasure now at our weekly rehearsals.

With thanks to all who have co-operated with me so pleasantly this past year.

REBECCA F. PHILLIPS,  
*Supervisor of Music.*

## REPORT OF THE SCHOOL NURSE

To the Superintendent of Schools and the School Board  
of Duxbury :

During this past year I have assisted the school physician in examining the school children. I have weighed and measured them twice. Once during the physical examination and once at the opening of the schools. There was an increase in weight and height in all schools; but it was more noticeable in the High School.

My other activities were as follows :

Visits to school sessions	342
Visits to homes of school children	640
Visits to school children in hospitals	6
School children placed in Trade schools	2
School children placed in temporary homes	5

The visits to homes of school children were instructive visits. Of the children placed in temporary homes, three were cared for while the mother was in the hospital and the father was an improper guardian, one was cared for while the mother was in the hospital and the whereabouts of the father unknown. The other boy was cared for until papers were prepared for his entrance to a Trade school.

In all cases the children have been cared for and placed in the Trade School on the request of the parents.

Respectfully submitted,

ANNIE L. WILLIAMS,  
*School Nurse.*

## MAJORITY REPORT

---

February 8, 1926.

To the Citizens of Duxbury:

On March 7, 1925 it was voted unanimously to raise and appropriate the sum of \$2,000 to procure plans, specifications and estimates of cost of a school building or buildings and that the moderator within one week appoint a committee of fifteen members to include the school committee, for the purpose, which committee shall make a survey of the school situation as regards housing and building sites, and report with recommendations at a future town meeting.

The moderator appointed the following: John Simons, Elizabeth A. Phillips, Alpheus H. Walker, School Committee; and the following: Mrs. Charles Bittinger, Harry B. Bradley, Franklin Brett, Dr. H. C. Bumpus, Charles S. Clark, George B. Cushing, Benjamin F. Goodrich, H. E. Merry, Edward S. O'Neil, Mrs. Josephine H. Shaw, Harry F. Swift and Percy L. Walker. Mr. Bradley did not care to serve and Mr. Theodore W. Glover, Jr. was appointed in his place. On December 31, 1925 Mrs. Bittinger resigned from the committee because of her inability to attend the meetings and Mrs. A. E. Raymond was elected in her place.

The committee have held many meetings and consulted with several experts. Reports from some of these experts as embodied herein, namely:

Report of Prof S. F. Browne with advice of Prof. L. O. Cummings, Harvard Graduate, School of Education.

Report of Mr. Carl L. Schrader, State Supervisor of Physical Education.

Report of Prof. C. Emanuel Ekstrom, Graduate School of Education, Brown University.

Report of Mr. A. B. Lord, State Department of Education.

On December 19th, 1925, a two thirds majority of the committee voted to recommend to the Town the construction of a building for the upper eight grades of the Town, thus making it possible for either complete consolidation or the three school system to develop in the future. At present the lower four grades are to be left in the neighborhood schools, with two grades to a room so far as practicable.

The committee find that the High School, more than any other part of the school organization is inadequate in accommodations and housing. Owing to the increased number of subjects taught in the modern High School rather than to any great increase in number of pupils, the present building is too small. At present we have five teachers with only four rooms, one of which is divided by a low partition in an ineffectual attempt to improve conditions. So that from a practical point of view, the High School should have one more room or one less teacher. If we reduce the number of teachers we shall impair the work of the High School and possibly lose our Grade A rating. The lighting of the building is very poor and it is only a question of a year or two before a new heating system will have to be installed.

The building of a six grade High School building whereas it might fit in with the school organization of the west side of the town, would leave in the Village Grammar School only the fifth and sixth grades, comprising about 35 or 40 pupils of the east part of the town. This involves an expenditure of \$400 per year for a janitor in addition to heating, cleaning and upkeep which is very expensive housing for so few children.

If the eight grade building is built the town can, by a very small change in plumbing at the Village Grammar School, place the first and second grades under one teacher in one room and the third and fourth grades under one teacher in the other room, thus making it possible to close the three small district schools in the

east part of the town and dispense with the services of one teacher and three janitors and the upkeep of three buildings. Should the people prefer to use the three neighborhood schools (Point, Millbrook and South Duxbury) the Village grammar school property can be sold, thus stopping any further expenditure for maintenance, etc.

The organization in the west side with the new eight grade building, could be two grades to a building in the Tarkiln grammar and intermediate buildings, thus saving the expense of maintaining Temperance Hall which has been loaned to the town by private citizens of that neighborhood. The efficiency of school instruction would also increase from the fact that present day teachers are trained to be specialists in one or two subjects or grades.

A building according to this plan, will contain a Senior High School located on the second floor,—it will contain besides the home rooms or grades ten, eleven and twelve, a room for bookkeeping, typewriting, study hall, library, a laboratory, boys' toilets, girls' toilets, girls' dressing room and teachers' room.

The first floor will contain the three home rooms of the Junior High School, comprising grades seven, eight and nine, a stock room, waiting room, principal's office, nurse and doctor's room and at one end of the building a home room for grade five and home room for grade six and girls' toilet and boys' toilet for these two rooms. Separate coat rooms will be provided with each home room throughout the building. There will be a gymnasium-auditorium seating 430 and galleries seating 160 additional, total 590 people. There will be a moving picture booth, stage, anti-room, girls' showers and lockers, girls' toilets, boys' showers and lockers, boys' toilets, and storage room for seats when the auditorium is to be used for gymnasium. The basement will contain a lunch room, domestic science room, manual training room with

lumber rack and finishing room, boiler room and coal pocket.

This will furnish the upper eight grades of the town with the best possible housing conditions and school organization with economy of operation and administration. The scholars of Duxbury will get a greater percentage of the time of the superintendent.

By having the fifth and sixth grades in one end of the first floor by themselves, and the seventh, eighth and ninth grades in the other end of the first floor, with the upper three grades on the second floor, the town can give the consolidated school ideas as applied to country towns with a school population similar to Duxbury, scattered over an area like that of Duxbury, the best possible trial without committing the town to complete consolidation for all time. If, however, the parents of the children and the people of the town, after this eight grade organization has been tried out, are satisfied that it is for their best interests to have complete consolidation, it may be had by adding to the building, or building a four grade school house near the eight grade building. If it seems best after a trial of the eight grade building that a six grade building be built on the west side and a six grade building on the east side, it can be done without any loss as the two additional rooms vacated in the eight grade building can easily be used for school purposes. Should the eight grade proposition prove satisfactory, a new four grade building can be built in the west part of the town and a new four grade building can be built in the east part of the town more conveniently located as to school population, and the present village property be sold.

We believe that the eight grade building housing two-thirds of the grades of the town under the best possible housing conditions is the most practical and satisfactory step to take at present.

A plan for consolidating the lower six grades in each side of Town, and building a six grade high school building is a more expensive plan. It involves an expenditure of from eighteen thousand to twenty thousand dollars on the village grammar school site in order to house the lower six grades of the east part of the Town. It also involves an equal expenditure of from eighteen thousand to twenty thousand dollars in the west part of the Town. The eight grade building plan would make it possible to house all the children of the lower four grades of the west part of the Town in the Tarkiln intermediate and grammar buildings. The fifth and sixth grades of the whole town are thereby cared for at a cost of about twelve thousand dollars.

The committee are submitting herewith preliminary plans, estimates of cost, etc., from Brainerd & Leeds, architects, 89 Franklin Street, Boston, who were employed to help the committee. To provide for any increase in growth, the building is planned to accommodate at least 25 per cent. more children than the school report showed in these grades in 1924.

The votes pursuant to which this majority report is written, were taken December 19, 1925 as follows: "Voted: That the Committee recommend to the town the construction of a building for the upper eight grades of the town, thus making it possible for either complete consolidation or the three school system, the lower four grades to be left in the neighborhood schools, with two grades to a room so far as practicable." Ten voted in favor and four opposed. Those in favor were Messrs. Brett, Simmons, Mrs. Shaw, Mrs. Phillips, Messrs. O'Neil, Swift, Goodrich, Merry, A. H. Walker, Percy L. Walker. Those opposed were Mrs. Bittinger, Messrs. Clark, Cushing and Glover. (Dr. Bumpus was absent but later approved the action of the majority.)

It was also voted on December 19, that the Committee recommend the Alden Street site to the town. Six

voted in favor, four opposed, three did not vote. Those voting in favor were Messrs. Goodrich, Merry, Swift, Mrs. Shaw, A. H. Walker and Percy L. Walker. Those opposed were Mrs. Phillips, Messrs. Brett, O'Neil and Simmons. (Dr. Bumpus and Mrs. Bittinger were absent.)

The committee have secured for the town an option for one dollar on about seven and one-half acres of land south and west of Train Field and adjoining Alden Street. A copy of the option is embodied in this report. This option holds until May 27th, 1926, and the price of the land if bought under this option will be \$3,000. This, together with Train Field which adjoins, would give the town about 12 1-2 acres of land of proper topography, good drainage, freedom from noise and danger and with a proper elevation for the building. The use of Train Field for athletic purposes has been considered in connection with the Alden Street site. Train Field is used very little, if at all, during school months and the town spends considerable money each year for the upkeep and improvement of this field. Authorities demand athletics for an up-to-date school system. Train Field will be a great help toward providing the accommodations necessary. The nearness to the Public Library is another advantage of the Alden Street site. The new State road covering Union, Congress and West Streets will facilitate transportation to this site from the northerly part of the town.

Regarding complete consolidation, of which much has been said, very few towns are doing this, and reports are not by any means uniformly favorable.

Attention is called to the saving in interest money as stated in Prof. Brown's report, which would result from issuing bonds for a short period of say 5 or 10 years instead of for 20 years as is usually done.

The sale of some fairly valuable school property, which will result if this plan is put in operation, will reduce the amount of money which the town will have to hire.

The following statement of outline specifications by Brainerd & Leeds is submitted:

## OUTLINE SPECIFICATIONS FOR THE DUXBURY SCHOOL BUILDING

February 9, 1926.

Foundations: 12 inches thick.

Concrete: 1:3:6 mix.

Exterior Walls: 12 inches thick, "4 water struct brick backed up with 8" structural tile.

Corridor Walls: 8 inch tile.

Roof: Fading green slate.

Floor and Roof

Construction: Floors framed with 2x12 joist; roof with 2x10.

Finished Floors: Maple, 2 1-4" face.

Standing Finish: N. C. Pine.

Paint: All exterior work 3 coats lead and oil. Standing finish 2 coats Minwax. Interior walls, a coat of size, two coats of Lithophone paint.

Plumbing: Cold water, galvanized iron; hot water, brass or copper.

Heating: Fan system.

Electric: Direct lighting in all classrooms; inter-communicating house automatic telephone system.

BRAINERD & LEEDS, Architects.

On February 13, Mr. Brainerd wrote as follows:

"I find that the \$107,000 mentioned by Mr. Leeds will build the building complete, all grades, as he told you. There are certain other charges which you may have to include in your appropriation, which I will give you:

Building, all grades,	\$107,000
Furnishings,	7,500
Grading,	2,000
Fees,	6,500
Incidentals and contingencies and overlay,	3,200
	<hr/>
Total,	\$126,200

I think that you may have on hand materials to cover the items of furnishings, or at least part of it, and it is possible that you may have old material, such as blackboards that can be transferred from other buildings, to save you somewhat, but to be sure to give you full information I have quoted you in full for everything, above the price of the land.

I wish to confirm my telephone statement that the cost of a pitched roof covered with slate and a wood cornice, would be approximately \$500,000 more than a flat roof building with a 20 year guarantee Barrett Roof, stone cornice, brick parapet and stone coping.

Now, as to the building itself:

Foundations will be concrete.

Exterior walls will be waterstruck brick backed with tile, furred and plastered.

Trim of doors and windows to be cast stone.

Cornice of the building will be wood.

Roof will be slate.

The window frames and sash will be rolled steel.

The corridors and stairs would be fireproof throughout. Classroom floors would be constructed with wood joist with finished surface of 2 1-4" face matched maple flooring.

Standing finish, N. C. Pine, stained a tobacco brown, finished with two coats of waterproof wax.

Walls of all rooms and corridors, painted.

Plumbing of a substantial quality with hot and cold water supply to lavatories, sinks and shower baths.

Heating, a split system, that is, direct radiation in the rooms with fresh, warmed air for ventilation supplied by a fan. This will insure a positive ventilation and prevent back drafts in the vent flues.

Electric Equipment includes incandescent lighting, intercommunicating telephones and a clock system. Building will be fitted with the risers for vacuum sweepers.

It would be possible to cut the price of the building five to eight per cent., but to do so would mean cutting the quality seriously and much impairing the wearing qualities of the structure."

The majority of the committee therefore recommend the erection of a building for the upper eight grades of the entire town on the Alden Street site, substantially in accordance with the plans herewith submitted.

The majority of the committee also recommend housing the lower four grades of the town in the Village Grammar building and in the Tarkiln Grammar and Intermediate buildings and improving the lighting, heating and toilet facilities in these buildings, pending the time when the town decides whether (1) to build a new building or buildings for these four grades; (2) or to make substantial additions and alterations in the present buildings; (3) or to transport these four grades to another center or centers.

The only expense at the Village Grammar School would be a small change in the plumbing. The expense

at Tarkiln would be greater but the committee believe it is warranted.

Respectfully submitted,

DR. H. C. BUMPUS, Chairman,  
FRANKLIN BRETT,  
GEORGE B. CUSHING,  
THEODORE W. GLOVER, JR.,  
BENJAMIN F. GOODRICH,  
H. E. MERRY,  
EDWARD S. O'NEIL,  
MRS. WENDELL PHILLIPS,

COPY OF OPTION FOR PURCHASE OF LAND FOR  
SCHOOL BUILDING SITE

---

I, Charles L. Alden of Boston, Massachusetts, in consideration of one dollar, the receipt whereof is hereby acknowledged, do hereby grant an option to the town of Duxbury for the purchase of about seven and one-half ( $7\frac{1}{2}$ ) acres of land located on Alden Street in said Duxbury and bounded as follows: beginnig at a point in the southerly line of Alden Street distant 275 feet easterly from the northeasterly corner of land of Cowdin; thence running easterly by said Alden Street to land of the Town of Duxbury known as Train Field, and acquired by the said town under two deeds; thence running southerly easterly and northerly by Train Field to said Alden Street; thence running northeasterly by Alden Street to land of Macomber; thence running southerly by said land of Macomber to a fence corner located about 259 feet southerly from the southeasterly corner of said Train Field; thence running westerly by the fence line to a point in said fence line 238.5 feet easterly from the southeasterly corner of said land of Cowdin; thence turning and running northerly in a straight line to the point of beginning.

In case the above described premises are sold pursuant to this option, a right of way for the said Charles L. Alden and his heirs and assigns forever and for all purposes is to be reserved across the conveyed premises from Alden Street southerly along the line of land of Macomber to the remaining premises of said Alden, which remaining premises lie southerly of the said premises to be conveyed; and the premises shall also be conveyed subject to the right of way as stated in deed

from Georgianna B. Wright by Executor to said Charles L. Alden dated May 28, 1920, and recorded in Plymouth County Registry of Deeds, Book 1358, Page 416.

This option is to hold good for four months from the date hereof and in case of transfer the said town shall pay for the said land the sum of \$3,000, for a good and clear record title free from encumbrances except as aforesaid.

IN WITNESS WHEREOF, I hereunto set my hand and seal this twenty-seventh day of January, 1926.

(Signed) C. L. ALDEN.

Witnessed by A. W. Alden.

REPORT ON SCHOOL BUILDING SITE  
BY MR. CARL L. SCHRADER, STATE SUPERVISOR  
OF PHYSICAL EDUCATION

---

Jan. 11, 1926.

To the Duxbury School Building Committee:

Dear Sirs:

In the following I am offering you a brief report of my visit to Duxbury as to the comparative fitness of the two lots which are being considered for a new high school. My estimate of the two sites available is based entirely on the opportunities they offer for the physical education program which must receive careful consideration in planning the new high school.

While the Academy site has certain advantages, particularly those of utilizing the high embankment for the accommodation of spectators for games and competitions, the available actual play surface is far too limited for the use of extensive recreation activities for the boys and girls of the school. While, by grading, the present available level surface might be increased to an oval with a quarter mile running track, a football field and a baseball diamond, it would fall short on many other opportunities which belong to an athletic field today. The football field, for example, during the fall season would occupy only twenty-two boys, and thus not only shut out all other boys from participation in other types of games, but would leave entirely out of consideration the activities of girls which are of equal importance and which require space equal to that of the boys' games.

The Alden Street site where a playground including a diamond has already been created, permits of enlargement of facilities, requiring comparatively little outlay

in addition to the original purchase of additional lands. Here it would be possible to lay out the necessary fields for the different types of activities. The administration and supervision of the various play activities on this large and prospective play field would be comparatively simple and still effective, as all the activities would then be in easy sight of those in charge, and definite instruction in the various kinds of activities made possible thereby.

The question of spectators, while worthy for consideration, is not the most essential one in the problem with which Duxbury is confronted. The main purpose to bear in mind in the creation of this new school building including playfields, is to secure the best possible opportunities for a modern educational program, at the same time answering for the growing demand for opportunity of participating in recreational activities of the citizens.

I feel quite sure that a modern program of physical education and public recreation would be best feasible on the Alden Street site.

CARL L. SCHRADER,  
State Supervisor of Physical Education.

LETTER FROM A. B. LORD OF STATE BOARD OF  
EDUCATION

---

Mr. A. H. Walker,  
Chairman of the Committee on  
Better School Accommodations,  
Duxbury, Massachusetts.

My dear Mr. Walker:

I was very glad after visiting the schools of the town to meet with your committee of fifteen.

In my opinion better schools in Duxbury depends upon first, a reorganization of your school system made possible by a building program, and second, by retaining trained, experienced, well-qualified teachers which is only possible when working conditions and salary maxima are comparable with the more progressive towns of the State.

Your first consideration must necessarily be the provision of adequate buildings. The advantage of consolidated schools has at various times been presented to the town and I will not take the space to review them in this report. (Attached hereto is a report of Consolidated Schools in Massachusetts.)

I am convinced that for an efficient school system a central junior-senior high school made up of grades six to twelve inclusive and with grades one to six brought together in one or two centers is most desirable. Many towns have found a central building for all schools has many advantages. Chatham offers an example of this plan. It has much to commend it. Teachers would have but a single grade, making more efficient use of time and making it easier to attract and hold trained, experienced teachers.

The plan of two centers for grades one to six is, however, worthy of consideration. This plan would provide for two grades to a teacher. It would provide for centralized community interest, transportation distances would be shorter, and the operating cost somewhat less. The town of Lynnfield offers an excellent example of the successful operation of schools on this basis.

Duxbury is most fortunate in being financially able to provide ideal school buildings for all its children, and very few towns are as favorably situated for consolidation. Excellent roads and school distances make complete consolidation easy. Transportation of all children would not be a question of hours, but of minutes.

I am glad to submit the following recommendations: first, the complete abandonment of all school buildings. The erection of one central school in the vicinity of the town athletic field and library. The acquiring of additional land to provide adequate grounds.

Second, in case the first plan does not meet with approval I believe a central junior-senior high school for grades six to twelve with adequate facilities for assembly and physical education be located as recommended above. That a new three-room building with a small assembly room be constructed at Tarkiln for grades one to six and that the present East Grammar School be enlarged so as to provide four rooms and an assembly room accommodating grades one to six. The present building has, in my opinion, an adequate heating and ventilating system if operated properly. The present classrooms are adequate for 32 to 35 pupils. Present-day practice restricts the size of classes to 35 pupils. That provision for growth and for those years when the registration in a given room is large, four rooms rather than three should be provided.

While the first plan, which I believe to be ideal, has advantages over the second plan, it is possible to carry on efficient work in two elementary centers and a junior-

senior high school comparable with the work now being done in the progressive towns of the State. I feel certain that if the junior-senior high school building and a central school at Tarkiln is constructed at this time public sentiment will within two or three years demand a central school in the east part of the town.

Very truly yours,

A. B. LORD.

REPORT OF PROF. C. EMANUEL EKSTROM,  
GRADUATE SCHOOL OF EDUCATION  
BROWN UNIVERSITY  
Providence, Rhode Island

---

June 22, 1925.

To the Special Committee of Fifteen, appointed to consider school needs, Duxbury, Massachusetts:

I have the honor to confirm in writing the informal verbal report on the existing school situation in Duxbury which I was able to give to some of the members of your Committee after visiting the schools of the town Friday, June 19, 1925.

It usually falls to the lot of any person who is asked to survey the school situation in a city or town to point out a number of deficiencies in the school facilities provided. In the nature of the case his report, if frank and disinterested, cannot be complimentary, inasmuch as his advice is not, as a rule, sought until it becomes apparent that conditions are not all that they should be and that improvements are imperatively needed. I am sure, therefore, that when I find it necessary to call attention to shortcomings in the Duxbury system, you will realize that I am merely performing an unpleasant duty and am in no sense criticizing those who have school matters in hand. I may add that in the case of your town the school faults that came to my notice were chiefly such as have grown out of the school conditions of past generations and are not attributable to individuals at present engaged in school activity.

In view of the fact that a report of this kind must, as I have remarked, necessarily deal largely with defici-

encies and shortcomings, I cannot forego the pleasure of noting one commendable feature which struck me forcibly in my visits to the various schools. This was the obviously high type of teacher now serving in the Duxbury schools. Your town is fortunate in having the services of so capable a corps of teachers. The pity is that they have no better facilities with which to carry on the most fundamental civic enterprise of your community — the education of its children.

---

The present school problems of Duxbury center about its school plant, that is, the buildings used for school purposes, together with their equipment.

In general the school work is carried on in one-room buildings. These one-rooms schools, with perhaps one exception, were built by a past generation and are of the old type characteristic of the middle of the last century. Originally they were well built and properly met the school standards of those times. From a modern point of view, however, they are quite unsuited for school use. Every one of them falls far short of acceptable school standards. Unfortunately, too, the features in which these buildings rank especially low are fundamental, such as only extreme modifications, amounting practically to complete reconstruction, can remedy.

The heating, ventilating, and lighting facilities are bad in every case. The one-room schools have but from a fourth to a third the amount of light which they should have for proper conservation of the children's eyesight. Furthermore, in every case the light enters from at least two sides, and in many case from three sides. One case was noted where the children must sit all day gazing into an unshaded window behind the teacher's desk. In almost every school it was necessary to use blackboard space inserted between two windows. Conditions could

not be worse for creating eye strain and other sight troubles, particularly in the case of growing children.

Add to this the cross shadows on the desks when reading or writing, inevitable in bi-lateral lighting, and the insufficient amount of light on dark cloudy days and we have a set of school room conditions which parents, if they realized the seriousness of the matter, would not tolerate for a single day beyond the time necessary to provide a remedy. A school room should have a window area equal to at least one-fifth of the floor space, and these windows should always be at the pupils' left, and, if possible, look to the east or west.

Toilet facilities are practically non-existent. Construction is bad, there is little attempt at proper seclusion and the number of seats provided is too small. It must be said, however, that there are evidences of efforts at cleanliness and sanitation. The type of facilities provided, nevertheless, defeat these efforts, and conditions in some cases are such as would not be tolerated by adults. Children, unfortunately perhaps, are too young and uninformed to protest.

No suitable cloak rooms are provided, nor is there provision for a retiring room. Luncheon must be eaten in the school room itself. Even the one-room building, if used as a school in these days, is expected to provide these facilities. They are real necessities, not luxuries, in any building where children must spend from 6 to 7 hours each day.

I mention some of these features, in spite of the fact that they are already only too well known to you, chiefly to indicate that the present school plant is grossly inadequate in precisely those aspects which cannot be provided for in the old buildings without a complete rebuilding. On the other hand, some of the readily controlled features, such as blackboards, teachers' and pupils' desks, and painting and minor repairs give evidence of care and regular supervision. Other items of equipment, such

as maps, reference books and various improved school supplies, were in some instances meagre and unsatisfactory.

Because of the material and physical conditions in your one-room schools briefly outlined above, and for certain "educational" reasons to be alluded to later, I am of the opinion that Duxbury will serve its best interests by abandoning its one-room schools entirely. To modernize the buildings now in existence would involve a very considerable outlay and would give in the end only a "one-room" system with its inherent handicaps. The school children of Duxbury should be housed in buildings of several rooms where proper heating, ventilating, lighting, toilet and other service facilities may be provided. The town fortunately offers an adequate network of roads which would make it entirely feasible to collect the children into a school center or centers where adequate housing could be provided. Such a change would, at the same time, make possible certain educational advantages, such as one or two-grade rooms segregation of problem children and a better social and professional atmosphere for the teachers of the town.

My recommendation is, therefore, that the town proceed at once to erect an elementary school building to house all the children of the town in grades 1-6. I am not in a position to suggest a site for such a building but it should be near the center of population and located with reference to accessibility by the roads over which the children must be transported.

Such a building should be constructed to house 200 to 230 pupils. Six classrooms, each to seat between 35 and 40 pupils, with possibly a smaller room to seat 20-25, would suffice. There should be included an assembly hall, a play room, a library, a principal's office, and teachers' rest room. Toilet facilities should be provided on the ground floor, not in the basement where proper ventil-

ation and cleanliness is not possible. A one story building of attractive appearance could be designed for this purpose which would give Duxbury a model centralized elementary school. Three or four acres of land should be provided as a school lot, properly graded for playground purposes.

In consulting with your Committee, I found some making the suggestion that the western part of the town would profit culturally and in the fostering of community spirit, if it were provided with a school center. In my opinion no one influence can do more for a community or neighborhood than a good school building which may serve as a sort of cultural center for that community. To my mind, therefore, the consideration advanced by these persons has real merit from this point of view. It would be entirely feasible to build two elementary schools for grades 1 to 6, one to house about 100 pupils, and the other about 120, instead of one to house 200-230 as recommended above. One ought then to be located in the village and the other (the smaller one) near the center of population of the western half of the town, again with due reference to the roads over which the school busses would travel.

The educational advantages are without question on the side of the single large school. One grade to a room, a special room for those who learn slowly, specialization of work by the teachers — these desirable features are more possible in a school of 200 than in one of 100 pupils. However, if Duxbury has in reality two community centers, the social and cultural effect on the western half of the town of having a school center of its own may outweigh these advantages and justify the building of two smaller elementary schools. I should say that the two elementary schools plan would attain perhaps 95 per cent. of the improvement over present school conditions which the plan for one large elementary school would provide.

If two elementary schools are built, each should con-

tain an assembly hall and be provided with two or three acres of ground.

---

The high school situation in Duxbury presents little choice as to what recommendation one may make. The Academy building now in use is entirely unadapted to modern high school needs. The same criticisms as to light, toilet facilities, and general unsuitability to school uses as in the case of the one-room schools hold with regard to this building. There is added a distinct fire hazard in the way in which the boiler is housed under a lathe and plaster ceiling. The building cannot be adapted, without such remodelling as to destroy its identity, to the varied needs of a present day high school — special rooms for hand work, household arts, science instruction, library facilities, gymnasium and the like.

My recommendation with regard to high school facilities is, therefore, that a junior-senior, or six-year, high school be erected to provide for grades 7 to 12, that is, the present four high school years and the present 7th and 8th grades. This would necessitate a building to care for about 150 pupils. Four or five ordinary classrooms together with the special rooms referred to above would be needed. An assembly hall seating 200 persons, with stage equipment, a gymnasium above ground with shower baths adjoining, and 5 or 6 acres of grounds for play purposes are features that should be included. If agriculture is to be taught, added space for school gardens ought to be provided.

---

A plan such as I have outlined — a six-year high school for the whole town, located near the center of population, and one or two six-year elementary schools — would give

to the children of Duxbury the sort of educational facilities to which they are entitled if they are expected to compete with other children who get their start in life in schools of this kind. A rough estimate would put the cost of these buildings (apart from the land) at about \$150,000 — \$100,000 for the high school, \$50,000 for the grades. A patchwork plan of remodelling the present buildings, or adding to them, would cost but a few thousand dollars less, if made to provide the features needed, and would produce a school plant that would again be obsolete in the course of a few years. A town so stable in its population and industrial activities as Duxbury may safely plan far ahead and build substantially.

With regard to the location of the contemplated buildings, I must say that I am not familiar enough with the geography or topography of Duxbury to venture to suggest any precise site. I may point out, however, certain desirable features for any school site. It should have some elevation to allow for effective sewage disposal as well as for architectural effect. It should be retreated somewhat from any busy, noisy highway. Playground space is essential. Orienting the building so as to get east or west light into the school rooms should be given consideration. I should like to add, too, that architectural effect is of more than sentimental importance. For many children the only building of size and importance to which they will habitually go is the school. The standards of taste in the builder's art will be largely fixed by their school experience. To give them something mean and ugly will inevitably form their standards of taste and judgment on a similarly low and ugly plane.

In conclusion I wish to refer to one further consideration. The village grammar school, the two-room building, might serve as the basis for a four-room-plus-assembly-hall building if the lot on which it stands can be added to. It would be necessary to move it back from the road and rearrange the interior, but a few thousands

might be saved in this way if two elementary schools were decided upon.

Finally let me say how much I have enjoyed meeting the members of the Committee and how much I appreciate their courtesy and consideration while with them.

Respectfully yours,

C. EMANUEL EKSTROM,

Assistant Professor of Education.

I

*The present school plant does not meet modern standards for school buildings with respect to safety, healthfulness, or adequacy.*

The Duxbury school plant consists of nine buildings — seven one-room buildings, one two-room building, and the high-school building. Each of four of the one-room buildings houses the first four grades, one is used for grades one to three, one for the three intermediate grades, and one for the two grammar grades. The two-room building, known as the Village Grammar School, contains the fifth, sixth, seventh, and eighth grades.

All of these buildings, with the exception of the Village Grammar School, were erected many years ago when one-room buildings were considered satisfactory for school purposes. The Tarkiln Primary School, which was originally put up to serve as a community house, is even less suitable than the others for school purposes. A building erected in 1843 for a private school serves for the high school.

The superintendent of schools, officials from the State Department of Education, and other competent authorities have called attention to the undesirability of the one-room buildings for school purposes. Further, since the School Committee are agreed as to their unsatisfactory condition, it is not necessary to make a detailed report upon each of them. Since, however, there is some question of the Committee's stand with respect to the retention of the Village Grammar School and the high-school building in the future school plant, these were studied in detail.

One way of describing buildings is in the terms of the American Institute of Architects, which classifies them as follows:

Type A—A building constructed entirely of fire-resistive materials, including its roof, windows, doors, floors, and finish.

Type B—A building of fire-resistive construction in its walls, floors, stairways, and ceilings, but with wood finish, wood or composition floor surface, and wood roof construction over fire-resistive ceiling.

Type C—A building with masonry walls, fire-resistive corridors and stairways, but with ordinary construction otherwise, i. e. combustible floors, partitions, roof, and finish.

Type D—A building with masonry walls, but otherwise ordinary or joist construction and wood finish.

Type E—A frame building, constructed with wood above foundation, with or without slate or other semi-fireproof material on the roof.

All of the school buildings of Duxbury are Type E construction.

### **Scoring the Buildings: Village Grammar School and High School**

These two buildings were scored according to the standards set in the Strayer-Englehardt score cards for elementary and high-school buildings. Each item is given a certain number of points in a total of 1,000 points. The main divisions are as follows for elementary school buildings:

Points	Includes
125 Site	Accessibility; character of environment; drainage; nature of the grounds for athletics and play purposes; adequacy of the site for the expansion and proper orientation of the building, and for all out-of-building school activities.
165 Building	Orientation; external features; material; height; roof; foundation; stairways; corridors; basement.

280	Service System	Heating; ventilation; fire protection; cleaning system; lighting; facilities for drinking, washing, and bathing; toilets.
290	Classrooms	Accessibility to exits, stairs, and toilets; size; number; shape; lighting; cloakrooms; blackboards; doors; equipment.
140	Special Rooms	Auditorium; gymnasium; library; offices; rest rooms; service rooms for nurse, physician, and dentist; laboratories; shops; etc.

---

1,000

The score card for high-school buildings is substantially the same with the exception that the "Special Rooms" division is subdivided into Special Class Rooms, General Service Rooms, and Administration Rooms.

The authors of these score cards have found that a building which scores under 500 points can seldom be remodeled satisfactorily to meet the requirements of a modern school plant.\*

### The High-School Building

The score for the high-school building is as follows:

Site	50 out of a possible	100 points
Building	20 out of a possible	150 points
Service System	40 out of a possible	270 points
Classrooms	35 out of a possible	145 points
General Service Rooms	25 out of a possible	140 points
Special Rooms	5 out of a possible	140 points
Administration Rooms	0 out of a possible	50 points

---

Total	175 out of a possible	1,000 points
-------	-----------------------	--------------

---

It will be seen that the score of 175 out of a possible 1,000 points is far below the minimum of 500 points set by Strayer and Englehardt for a building that can be used or remodeled.

\*Strayer and Englehardt, "Standards for Elementary School Buildings"—1923, "Standards for High School Buildings"—1924. Published by Teachers College, Columbia University, New York City.

### Detailed Analysis of the Elements Scored

**Site:** The location of this building for its original purpose, a private school, may not have been undesirable in those days when the building was seldom used for any but school purposes; but for the uses to which a modern school plant is now put it is too far removed from the center of population. The building is located entirely outside the residence limits.

The size of the site is inadequate for a high school and even more so for a combined high and elementary school plant. Even if additional land should be purchased it is doubtful if the topography is such as to make it desirable for such use.

**Structure:** The building is the E type of construction — wooden frame and finish. It consists of the original building, a two-story, two-room building, each room approximately 40 by 45 feet, and an annex with two rooms on the first floor. The second floor of the original building is divided into two or three classrooms by movable screens that serve to shut off a considerable portion of the light but do not protect any class from the noise of the others.

The stairways are within the building and are neither fire-resistive nor enclosed in a smoke-proof, fire-resistive tower. The steps are two inches higher than the standard riser, which makes them difficult to go up or down. On one side is an iron rod used as a hand rail, which projects out about a foot from the wall at the upper turn of the stairs, causing an obstruction in an already too narrow stairway. Because of the height of the riser these stairs cannot be used daily without danger to health and in case of a fire would be a positive menace.

There are no separate cloakrooms. Outer wraps must be hung in the corridor with no means of ventilation or protection. The corridor is sufficiently lighted, but cold and draughty in winter.

The basement is scarcely more than an uncemented

cellar with no conveniences for the janitor. It is not separated from the rest of the building by fire-resistive walls or metal-lathe ceiling.

**Heating and Ventilating:** The heating plant is inadequate. On cold mornings the janitor is not able to make all the rooms comfortable. The structure of the building is such as to make proper heating impossible without a very large heating plant and excessive fuel consumption.

Air ducts supposedly bring in fresh air, but as they have their openings at the level of the ground and catch the dust and dirt from the unsodded ground, the fact that most fresh air is derived from the windows is to be commended.

**Fire Protection:** The fact that this is a two-story frame building makes fire protection of vital importance. The only fire protection is the presence of three fire extinguishers on the two floors and in the basement. With the inflammable nature of the building, the dangerous stairways, and the lack of proper separation of the basement from the rest of the building, there is a constant menace to the safety of the pupils on the second floor in spite of an outside fire escape made of wood.

**Classrooms:** The only classrooms are the two on the first floor, one used for the commercial classes, the other used for the science laboratories and the domestic arts class. The second floor space with its movable screens cannot be classed as a recitation room by any acceptable standards.

**Lighting:** Proper lighting requires the window area to be from one-fifth to one-fourth the floor area with the height of the top of the windows from the floor at least one-half the width of the room. These rooms have a ratio of one-fifteenth to one-tenth of window area to floor space, not deducting the light shut off on the second floor by the screens. The lighting is bilateral and in some rooms windows are on three sides.

**Equipment:** The rooms are poorly equipped. The

domestic arts class is compelled to heat water on an oil stove and shares a room with two science classes.

It has been proposed to enlarge the high-school facilities by an addition connecting the academy building with the town hall by a new structure. Plans have been prepared by an architect for this purpose. Under the terms by which the trustees of the academy transferred it to the Town:

"No structural changes shall be made in the original building."

"Any addition to the original building shall be in the rear of the back line of said building or said line prolonged.

"The same order of architecture shall be carried out in any addition as in the original building."

Even without these limitations no remodeling can make this building into a satisfactory plant to house a modern high-school offering.

### **The Village Grammar School**

This building is the most modern of the group. It is a one-story, two-room wooden building of Type E construction.

The site is centrally located, but too small for a modern grammar school.

The rooms are lighted by windows on the side and rear instead of from the left side. The glass area of the windows on the left side does not give the required ratio of one-fifth to one-fourth of the floor space. The orientation is not desirable, with the light coming from the west and south in one room and west and north in the other.

The heating and ventilating plants are fairly satisfactory. The toilets are adequate in number, but are in the basement and unventilated.

The defects, however, are such as cannot be overcome. The building lacks rooms for the needs of grammar-grade pupils; has no gymnasium, work shops, nor domestic arts laboratory, and none of the facilities for instruction in any subjects beyond the conventional three R's. and

lastly, from the point of view of safety, the entrance opens directly onto a narrow and much-travelled main street.

Much of what has been said in detail about the high-school and the Village Grammar School buildings applies with equal force to all the other buildings of the school plant. These buildings were erected at a time when requirements that are now considered necessities were not even thought of. Every one of them is located on an inadequate site, is poorly ventilated, badly lighted, and has wretched toilet facilities. The lighting is bilateral. In many cases the pupils have to sit all day facing the light. The blackboards are between windows; there are no cloakroom facilities, no retiring room, and no room for the nurse, the physician, or the dentist. Luncheon is brought by almost every child and must be eaten in the recitation room, with no provision for a hot lunch. The toilets are in all cases outside, with all the evils of such a system. To make these buildings habitable and modern would require an outlay out of all proportion to the results.

## II

*The building arrangements may fairly be charged with a very large share of the retardation in the Duxbury schools.*

Table I shows the number of pupils in each of the elementary grades grouped according to age. In this table a child is considered at the age of 5.5 if between 5 years, 3 months and 5 years, 9 months; a child at the age of 6.0 if between 5 years, 9 months and 6 years, 3 months, and so on. The children of normal age for entering their grade are included between the two horizontal bars in each column. Those that are above the horizontal are under age for their grade; those that are below are over age. Overageness may be the result of late entrance or repetition. Since, however, practically all the pupils in the Duxbury elementary schools enter the first grade at the age of six, overageness in the Duxbury schools does not arise from late entrance.

Two factors are particularly significant in this table: (1) the large number of over-age pupils, and (2) the wide range in age of pupils in the same grade. Only 48.4% of the pupils are of normal age, that is, between the ages of 5 years, 3 months and 6 years, 9 months for the first grade; between the ages of 6 years, 3 months and 7 years, 9 months for the second grade, and so on. Thus, allowing a range of eighteen months for each grade, less than half of the pupils in the elementary grades are of normal age for entering their grade.

**Table I—Age-Grade Distribution of the  
Duxbury, Massachusetts Elementary Schools\***

Age	Grades								Totals
	1	2	3	4	5	6	7	8	
5.5	1

Normal Age	25	29	18	14	20	8	8	15	127
Over Age	12	19	18	6	20	16	19	12	122

\*Ages as of September 1, 1925.  
Enrolments as of November 15, 1925.

The following table shows the percentage of over-age pupils in the Duxbury elementary schools compared with eighty cities of the United States:

Table II—Comparison of Overageness in the Elementary Grades of Eighty Cities of the United States With That in the Duxbury, Massachusetts Elementary Grades.

Grades	80 Cities	Duxbury
1	8.6	32.5
2	15.7	50.0
3	19.4	50.0
4	25.5	27.2
5	29.0	47.6
6	27.0	57.1
7	23.7	65.5
8	16.5	41.4

The smaller percentage of over-age pupils in the upper grades of the eighty cities is due to their dropping out of school as soon as they reach the compulsory age limit of attendance, while in Duxbury this affects only the eighth grade to any great extent.

This larger amount of retardation in Duxbury is probably due to several causes. The building arrangements, resulting in small schools with several grades to the teacher, can certainly be charged with no small part of this excessive retardation. Teachers with four grades cannot devote much time to individual pupils, many of whom, if given more time by the teacher, would be able to pass to the next grade.

Financially this retardation presents a serious problem. The annual per capita cost for pupils in average daily attendance in the Duxbury schools is \$117.06. Every pupil who repeats a grade increases the school expenditure by this amount. Nearly half of the pupils of Duxbury elementary schools will average more than one year retarded. This means that under present conditions Duxbury is spending far more than she ought for the returns she is getting in education. This does not take into consideration the loss of time to the pupils.

From an educational standpoint the present building arrangements contain inherently the necessary conditions to foster and propagate this overageness. An examination of the age-grade table shows in Grade I, for instance, a range of from five to twelve years. Children of these widely different ages are trying to do the same kinds of work. Such a variation in ages cannot but be a handicap to the teacher. And it is open to question whether any child three or more years retarded should be given the same program of studies as the child of normal age for his grade. Yet in small schools with several grades it is difficult, because of the small numbers, to grade and group children effectively. Attention to individual differences by ordinary methods of grouping is impossible. Consequently, the individual tends to be lost sight of in the shuffle to meet the needs of the non-existent "average child." While individual instruction for every child is probably not now possible the same aims can be achieved to a large degree by careful grouping of children whose needs are similar. This method requires larger numbers than are possible in the rural school. Whether this retardation in Duxbury elementary schools be due to a lower type of mental equipment of the retarded child, to poor attendance, or to ill health, the organization of the schools necessitated by small numbers of children seriously handicaps both teacher and pupils.

### III

*The program of the Duxbury schools is seriously affected by the continuation of the small schools.*

In the following discussion it should be understood that criticism of the teachers is not intended. This study does not include an examination of the quality of instruction. Every report from those who are familiar with the work of the teachers gives high praise to the teaching corps, who are doing faithful work under adverse conditions.

The following is the program of the South Duxbury Primary School and is used merely as typical of all the primary schools of the town.

Schedule	Minutes	Grade I	Grade II	Grade III	Grade IV
9.00- 9.05	5		Opening Exercises		
9.05- 9.20	15		Penmanship or Drawing		
9.20- 9.35	15	Reading	.....	.....	.....
9.35- 9.50	15	.....	Reading	.....	.....
9.50-10.05	15	.....	.....	Arithmetic	.....
10.05-10.20	15	.....	.....	.....	Arithmetic
10.20-10.30	10	Numbers	.....	.....	.....

11.30-11.40	10	.....	Spelling	.....	.....
11.40-11.50	10	.....	.....	Spelling	.....
11.50-12.00	10	.....	.....	.....	Spelling
12.00-12.30	30		Noon Intermission		
12.30-12.45	15		Music		
12.45- 1.00	15	Reading	.....	.....	.....
1.00- 1.15	15	.....	Reading	.....	.....
1.15- 1.25	10	.....	.....	Language	.....
1.25- 1.35	10	.....	.....	.....	Language
1.35- 1.45	10		Exercise		
1.45- 1.55	10	.....	Language	.....	.....
1.55- 2.10	15	.....	.....	Reading	.....
2.10- 2.25	15	.....	.....	.....	Reading
2.25- 2.40	15	.....	.....	.....	Geography
2.40- 2.45	5		Optional		

During the nearly six hours that the children of the first grade are at school they have altogether 40 minutes of instruction for work purely of their own grade. Penmanship or drawing, music, and physical training take 40 minutes more. Opening exercises occupy 5 minutes. This leaves, excluding morning recess and noon intermission, three and one-half hours that the children must sit in their hard, uncomfortable seats and do nothing, for no teacher with four grades to teach can prepare satisfactory "busy work" for these children.

Students of child life are agreed that in these early years are laid the foundation for future satisfactory work and correct habits. No children can spend weeks and months as the Duxbury children do in these early years without learning habits of idleness that will hamper them throughout their lives.

Furthermore, this situation has a serious physical result. Every mother knows that the little child is in perpetual motion during its waking hours. Curtis\* found that children of from three to five years of age moved about approximately ten miles a day. Yet the children in the primary schools of Duxbury are shut up in badly-lighted, ill-ventilated rooms for nearly five hours a day, without even the excitement of a "recitation" for most of this time.

If a complete health record of these children were kept from the time they enter the first grade until they complete the eighth, some startling results might be found as to the evil effect of this confinement.

The above program cannot help but emphasize formal instruction in traditional subjects beyond a reasonable point. While first-grade children in graded schools are growing through a contact with literature suited to their grade, with handwork and manual training, with art, with nature study, with dramatics, with play and games, with health habits,—while education is vital and interesting to them — the children in the first grades of Duxbury

\*Education Through Play—Page 19. Published by the Macmillan Company.

are getting but scant drill in reading, numbers, music, and exercise. Today, with our broadened conception as to what constitutes education and with the responsibilities thrust on the school due to the changing character of the home, the rural school seriously hampers the development of a proper program of studies.

#### IV

*The present arrangement results in a lack of co-ordination between schools in matters pertaining to management and curriculum.*

One of the problems of administration in systems having several schools with the same grades is the matter of coordinating the work of the different units. Even with supervisors and other means of unifying the work, the pupils of different schools frequently have an unequal amount of training in the same subjects. How unequal the results must be in a town like Duxbury, which shares its superintendent with two other towns and with practically no contact between the teachers of the different schools is suggested by the following table.

Table III—The Total Number of Minutes a Week Given During the First Three Years of the Duxbury Primary Schools, Compared with the Average for the Same Subjects in the Same Grades in 49 Cities Having One Grade to a Teacher.

Schools	Reading	Arithmetic	Language	Spelling	Writing
Millbrook	575	275	150	150	150
Ashdod	300	300	175	150	150
South Duxbury	500	175	75	50	225
Point	450	200	100	100	225
Tarkiln	525	375	75	150	100
49 Cities*	1156	400	438	208	211

\*Research Bulletin, National Education Association, Volume II—No. 2.

The children of the Ashdod School receive nearly twice as much instruction in reading in three years as do the children of the Millbrook School, and no two of the schools give the same amount of work. On the other hand, the children in the Tarkiln Primary receive more than twice as much instruction in arithmetic as do the children of the Point School. Each of the other subjects shows an equal amount of variation.

Stating this difference in another way, the following table shows how unequal is the training the children of

these schools receive in reading, arithmetic, language, when measured in terms of years and months.

Table IV—The Amount of Time to Specified Subjects in Certain Duxbury Schools and in 49 United States Cities.

Schools	Reading	Arithmetic	Language
Ashdod	5 yr. 7 mo.	2 yr. 7 mo	2 yr. 5 mo.
Millbrook	3 yr.	3 yr.	3 yr.
Point	5 yr.	1 yr. 7 mo.	1 yr. 3 mo.
South Duxbury	4 yr. 5 mo.	2 yr.	1 yr. 7 mo.
Tarkiln	5 yr. 3 mo.	3 yr. 7 mo.	1 yr. 3 mo.
49 Cities	11 yr. 5 mo.	4 yr.	7 yr. 3 mo.

Using the number of hours a week for three years in the Millbrook School as a standard, a pupil, at the end of three years, would have had the equivalent of three years' instruction in reading at the Millbrook School, four years, five months at the South Duxbury School, five years, three months at the Tarkiln School, and eleven years, five months in one of the 49 cities.

In other words, if pupils from these five schools were grouped in a fourth grade in another Duxbury school, the Millbrook children would have had considerable less reading than the others, somewhat more arithmetic than most of the others, and considerably more language. But in no respects would any of these children be on equal terms if they entered the fourth grade in any one of the 49 cities. This deficiency can be removed by reducing the number of grades per teacher.

V

*The present situation prevents the introduction of a modern course of study.*

The program of studies of a Duxbury third grade compared with the program in a well-graded school shows the following differences:

Table V—A Comparison in Third-Grade Programs.

Subjects	Number of Minutes a Week in	
	Duxbury	A Typical School
Language	50	75
Reading	150	425
Spelling	50	100
Penmanship	75	75
Arithmetic	75	250
History	—	50
Civics	—	25
Geography	—	50
Science	—	25
Hygiene	—	25
Physical Training	50	50
Supervised Play	—	100
Recess	75	100
Industrial Arts	—	25
Drawing	—	63
Music	75	75
Miscellaneous	25	—
Total for the Week	625	1,513
Total for the Day	125	303

In Duxbury the children spend five hours, ten minutes in the school room daily; in the typical city, four hours, forty minutes. The pupils of the third grade in Duxbury have no history, civics, geography, science, hygiene, or industrial arts. Furthermore, they spend more time in the school room and receive less than half as much instruction.

The following table gives the number of minutes a week and the subjects taught in the seventh grade of the

Duxbury grammar schools in comparison with the curriculum for the seventh grade in a small junior high school.\*

Table VI—A Comparison in Seventh-Grade Programs

Subjects	Number of Minutes a Week in	
	Duxbury	A Typical Junior High School
Arithmetic	150	200
Geography	120	200
English	210	200
Spelling	75	—
Hygiene	20	80
Current Events	30	40*
Penmanship	60	40
Drawing	65	—**
Music	110	40
Physical Education	75	80
Practical Arts	—	80***
Total	915	960
Electives:		
Drawing (2 periods)		80
Foreign Language (3-4 periods)		120-160

\*Government and Citizenship.

\*\*Elective.

\*\*\*Household Arts for Girls, Manual Arts for Boys.

Duxbury offers no facilities for practical arts below the high school. The type of drawing offered in the junior high school can be given only when proper equipment and room are available. Foreign languages are usually possible in small places when the schools are organized on the 6-6 plan.

\*"Specimen Junior High School Programs of Study," page 23, Bulletin No. 21, 1923, Bureau of Education.

## VI

*The limitations of the high-school building seriously restrict the development of a modern high-school program.*

### The Space

The building contains one large assembly room, one room for typewriting, one laboratory, and one large room that is used in common for three class rooms divided from each other by movable screens. The science and domestic arts are done in the one laboratory. This limited space also prevents adequate equipment for many of the subjects.

### The Course of Study

The following is an outline of the program of studies offered in the high school:

Subject	Periods Per Week	Subject	Periods Per Week
First Year		Second Year	
*English	5	*English	5
Algebra	5	Geometry	5
Gen. Science	5	Bookkeeping A	5
Latin A	5	Science B	5
Anc. History	5	Latin B	5

Music	1	Music	1
*Phys. Education	5-15 min.	*Phys. Education	5-15 min.
		American Hist. & Civics	5

Physics and Chemistry offered in alternate years.

Cicero and Virgil offered in alternate years.

\*Required Subjects.

The high school building limits the offering to such subjects as can be given in four rooms without conveniences or adequate equipment. As a result the program of study is restricted to the college preparatory curriculum with some work in commercial subjects and domestic science.

The lack of space confines the domestic science work to one small laboratory, shared with three other science classes. Water is heated on an oil stove. There is no opportunity for the practical application of the theory of household management. Organized as it is on the basis of only one double period weekly and under poor physical conditions the subject is relatively ineffective compared with what it might be under more favorable conditions.

Manual training and other courses for pupils who need work with the hands, an essential part of every modern high school curriculum, is impossible. Physical training is limited to five to fifteen minutes a day indoors.

## VII

*A consolidated school of the 6-6 type of organization offers the best remedy for these faults.*

### **Advantages of the Consolidated School for Duxbury**

In very few communities is the need of a consolidated school so evident as in Duxbury. The buildings are old, require a constant outlay for upkeep, and cannot be used for many years to house children. The enrolment in each grade is small. The total enrolment in each grade would require only one teacher in a consolidated school. The town is well crossed with good roads and already a large proportion of the children are being transported to the different schools.

Educators have pointed out for nearly a century that opportunities for education in the one-room school were inferior to those offered in a graded school such as the larger towns and cities provide. Every survey has shown that one-room schools are the weakest links in the public school system. Furthermore, they are expensive in the cost per pupil and wasteful in the results achieved.

The inherent weaknesses in the one-room school may be summarized as follows:

1. Difficulty of proper grading.
2. The limited time that can be given to each class. (This has been shown in the schedule of the South Duxbury school, which is merely typical of other one-room schools.)
3. The lack of social experience. (The average number of pupils per grade in the first six grades of the Duxbury schools is less than 9.)

Grade	Pupil Average
1	8
2	6
3	5
4	6
5	12
6	15

(With the few pupils in a grade and the small number in a school, the children miss the social contact with larger numbers that is a stimulus and a training.)

4. The division of the community interests into little centers about different schools destroys a common interest that is essential for progress in any community today.
5. The lack of incentive in small groups, which with the limited instruction each pupil gets, leads to formation of habits of idleness that affect the whole life of the child.

Attempts to improve the instruction in the one-room schools have been but moderately successful. Their weaknesses are inherent and can be removed only by the elimination of the school itself.

In a circular issued by the Department of Education of Massachusetts on the consolidation of schools is included a series of reasons for consolidation offered by the superintendents of public schools of this State and others. Among the arguments advanced, not already included in this report are:

1. Reduces the number of teachers required. (Duxbury now has five one-room buildings each with four grades and average enrolment of twenty-seven pupils to each school. If the pupils were carried to a central school, one less teacher would be needed for the regular work, thus freeing a teacher to deal with the retarded children who have been mentioned above.)

2. Encourages the teacher to become a subject or grade specialist. No teacher today can qualify herself to teach three or four grades as well as she could one grade. The pupils lose by this lack of specialization.
3. Is usually followed by a greatly enriched course of study. (The meagreness of the subject matter offered in the Duxbury grades is not due to lack of ability on the part of the teachers, but to the little time that can be given to each grade.)
4. Makes more efficient supervision possible because superintendent and supervisor can spend more time with the teachers and less on the road. (This is particularly true of Duxbury in that she shares the services of her superintendent with two other towns and thereby has inadequate supervision at the best.)
5. Allows for a proper division of time between study and recitation, and between individual and group work. (The teachers in the Duxbury schools can give no attention to individual pupils, which fact partly accounts for the excessive amount of retardation.)

Massachusetts has been a pioneer state in consolidation of schools, and today about half of the towns under 10,000 population have all or nearly all their pupils in a central school. The following figures show the growth of this movement in Massachusetts.\*

Year	Number of Towns Transporting	Amount Spent for Transportation
1913-14	325	\$426,274.11
1918-19	333	666,772.63
1923-24	339	1,291,702.53

In five years the amount spent for the transportation of school children in Massachusetts has almost doubled. The explanation lies in the fact that the towns commencing consolidation are rapidly uniting all their schools in one central plant.

#### Possible Objections to a Consolidated School

Duxbury is now transporting 112 pupils in a total enrolment of 301 at a cost of \$6,317 per annum. The town is paying 31c per capita for pupils transported

\*Report of Committee on School Transportation Problems in Massachusetts, April 29, 1925.

while the average cost in the State is 19c. With a re-organization of the routing to carry all the pupils to one central school, larger busses, and the unusually good roads, Duxbury should be able to carry all the pupils outside walking distance of a central school at no greater cost than at present.

The objection to the pupils being away from home all day does not hold in Duxbury for practically every pupil in the public schools carries his lunch and in many cases, probably most cases, the children would be carried as quickly from home to the central school and back again as at present. After the children are in the bus a distance of two or three miles further would make no appreciable difference in time.

The following data taken from the Massachusetts study\* summarized give the conditions of transportation service in this State:

1. Children are carried from less than two to more than six miles, with an average of 3.7 miles for primary children.
2. Few pupils are on the road more than 30 minutes, with an average of 29 pupils for all towns.
3. Busses carry from 26 to 29 pupils.
4. The trend is toward private ownership of busses. A few towns own their busses and report favorably on this plan.
5. Usually children are in care of the driver, but in a few localities a senior high school boy or girl is put in charge.
6. It is recommended that contracts be made with drivers so that both they and the school authorities may know their obligations.
7. A closed car with stationary top and windows, a seat for every child carried, a door controlled by the driver, steps low enough for small children, and some provision to keep the children warm in winter are recommended.

\*Report of Committee on School Transportation Problems in Massachusetts, April 29, 1925.

Detailed instructions and discussions may be found in the report from which this is summarized and may be secured from the Department of Education.

### **The 6-6 Type of School Organization**

This type of school organization divides the school system into six years of elementary and six years of secondary or high-school work.

The six-year high school may be defined as a school adapted to the needs of pupils approximating 12 to 18 years of age, organized as a single administrative unit, with one principal, one faculty, and one student body. A separate organization for the first three years of the secondary work is known as the junior high school. This type is preferable for the larger towns and cities, but for the smaller towns the six-year high school is more serviceable. All of the essential features of the junior high school may be embodied in the six-year type, with the added advantage that the transition from elementary to secondary work is made with less difficulty.

The first three years of the secondary unit should primarily serve as a transition period to bridge the gap between the difference in aims, methods, and organization of the elementary and the high school. It should also recognize the development of the adolescent period, with its attendant changes in mental, physical, and social interests, and make suitable provision for each.

For Duxbury this type of organization is economical because certain units of the plant and some equipment could be used by all grades. Gymnasium facilities, the auditorium, shops and special rooms, such as art, science, and domestic science, need not be separate for the different grades. On the other hand, if a separate elementary, three-year junior high school, or three-year high school were planned, it would mean either that an expensive duplication would be necessary or else that certain phases of a modern program for children would be omitted or seriously reduced.

## The Location of the Central School Plant

The most important considerations in selecting a building site are size and suitability. It should have ample space for physical education and should provide room for separate baseball, volley ball, basket ball, and hockey fields for boys and for girls as well as a football field and tennis courts. There should also be trees, shrubbery, and school gardens.

There should be sufficient room for the building to be properly orientated and for expansion without encroaching on playgrounds or land used for other school purposes.

The site should be preferably rectangular in shape with sufficient space for playgrounds for the pupils of the elementary classes separate from those of the high school pupils. The land should be free from surface drainage, and of such a nature as to drain rapidly, and permit the athletic fields to dry quickly. The site should be sufficiently commanding to give the building a setting in keeping with its cost and importance. Not less than fifteen acres will suffice for the uses of a modern public school plant of this nature.

Another important consideration in selecting a site is accessibility. It is important because the school is rapidly becoming the heart of the community. Its facilities are being used by the adult members of the community. Among the services of the public school to adults, for which an accessible location is necessary may be included:

1. The auditorium for public gatherings, lectures, moving pictures, entertainments, and recreations.
2. The gymnasium for instruction in physical training, for indoor sports, and physical welfare.
3. The shower baths for general community use.
4. The domestic arts laboratory for classes of the women of the community.

5. The workshops for evening classes in woodworking, automobile engineering and the like for the men of the town.

Whatever site is selected, the necessity of transporting some children remains. If a site accessible both from the point of view of community uses and walking distances for children can be secured at a reasonable price it is advisable. Proximity to other community interests is desirable if other more significant factors of size and suitability are not sacrificed. Centrality of location, however, may be sacrificed for adequacy and surroundings. Size, topography, drainage, and freedom from noise and danger are of more importance than centrality of location.

### Population and School Enrolment

Duxbury decreased in population from 1900 to 1920, but during the past five years had an increase that exactly equals the loss of the previous ten years.

Year	Population
1900	2,075
1910	1,688
1920	1,553
1925	1,688

Duxbury, as part of a Greater Boston, with improved schools may expect to get a share of the increase in population, but since the town is almost entirely a residential community with no important industries rapid increase in population may not be expected.

The following data taken from the annual report of the School Committee of Duxbury show the enrolments for the past five years by grades and by buildings.

Table VII—Membership of Duxbury, Massachusetts Schools by Grades

Year	Elementary Grades								Total	High School	Total
	1	2	3	4	5	6	7	8			
1921	39	26	27	27	26	37	31	21	234	71	305
1922	33	34	22	30	30	32	31	26	238	69	307
1923	33	26	29	24	29	32	29	30	232	76	308
1924	41	33	28	34	24	30	30	25	245	75	320
1925*	37	38	36	22	42	28	29	29	261	73	334

\*The figures for 1925 represent the total enrolment to date. The figures for the other years are the average daily attendance. The totals for 1925 should be reduced about 10% to make them conform to the other years. There is a smaller enrolment this year than in previous years.

Table VIII—Membership of Duxbury, Massachusetts Schools by Schools

Schools	1921	1922	1923	1924	1925
High School	71	69	76	75	73
Village Grammar and Intermediate	70	73	69	63	72
Tarkiln Grammar	22	20	25	23	26
Tarkiln Intermediate	23	26	35	33	38
Tarkiln Primary	36	27	37	34	34
Millbrook	23	23	22	29	29
Point	17	17	16	20	21
South Duxbury	24	29	24	24	25
Ashdod	20	13	14	19	17
Total	305	307	308	320	334

During the last five years the total school membership has been but little over 300. It is probable that this will increase only slightly during the next few years.

### The Building Needed

School administrators generally agree that this number of pupils can best be housed in a single building. This would mean, for Duxbury, an enrolment for grades 1-6 of 203, and for grades 7-12 of 131. A building to house this organization should be, preferably, of the T type of construction, with the six elementary grades occupying one wing, the secondary school the other wing, and the heating plant and auditorium-gymnasium outside at the center. This will permit the two divisions of the school

to have separate playgrounds with exits from the building directly upon them.

The building should not exceed two stories in height and should contain one recitation room for each elementary grade, a room for the special teacher of retarded children, a principal's office, a rest room for the teachers, a suite of three rooms for the nurse, physician, and dentist, shower baths, and a sufficient number of rooms for the classes and activities of the high school. Toilets should be placed on each floor. Since Duxbury has no satisfactory hall for public gatherings, the auditorium should be made sufficiently large to be used for this purpose.

The school building is a work shop designed for certain definite uses. The number of rooms necessary to house a school adequately depends upon the nature of the school organization and program and this should be determined as definitely as possible. When the architect is selected he should plan the building in consultation with an expert on school buildings and school administration.\*

\*The report of the Committee on School House Planning, Frank Irving Cooper, Chairman, published by the National Educational Association, Washington, D. C., 1925, is one of the most valuable contributions to this field.

## VIII

*The financial condition of Duxbury makes possible a modern school plant.*

In any plan for the betterment of the public schools of Duxbury the ability of the town to tax itself further must be considered. It is the purpose of this section of the report to study the financial condition of Duxbury from the points of view of (1) the financial resources of the town, and (2) the present demands upon these resources.

### The Resources of Duxbury

The assessed valuation for 1925 is \$5,034,132. This valuation is exceeded by that of only one town in Massachusetts under 2200 population and maintaining a high school. If the assessed valuation may be taken as an index to the wealth of Duxbury the following table shows a consistent rate of increase during the past six years.

Year	Valuation*
1920	\$4,232,581
1921	4,352,861
1922	4,465,765
1923	4,637,631
1925	.....
1924	5,034,132

The State Director of Accounts estimates the assessed valuation for 1926 at approximately \$6,000,000. Of the 230 towns and cities in the State maintaining high schools only eight have a higher per capita valuation for pupils in average daily attendance. That for Duxbury is \$15,356, while half the towns and cities of Massachusetts have a per capita valuation in average daily attendance of less than \$6,332. This high valuation per pupil is

\*All except the 1925 figure from the State Department of Education Reports.

due to the large number of summer estates in the town. One-half the homes are owned by people who occupy their houses only in the summer and whose children do not attend Duxbury schools. As far as ability alone is concerned Duxbury, therefore, is better able to support public education than nearly all other towns of the State.

### The Demands Upon These Resources

The local tax rate in Duxbury is considerably below the average for the State. The tax rate for the past six years on \$1,000 valuation, together with the rank among the 117 towns in the State with less than 5,000 population maintaining high schools, is as follows:

Year	Tax*	Rank*
1920	\$24.50	58
1921	20.00	96
1922	22.80	90
1923	19.50	108
1924	22.00	..
1925	22.80	..

From these figures it will be seen that there is no trend upward in the tax rate during the last few years. The average tax rate for the group of towns referred to above is \$26.50.

The present indebtedness of Duxbury is \$30,000 payable serially during the next five years. This money has been borrowed for improving the highways but since the town is now well covered by good roads the expenditure for this purpose should decrease.

### Duxbury Can Increase Her School Expenditure

The following table comparing the financial status of Duxbury with 51 communities of less than 5,000 population in the United States\*\* shows the splendid financial condition of the town.

	51 Communities	Duxbury
Average municipal bonded indebtedness (including school bonds),	\$206,646.00	\$30,000.00
Average school bonded indebtedness,	106,867.00	.....
School bonded indebtedness per pupil,	116.07	.....
Municipal bonded indebtedness per capita (1920),	53.62	17.00

\*Figures from the State Department of Education reports.

\*\*Research Bulletin of National Education Association, Vol. II, No. 2.

The following data from the State Director of Accounts give an estimated borrowing capacity of Duxbury, with tax levy and interest charges on long and short term bonds:

Estimated borrowing capacity within the debt limit, January 1, 1926,	\$139,000.00
Bond issue of \$125,000, payable in 5 years, and a school levy of \$25,000 would affect the tax levy,	4.50
Bond issue of \$125,000, payable in 5 years, and a school levy of \$20,000 would affect the tax levy,	4.00
Bond issue of \$130,000, payable in 5 years would affect the tax levy of 1927,	6.00
Bond issue of \$130,000, payable in 10 years would affect the tax levy in 1927,	3.50

#### Interest Costs:

On bond issue of \$130,000, payable in 5 years,	\$15,600.00
On bond issue of \$130,000, payable in 10 years,	28,600.00
On bond issue of \$130,000, payable in 15 years,	41,600.00
On bond issue of \$130,000, payable in 20 years,	54,600.00

If Duxbury were to borrow \$130,000 payable in five years her tax rate even then would not be higher than the average rate in Massachusetts in towns of less than 5000 population. The great differences in interest cost on long as compared with short term bonds make clear that bonds should be paid off as rapidly as possible.

---

### SUMMARY

Duxbury is one of the wealthiest towns in the State per capita of school population. Her assessed valuation is steadily increasing. She has a small indebtedness but the demands upon her income aside from school purposes should not increase. The tax rate is low. The school tax rate is low. She can afford to tax herself to pay in a short time for a new school building.

THE SECOND VOLUME.

THE HISTORY OF THE

REIGN OF

CHARLES THE FIRST

## TO THE CITIZENS OF DUXBURY:

Herewith is a picture and the floor plans of a school building that complies with the recommendations of the Massachusetts Department of Education as expressed by Mr. A. B. Lord, with the recommendations of Professor C. Emanuel Ekstrom of Brown University and the recommendations of S. F. Browne with the advice and approval of Professor L. O. Cummings of the Harvard Graduate School of Education. They are unanimous in recommending a centralized school. Mr. Browne omits the alternative of a building in the western part of the town. Advice from such distinguished sources I do not feel competent to disregard. Having called in the "Doctor" let us take his medicine.

The architects estimate the cost of this	
12 Grade Building, 328+ Scholars, "all	
trades",	\$127,120.00
Furnishings and Equipment,	12,712.00
Architects Fees,	7,627.20
Add Cost of Land as per committee report,	3,000.00
<hr/>	
Total Estimated Cost Ready for Use,	\$150,459.20

Another plan including a detail of Professor Ekstrom's recommendations is in preparation. None of the so-called "plans" submitted are more than suggestions to show something of what can be done.

No obligation attaches to the Town to employ the architects who made them. All obligation of the Town to them is cancelled with the payment of their bill from the committee's appropriation.

The "National Education Association," Committee on School House Planning of which Frank Irving Cooper is chairman, has established the following percentages into which the floor area of a school building should be divided.

Walls and Partitions, not over	10 %
Flues, Heating, Ventilating, etc., not over	3 %
Stairs and Corridors, not over	20 %
Accessories, not over	1 %
Administration, not over	16 %
Instruction, not less than	50 %

### Financing the Cost

This is covered in Mr. Browne's report. Director of Accounts Waddell suggests we might raise \$25,000 in the tax levy of 1926 and a similar amount for each of five following years. This is a little more than the average for the last eight years spent on roads. It would absorb \$4.50 of our tax rate but would save us about \$40,000 interest charge.

None of the so-called "plans" submitted is more than a suggestion to show something of what can be done.

The Assessors value the land and buildings of the School Department at \$20,850; the School Committee at \$13,500, it seems reasonable to expect to realize the assessed value at least, although some of the sites may revert to the grantor. Mr. George P. Fogg of R. L. Day & Co. expects we could sell a 4¼% Bond, and possibly even a 4%.

### Transportation

The possible operation of coaches by the New England Transportation Co. may greatly increase this service and lessen its cost, as school children are entitled to reduced rates. For the northern and western part of the town the same type of coaches equipped with every safety device, lighted and heated when necessary, may be employed over the main routes. Those pupils living off the main routes might be given a per diem allowance for transportation to enable them to use private conveyance, as is done in Delaware.

The increased number of pupils to be transported to a

central school may make it possible to provide one coach for older pupils and another for the younger. Thus the younger would be carried home immediately they are dismissed without waiting for the older, another advantage of consolidation. All statistics show pupils transported are more regular in attendance, less frequently tardy than those who walk.

At Chazy, New York, eleven districts were consolidated. Fifteen vehicles are used for 361 scholars. The Chazy school is a remarkable institution.

In Pennsylvania in the open country, twenty-one one-room schools were consolidated into a **twenty-four room** building and out of 700 pupils more than 500 are being transported.

All children living half a mile or more from school should be entitled to transportation and teachers, also.

### Community Use Auditorium

"The full possibilities of the auditorium as a socializing and community factor are just being realized".—(William B. Ittner.)

"They have brought men and women together in genial and congenial social relationships. They have made the **school house** the natural meeting place for old as well as young. Where the people can come together for play, for study, for work, without regard to *sectarian, political or vocational distinction*."

"The school as this sort of a community center is being developed today in literally thousands of American neighborhoods. Think what a transforming influence it might become if such a headquarters were brought within the reach of the more than a million of white native born American citizens who admitted in the last census that they had no schooling whatever or to the fifty per cent. of our people as a whole, who have never gone beyond the sixth grade in education.

Read the story of Eyota, Minnesota, of Whitmell, Vir-

ginia, and Orange Township, Iowa, the latter "Rural School Leaflet No. 30, U. S. Bureau of Education, Washington, D. C."

"It is to the school auditorium that one must look for passive entertainment that will finally override the cheap, tawdry and sensational forms."—W. B. I.

### **Retardation or Over-Aged Pupils**

While the large number of over-aged pupils in the grade schools shown by Mr. Browne's survey does not necessarily mean they are **mentally retarded**, we should give them now an opportunity to take their proper places in the school system by the employment of an extra teacher to give their personal requirements her exclusive consideration.

Their backwardness in all probability is due to the lack of such personal attention, impossible for a teacher with four grades to give, and the failure of the voters to heed the advice of their school committee and the superintendent of schools for the past eight years.

The Massachusetts Department of Education is very doubtful if there are anywhere near ten scholars in Duxbury three or more years mentally retarded. The Department of Mental Diseases has already covered a considerable portion of the State and found few towns, if any, the size of Duxbury with ten such children.

Any new school building should include a room and teacher for the individual needs of such scholars.

DISTRIBUTION OF PUPILS NOW AND AS UNDER  
8 GRADE PLAN

---

Village, 5, 6, 7, 8, Grades—36 walk to school—24 ride.  
Tarkiln, 5, 6, 7, 8, Grades—25 walk to school—31 ride.  
ride.

Village, 57% live near enough to walk.

Tarkiln, 44 6/10% live near enough to walk.

Eight Grade School will have of 1925 Enrollment

Grades				High			
5	6	7	8	1	2	3	4
25	29	34	26	21	18	17	14=184

for nine teachers, including principal.

Pupils, or an average of 20 4/10 pupils per teacher

There will be left at Village Grammar 0.

There will be left at Village Intermediate 0.

There will be left at Tarkiln Intermediate 10.

There will be left at Tarkiln Grammar 0.

There will be left at Tarkiln Primary, 17 who walk, and  
17 carried there.

Total of 34, + 10 of Intermediate.

As 17, or more than half of the 33 Tarkiln Intermediate  
ride, it seems fair to assume that of the 10 left one-half  
ride, which would leave only five (5) who walk, which  
added to the 17 Primary who walk, makes a total of 22  
children who walk to the Tarkiln school, divided by  
grades.

9 First; 3 Second for one teacher.

5 Third; 5 Fourth for one teacher.

In other words of the 90 pupils attending the three  
Tarkiln schools, 46 will be transported to the Eight Grade  
school, leaving only 44 pupils of whom 22 are carried to  
Tarkiln.

If the 19 pupils at Ashdod are transported to Tarkiln, the result would be (two grades to a room).

1st 28 of whom 19 would be transported

2nd 11 of whom 8 would be transported  
39 pupils per teacher.

3rd 10 of whom 5 would be transported

4th 14 of whom 9 would be transported  
24 pupils per teacher.

---

Total 63 of whom 41 would be transported

Abolishing the Ashdod school (and it ought to be) will release a teacher at,

\$900 00

Will release 1/9 Janitor service,

193 33

1/9 Fuel,

134 45

1/9 Miscellaneous,

24 57

1/9 Repairs,

161 35

---

Total saving not counting extra transportation, \$1,403 70

Transporting 19 Ashods at \$56.40 aver. cost, 1,071 60

Net saving in dollars,

\$332 10

A very great saving in children, and complies with vote of committee establishing a Eight Grade school. "Two grades to a teacher so far as it is possible."

To give the children of the South Duxbury, Millbrook and Point Schools the benefit of two grades to a teacher, it is possible to consolidate the first four grades at the grammar school building in the Village as follows:

	Point	Millbrook	Total	
First Grade from South Duxbury	4	3	6	13 }
Second Grade from South Duxbury	8	6	8	22 }
Third Grade from South Duxbury	6	7	5	18 }
Fourth Grade from South Duxbury	6	4	10	20 }
				35
				38

This will enable two teachers to do the work of three at present and give teachers and pupils the benefit of

only two grades each teacher, as well as the better equipped building, etc. Some extra transportation will be required beyond the 12 now carried, but some who now ride may be able to walk and equalize the cost of transportation.

The savings will be one teacher at	\$1,000.00
3/9 of Janitor Service,	549.99
3/9 of Fuel Bill,	403.35
3/9 Miscellaneous,	73.71
3/9 Repairs,	484.05

---

Total savings in dollars,	\$2,511.10
---------------------------	------------

At Village,	\$2,511.10
At Tarkiln,	332.10

---

\$2,843.20

or about half the interest charge for the cost of new school.

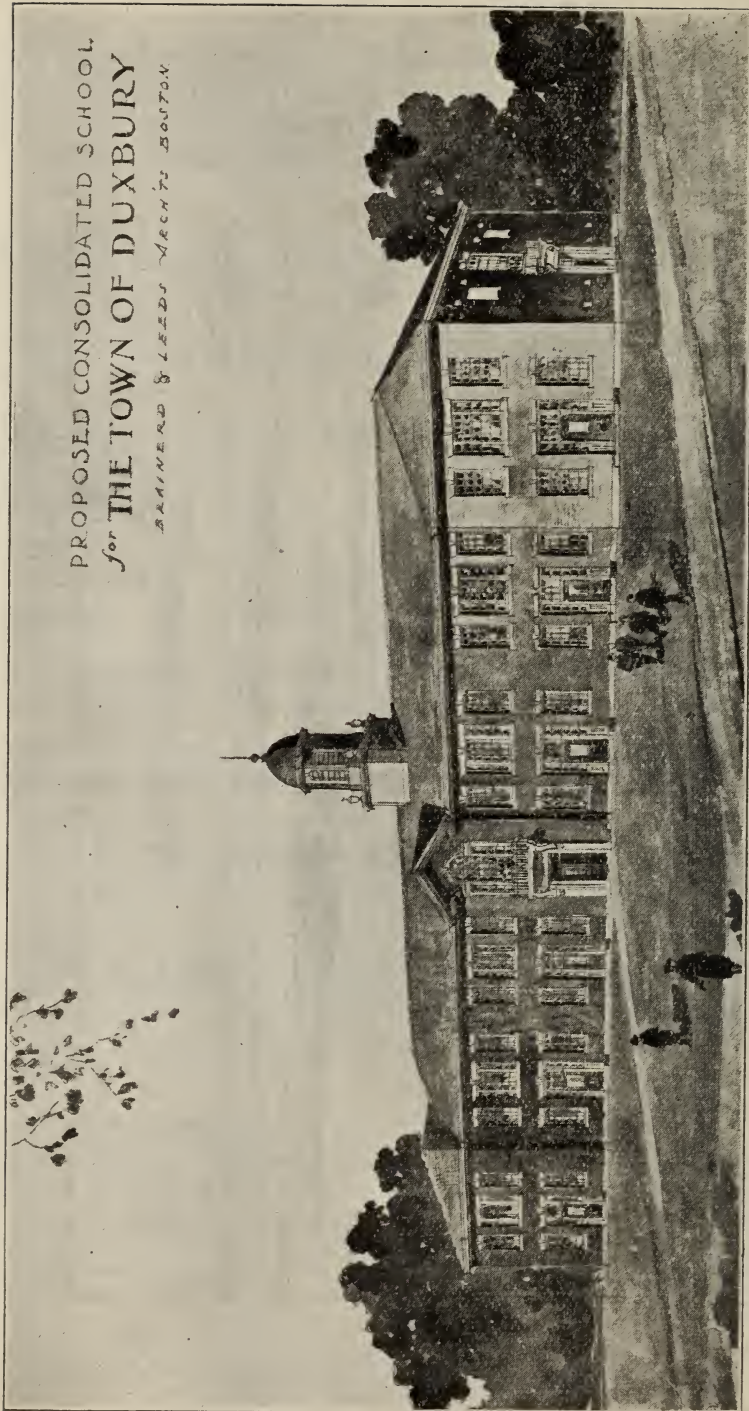

Rather than release two teachers, it would be better to reduce the numbers in the first four grades by selecting those capable of advanced work and giving them to one of the teachers and those retarded to the other, that each small group might have the benefit of personal attention by the teacher.

Above was written before 14 members accepted it as a basis for their unanimity. It is recommended only in connection with a possible 8 grade building.

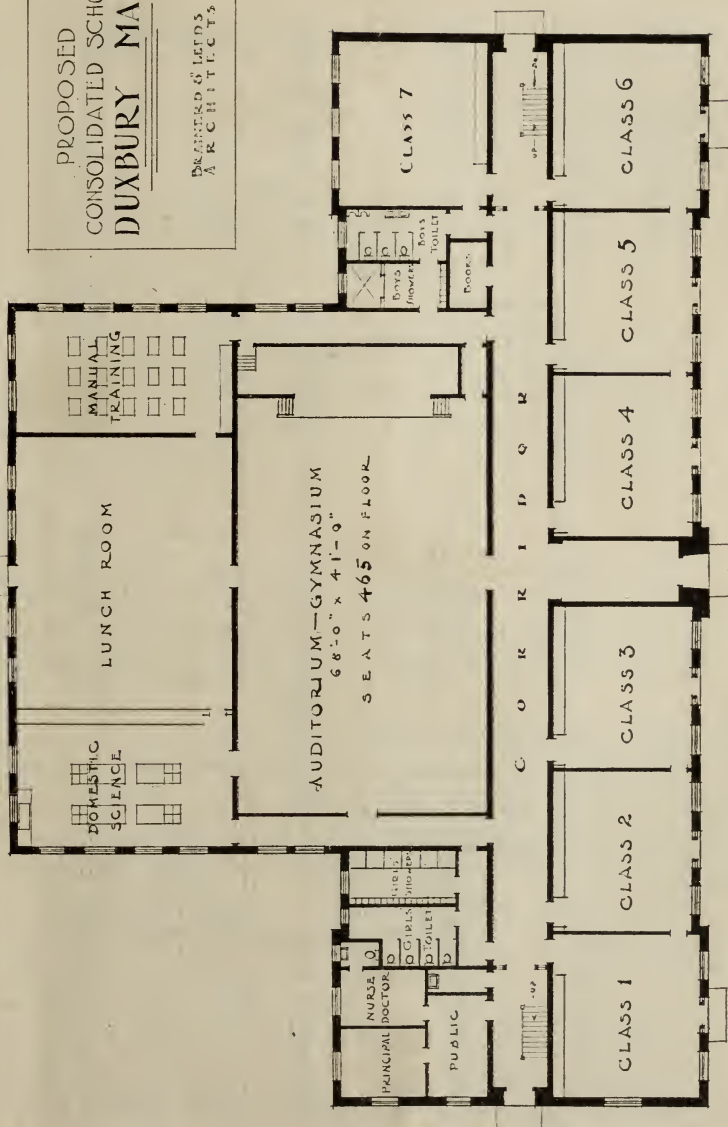

PROPOSED CONSOLIDATED SCHOOL  
for THE TOWN OF DUXBURY

BRAINERD & LEEDS ARCHTS BOSTON

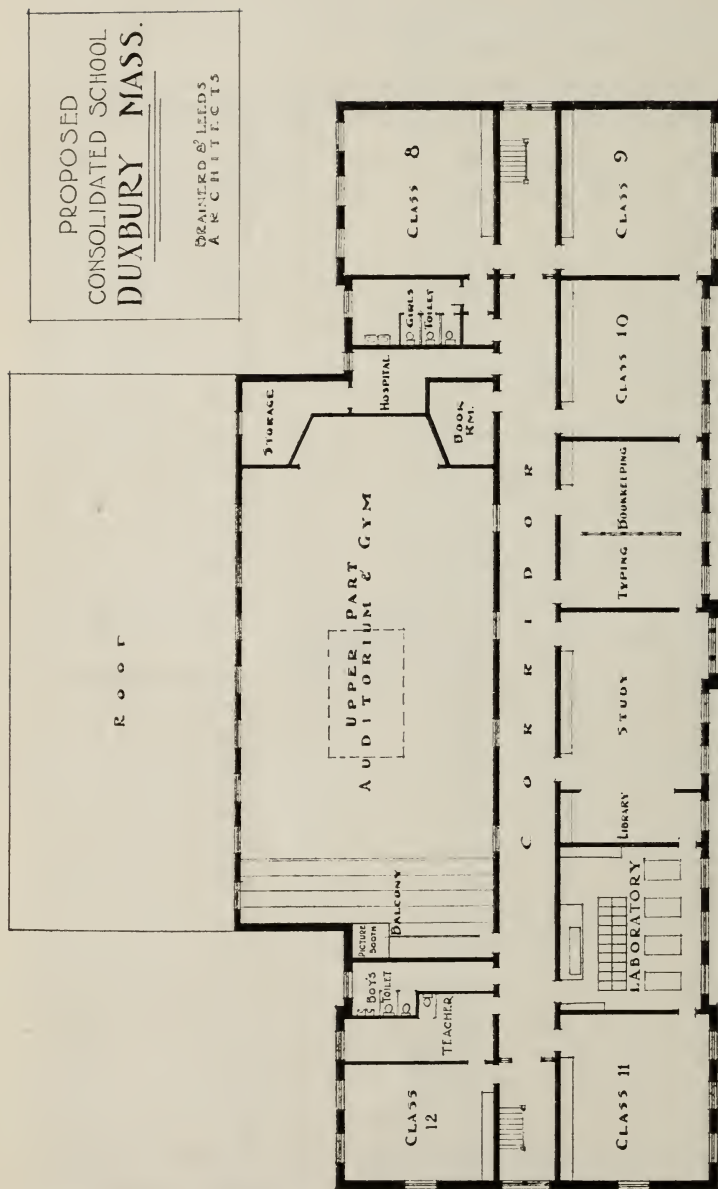

PROPOSED  
CONSOLIDATED SCHOOL  
DUXBURY MASS

DRAWN BY D. G. LEEDS  
ARCHITECT

FIRST FLOOR PLAN  
Scale 1/8" = 1'-0"

SECOND FLOOR PLAN

SCALE  $\frac{1}{8}" = 1'-0"$

This building follows closely Professor Ekstrom's recommendation as follows:

1. On the first floor:

"An elementary school building to house all the children of the Town in grades 1 to 6. Six class rooms each to seat between 35 and 40 pupils, with possibly a smaller room to seat 20 to 25, would suffice. There should be included an assembly hall, a play room, a library, a principal's office and teachers' rest rooms. Toilet facilities should be provided on the ground floor, not in the basement, where proper ventilation and cleanliness is not possible."

*"The educational advantages are without question on the side of the single larger school, one grade to a room, a special room for those who learn slowly, specialiation of work by the teachers. These desirable features are more possible in a school of 200 than in one of 100 pupils."*

2. On the second floor:

"A junior-senior, or six year, high school (be erected) to provide for grades 7 to 12; that is the present 7th and 8th grades and the present four high school years."

3. "A plan such as I have outlined—a six year high school for the whole town, located near the center of population, and one or two six year elementary schools, would give the children of Duxbury the sort of educational facilities *to which they are entitled if they are expected to compete with other children who get their start in life in schools of this kind.* A rough estimate would put the cost of these buildings (apart from the land) at about \$150,000."

"A patchwork plan of remodelling the present buildings or adding to them, would cost but a few thousand dollars less if made to provide the features needed, and

would produce a school plant that would again be obsolete in the course of a few years."

Mr. Leeds has authorized the statement that everything he said in regard to the specifications and details of construction of the building he designed for the 8 grade plan applies in every respect to the 12 grade or consolidated plan presented herewith.

Parents please note on this plan the separate outside entrance to each of the first six grade class rooms. This is considered the best safeguard that can be provided for your child in case of fire or accident in school buildings of the class of construction proposed for either the 8 grade or this 12 grade building. It enables each class to come and go by itself at any time without mixing with or disturbing another class. It keeps the first 6 grades separate and apart from the 3-3 junior-senior high school scholars, which Professor Ekstrom pronounced a very desirable thing to do.

All of the plans are susceptible of material changes of details. They only go to show that a building such as has been recommended can be provided with the means we have at hand.

The elevation or picture of the 12 grade building is not as pleasing, perhaps, as that of the 8 grade building. Changes of detail of this description are easily made and are expected.

For instance the Auditorium Gymnasium as shown on the 8 grade building could be used with the main 12 grade building.

Another set of plans, covering Professor Ekstrom's recommendation for separate buildings for the grade and the high schools is in preparation. It will have the distinct advantage of three units, any one of which can be erected separately without reference to the others. That is, the 6 grade elementary school could be erected one year, the high school the next year and the auditorium the third year or even later.

The first investment would be about 1-3 with consequent reduction in interest, and the additional time might permit of desirable features being worked into the plan, and with less haste in construction the character of the work might be better.

---

### PARTRIDGE ACADEMY

As soon as this building can be released by the High School it should be put in order for use by special classes with the co-operation of the Trustees of the Fund left by George Partridge for the higher education of Duxbury youth.

First year college course might be given to a few pupils of the senior high school class if they showed special aptitude.

The University Extension Course of the Mass. Department of Education could be made especially valuable as well as Vocational Continuation and Americanization classes. With this beautiful building maintained by the town the Trustees and the School Committee in co-operation an institution of very great educational value can be provided, not only for the youth of Duxbury but for every resident, young or old.

Let every reader understand neither the plans presented nor the recommendations made are original with the writer. They embody the advice of the three experts your Committee employed to provide the town with the best, and they coincide with the advice of such well-known educators as Angelo Patri, George D. Strayer, John H. Odell and such eminent school architects as William B. Ittner of St. Louis, W. R. McCornack of Cleveland, Ohio, James O. Bettelle of Newark, N. J., to all of whom and to the many others who have been good enough to comply with the writer's request

for information, he hereby publicly acknowledges his obligation and gratitude.

To any of you who seek first-hand information, I am sure Mr. J. C. Boykin, Chief, Editorial Division, Bureau of Education, Washington, D. C., will be glad to send Rural School leaflets, Numbers 4, 9, 13, 19, 22, 23, 29, 30, 31, 34, 36, 38 and bulletin 1923 No. 39, bulletin 1925, Numbers 22 and 25.

Respectfully submitted,

CHARLES S. CLARK.

20th February, 1926.

REPORT of JOINT COMMITTEE

ON

SCHOOL BUILDINGS

Town of Duxbury

# REPORT OF JOINT COMMISSION ON SCHOOL BUILDINGS

---

To the Voters of Duxbury:

The joint committee, composed of the Selectmen and the School Committee, respectfully submit the following report:

We have considered carefully the present condition of the schools in Duxbury, and find that the grade schools, particularly the village grammar school, and the three schools in Tarkiln are very much crowded, so that school work is hampered and sanitary conditions are far below what they should be. Some improvement that will give more schoolroom space and more adequate recreation facilities should be provided at the earliest possible moment.

If any change is to be made, we believe that the school system should be reorganized into a six grade elementary school and a six-grade junior-senior high school. This plan of organization is meeting with increasing approval throughout Massachusetts. If we may judge from informal conversations with many persons in Duxbury, we believe that such reorganization will meet with hearty approval in this town.

Assuming that the Town will reorganize its schools on this basis, two building plans have presented themselves. The first plan is one of complete consolidation of all schools into one building, which will house all grades from the first through the senior high school. The other plan contemplates the enlarging of the Tarkiln grammar school and the village grammar school so as to accommodate six grades in each building, two grades to a room, and the building of a central high school building to accommodate a six-grade junior-senior high school. The committee has held two public hearings, and has tried to learn through

personal contact with citizens as much of the public opinion as possible in regard to these two plans. We have made investigations of costs by consulting several architects of repute and by consultation with the State educational authorities at the State House. One member of the State Board has visited the town and inspected all of the schools and traversed the different sections of the Town thoroughly. After considering the matter from all points of view, we submit the following opinions:

---

### ONE-BUILDING PLAN

A building that would properly accommodate all of the pupils of the Town must have from twenty to twenty-four rooms, according to a prearranged plan of internal organization. There must be six standard schoolrooms for the elementary school, a combination hall and gymnasium, and sufficient high school rooms to accommodate the six classes in their various courses. There must be recreation and lunch rooms, and at least one retiring room for teachers, school physician, nurse, and for emergency purposes. If our schools were housed in one building, it must be remembered that a fire of any extent would entirely cripple our whole school organization until repairs could be made. It would seem right that such a building should be entirely fireproof in its construction. Such a building would cost at least \$200,000, apart from the cost of land, furnishings, and architect's fees. If a building should be partly of the second-class construction, with fireproof corridors and stairways, the lowest estimate is about \$160,000.

Complete consolidation is believed by many to be educationally the superior plan. It is probably true that the principle of one grade to a room to a teacher would have its advantages. It would be somewhat easier to secure teachers. It would give the school physician and nurse

more convenient access for health instruction and for emergency care, and the education of all the children in town in the same school would in time contribute to a greater community of interest. On the other hand, we believe that the fire hazard is a very real danger, and it would seem evident that the appearance in school of any epidemic would make it necessary to close the whole school at times when such would not be necessary under a plan of partial consolidation.

According to our best information, the operating costs of a consolidated school would be higher than the operating costs of three separate buildings. The cost of teachers would not be materially different. Janitor service would be more costly for one building than for three, because the law would require, for that size building, a licensed fireman who would be present in the building throughout every school day. The transportation costs would increase materially; an expert has estimated that this item would cost at least \$10,000 a year.

We find, moreover, that there is much objection on the part of parents to having younger children transported such a distance from home. Theoretically, we can understand the contention that if children are to be transported, the question of distance is not important, but in practice, many parents do object to this feature.

There is an added fact of considerable importance in connection with the cost of the one-building plan. The State law places a debt limit of the Town of 3 per cent. of its valuation. That law limits Duxbury to an indebtedness of approximately \$130,000, without special appeal to the Legislature. The present debt is about \$26,000, so that in order to raise the necessary money to build the one building, a special appeal must be made to the Legislature to increase our debt limit by approximately \$100,000.

The committee recognizes certain definite virtues in the

one-building plan, but does not believe that this plan is practicable for Duxbury from a standpoint of construction cost, operating cost or practical school operation.

---

### THREE-BUILDING PLAN

The grammar schools at Tarkiln can be used as a basis for a four-room school building with assembly room and retiring room. This would be accomplished by utilizing the space that is between the two buildings and building an addition across the present front without moving either building. The village grammar school lends itself in a somewhat different way to the same sort of enlargement. The cost of enlarging these two buildings is estimated at a maximum of \$30,000. A high school building to accommodate six grades of junior and senior high school would include the necessary classrooms, laboratories, recreation and retiring rooms and a hall gymnasium. Such a building offers more latitude in method of construction than is offered by a building large enough to accommodate all the pupils in town. The estimated cost of such a high school building can be conservatively stated as between \$50,000 and \$75,000, according to the style of construction. The committee would recommend the adoption of this plan, for the following reasons:

1. The immediate need of enlargement is in the grade schools. Our high school has a good reputation and, while we believe that the six grade high school plan should be adopted, the change to that plan need not be made this year. The enlargement of the elementary school buildings, as outlined above, provides room for eight grades in each building, two rooms to a grade. When the plan is changed to a six-grade plan, the additional space in each building will not be wasted.

2. We doubt that complete consolidation offers enough

educational advantage to justify the greater cost of construction and maintenance. Perhaps the majority of teachers and supervisors advocate the one grade per room principle, but we find enough advocates of the two grades to a room principle to make us believe that the results of this plan would be entirely adequate.

3. We believe that in case of fire or contagious disease, our children are better off housed in smaller buildings far enough apart so that in either case the whole school system will not be crippled.

4. We believe that there is greater justice to the smaller children of the Town if they are not transported so far from home, especially when weather and road conditions make transportation at its best very difficult.

5. We believe that the principle of educating all the children together will be adequately observed if complete consolidation begins at the seventh grade, when children are old enough to begin to form more profitable friendships.

6. We heartily agree that we want complete town unity, but we believe that there is a distinct unfairness in removing from the west side of the town all of their schools, so long as the residents of the west side desire to retain them. We believe, moreover, that in each district, such a school-house as we have planned may become a distinct advantage as a community center that will have the atmosphere of refinement and that will furnish to the people of the community a much more attractive opportunity for community life than can be furnished in any other way.

7. We believe that the cost of the three-building plan is within the reasonable limits of what the Town can finance, and we do not believe that the extra cost of the one-building plan, either on the side of construction or maintenance, is within the limits of what the Town can reasonably afford to raise.

## CONCLUSION

We therefore recommend that the Town raise and appropriate the amount of \$30,000 for the enlarging of the grammar schools at Tarkiln and Duxbury Village, and that the committee be authorized to secure plans and estimates for the most desirable form of high school building, such plans to be presented at the next annual Town Meeting.

Respectfully submitted,

RALPH K. BEARCE,  
ELIZABETH A. PHILLIPS,  
JOHN SIMMONS,  
SIDNEY C. SOULE,  
WENDELL PHILLIPS.

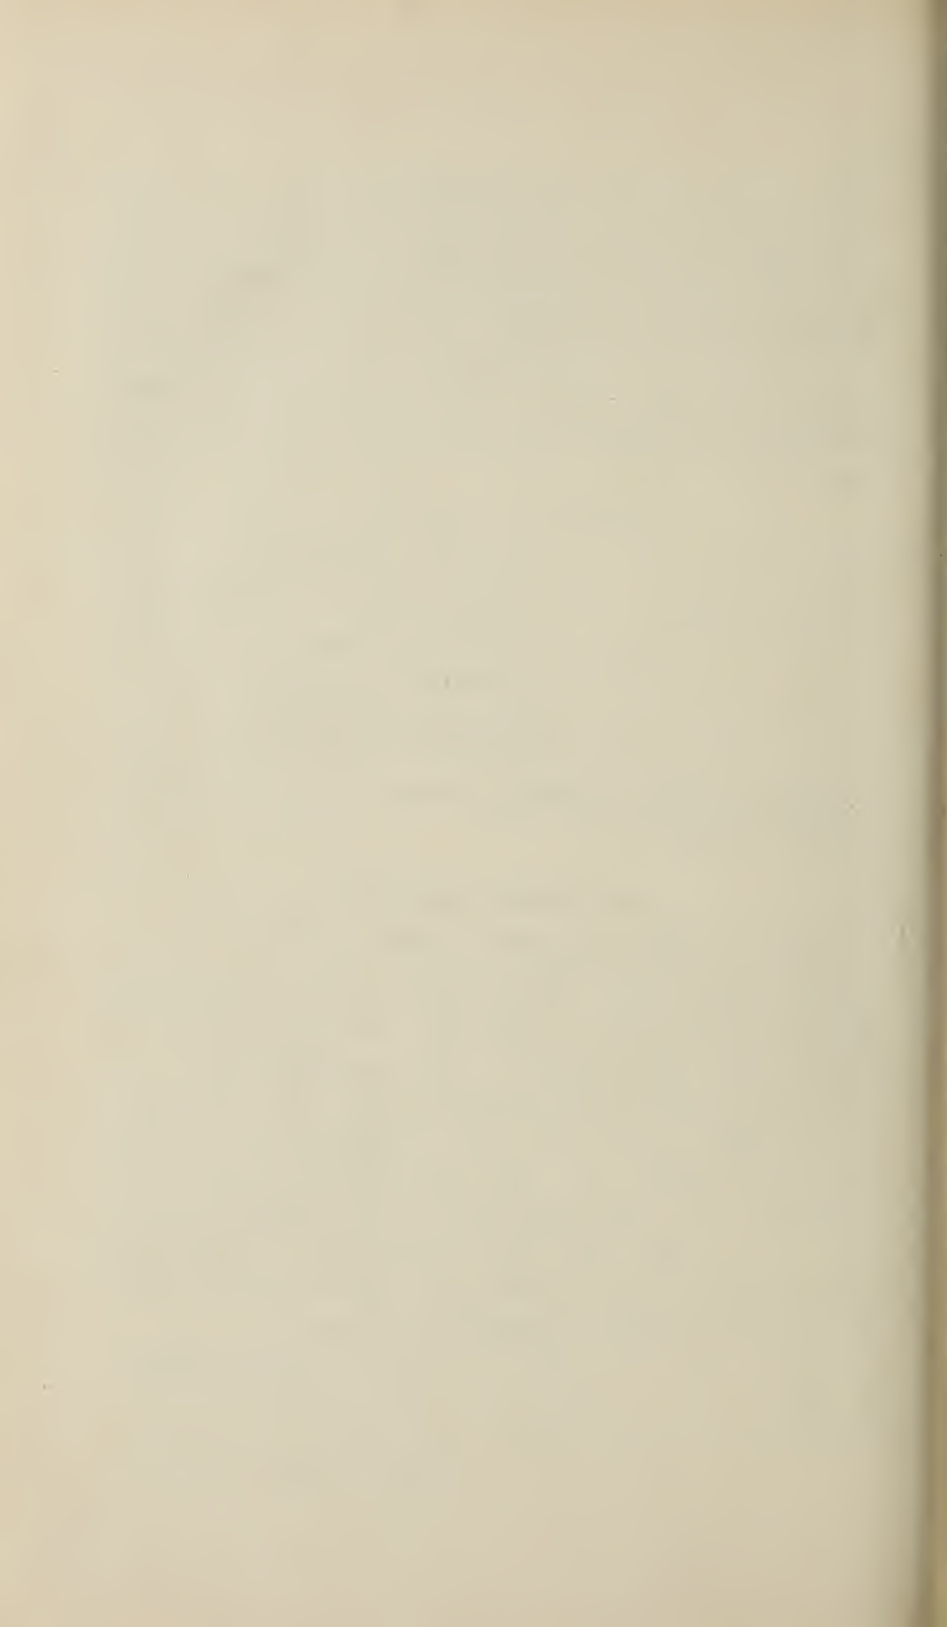

Alfred E. Green, dissenting, submits the following as a minority report:

## MINORITY REPORT

Herewith I submit minority report.

I am firmly of the belief, in view of the fact that the school population is no larger now than it has been for many years, that action on the reorganization of the school system can safely be delayed and that a schoolhouse can be built between the twin schoolhouses at Tarkiln which will remedy the evils complained of until a more propitious time. This makeshift, in my opinion, will answer the purpose for several years when we should be relieved of many tax burdens and be in a better position to meet the problem of education.

A. E. GREEN.

# Articles in the Warrant for the Annual Town Meeting *Saturday, March 12, 1921* With Recommendations of Selectmen

---

Article 5. Will the Town raise and appropriate a sum of money for the payment of bills remaining unpaid for the year 1920, and overdrafts in Police, Forest, Health and Snow Departments?

Art. 5. We recommend that the above Articles be voted.

Article 6. To raise and appropriate such sums of money as may be necessary to defray town charges.

Art. 6. We recommend that the following amounts be appropriated.

Resurfacing St. George and Washington Street loan, 1917,	\$800.00
Re-surfacing King Caesar Road loan, 1918,	1,200.00
Road Machinery loan, 1919,	1,000.00
Re-surfacing Washington Street, 1919,	1,000.00
Re-surfacing Columbus Ave. and Marshall Street, 1919,	2,200.00
Re-surfacing Chestnut, Toby Garden and Elm, etc., 1920,	6,000.00
Interest,	5,000.00
Gypsy and Brown Tail Moth,	1,693 03
State, County and Highway Tax, estimated,	21,000 00
Cemeteries,	1,500.00
Plymouth County Hospital,	10,610.50
Support of Schools,	25 000 00
Transportation of School Children,	4,000 00
Fire Protection,	400.00
Forest Warden,	500 00
Tree Warden,	100.00
Snow Removal,	1,000 00
Street Lighting,	1,569 00
Health Department,	1,000.00
Animal Inspection,	150.00
Inspection of Slaughtered Animals,	150 00
Charities,	6,000.00
Soldiers' and Sailors' Aid,	100 00
Town Physicians,	400.00

Selectmen,	1,200.00
Election and Registration,	350.00
Treasurer,	950.00
Collector of Taxes,	1,000.00
Assessors,	1,200.00
Law,	500.00
Town Office,	700.00
Town Clerk,	450.00
Accounting,	600.00
Police,	500.00
Scaler of Weights and Measures,	150.00
Bounties,	75.00
Unclassified,	1,300.00
Town Dump,	50.00
Highways, Bridges and Sidewalks,	7,000.00
Town Landing,	50.00

Article 7. Will the Town vote to apply the dividend from the Plymouth County Dog Fund to the Support of Schools?

Art. 7. We approve.

Article 8. Will the Town vote to raise and appropriate the sum of \$300, to be expended under the direction of William Wadsworth Post No. 165, G. A. R. for the observance of Memorial Day?

Art. 8. Approved.

Article 9. Will the Town vote that the Treasurer, with the approval of the Selectmen, be authorized to borrow money from time to time, in anticipation of revenue for the financial year beginning Jan. 1st, 1922, and to issue a note or notes therefor payable within one year, any debt or debts incurred under this vote to be paid from the revenue of said financial year.

Art. 9. Approved.

Article 10. To see if the Town will vote to authorize its Treasurer, with the approval of the Selectmen, to hire money to continue the Moth work from Dec. 1st, 1921, to March 1st, 1922.

Art. 10. Approved.

Article 11. To see if the Town will vote that the balance of the 1917 Overlay of Taxes \$684.35 be transferred to the Reserve Fund for the year 1921.

Art. 11. Approved.

Article 12. To see if the Town will vote to raise and appropriate a sum of money to repair the dyke at the Mattakesett Court Town Landing?

Art. 12. Approved.

Article 13. To see if the Town will vote to rescind the vote of March, 1920, whereby they voted to pay from fifty to sixty-two and one-half cents an hour for labor, and \$10 for man and double team?

Art. 13. Approved.

Article 14. To see if the Town will vote to raise and appropriate for the use of the Plymouth County Trustees for County Aid to Agriculture, a sum not exceeding \$200, and choose a town director, as provided in Chapter 273 of the Acts of 1918, and act thereon.

Art. 14. Disapproved.

Article 15. To see if the Town will vote to appropriate a sum of money for the completion of Toby Garden and Elm Streets, and authorize the Treasurer, with the approval of the Selectmen, to borrow any or all of said sum in anticipation of reimbursement by the State; or to take any action relative thereto.

Art. 15. Approved.

Article 16. To see if the Town will vote to raise and appropriate a sum of money to resurface with sand asphalt that portion of Powder Point Avenue from the residence of Mr. Phillips, easterly to Gurnet Bridge. (By petition.)

Art. 16. Approved.

Article 17. Will the Town vote to resurface with sand asphalt or crushed stone, Harrison Street and Mattakeesett Court, and appropriate money for same? (By petition.)

Art. 17. Disapproved.

Article 18. To see if the Town will vote to raise and appropriate a sum of money to build with sand asphalt on Crescent Street, beginning at Standish Street and continuing around the westerly side of Captain's Hill to a point called Allen's Gate. (By petition.)

Art. 18. Disapproved.

Article 19. Will the Town raise and appropriate \$1,000 to repair Temple Street and make fit for public travel, from barn on E. S. Stevens Estate northerly, by W. H. Hunt place to Mr. Gerrish's place? (By petition.)

Art. 19. Disapproved.

Article 20. Will the Town raise and appropriate a sum of money (\$1000 or more) to be expended during the season of 1921, in the construction of a permanent sidewalk along

the main thoroughfare between Duxbury Railroad station and South Duxbury station, via St. George, Washington and South Depot Streets, and designate the place of beginning and the materials to be used. (By petition).

Art. 20. Disapproved.

Article 21. To see if the Town will appoint a committee to consider the matter of laying out a highway leading from the southerly end of Columbus Avenue, southerly and westerly to Standish Street. (By petition).

Art. 21. Approved.

Article 22. What action, if any, will the Town take toward the removal or change in location of the stone watering trough at the junction of St. George, Cove, Washington Streets and Powder Point Avenue? (By petition).

Art. 22. We recommend the removal.

Article 23. To see if the Town will raise and appropriate the sum of \$575 for the Duxbury Free Library.

Art. 23. Disapproved.

Article 24. To see if the Town will accept an act of the Legislature (Chapter 153, Acts, of 1916) regarding the Slaughtering License Fee?

Art. 24. Approved.

Article 25. Will the Town raise and appropriate \$200 for improvement of the public playground at Train Field? Part of this money to be used to provide Swings and Parallel Bars for the children. This money to be expended under the direction of the Train Field Committee of the Duxbury Rural Society.

Art. 25. Disapproved.

Article 26. To see if the Town will vote to return to the Treasury the unexpended balances of North Street Repairs, Resurfacing Washington Street, Stone Road Repairs, Temple and Church Street Layout, Surveying Washington Street, Commission on Schools, Fire Protection at South Duxbury. Total amount, \$720.99.

Art. 26. Approved.

Article 27. To see if the Town will vote to accept the layout by the Selectmen on February 25, 1921, of the South side of Massasoit Road to supersede the layouts of 1907 and 1920.

Art. 27. Approved.

# Articles in the Warrant for the Annual Town Meeting *Saturday, March 11, 1922*

With Recommendations of Selectmen

---

Article 1. To choose a Moderator to preside in said meeting.

Article 2. To bring in their votes for three Selectmen for the term of one year, one Assessor for the term of three years, Three Overseers of the Poor for the term of one year, for Town Clerk for one year, for Town Treasurer for one year, for Tax Collector for one year, for Tree Warden for one year, for one person for the Board of Health for three years, for one School Committee for the term of three years, for one Cemetery Trustee for the term of five years, for three Constables for one year, for one Auditor for one year, all on one ballot. Also on the same ballot, Will the Town grant licenses for the sale of certain non-intoxicating beverages for the ensuing year? The vote to be "Yes" or "No" in answer to the question, Shall licenses be granted for the sale of certain non-intoxicating beverages in this town?

Polls will be open at 6 a. m. and may close at 11 a. m.

Article 3. What action will the Town take relative to the appointment of necessary officers not chosen by ballot?

Article 4. To hear the reports of the various Town Officers and Committees and act thereon.

Article 5. Will the Town raise and appropriate a sum of money for the payment of bills remaining unpaid in the various departments for the year 1921 and overdrafts in Police, Forest, Fire and Snow Departments?

Article 5. We recommend that these amounts be appropriated.

Article 6. To raise and appropriate such sums of money as will be necessary to defray Town charges.

Article 6. We recommend that the following amounts be appropriated:

Re-surfacing St. George and Washington Streets, loan, 1917,	\$800.00
Re-surfacing King Caesar road, loan, 1918,	1,200.00
Road Machinery, loan, 1919,	1,000.00
Re-surfacing Washington Street, loan, 1919,	1,000.00
Re-surfacing Columbus Avenue and Marshall Street, loan, 1919,	2,200.00
Re-surfacing Chestnut, Toby Garden and Elm Streets, loan, 1920,	6,000.00
Interest,	5,000.00
Gypsy and Brown Tail Moth,	1,741.11
State, County and Highway Tax, estimated,	21,000.00
Cemeteries,	1,500.00
Plymouth County Hospital,	1,439.47
Support of Schools, (together with all reimburse- ments received during the year, and the Dog Fund),	31,000.00
Fire Protection,	1,000.00
Forest Warden,	800.00
Trec Warden,	100.00
Snow Removal,	1,000.00
Street Lighting,	1,600.00
Health Department, (including vital statistics),	1,000.00
Animal Inspection Department,	150.00
Department of Inspection of Slaughtered Animals,	150.00
Charities,	6,000.00
Soldiers and Sailors Aid,	100.00
Town Physicians,	400.00
Repairs of Gurnet Bridge,	762.31
Selectmen's Department,	1,200.00
Election and Registration Department,	350.00
Treasurer's Department,	950.00
Collector of Taxes Department,	1,000.00
Assessor's Department,	1,200.00
Law Department,	500.00
Town Office and Hall,	1,000.00
Town Clerk's Department,	450.00
Accounting Department,	600.00
Police Department,	500.00
Department of Sealer of Weights and Measures,	150.00
Bounties on Hawks, Crows and Seals,	75.00
Unclassified Department,	1,300.00
Town Dump,	50.00
Highways, Bridges and Sidewalks (including new construction),	15,000.00
Town Landings,	50.00

Article 7. Will the Town vote to raise and appropriate the sum of \$300 to be expended under the direction of William Wadsworth Post No. 165, G. A. R. for the observance of Memorial Day?

Article 7. Approved.

Article 8. Will the Town vote that the Treasurer, with the approval of the Selectmen, be authorized to borrow money from time to time in anticipation of revenue for the financial year beginning January 1st, 1923, and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of said financial year?

Article 8. Approved.

Article 9. To see if the Town will vote to authorize its Treasurer with the approval of the Selectmen, to hire money to continue the Moth work from December 1st, 1922 to March 1st, 1923.

Article 9. Approved.

Article 10. To see if the Town will vote to raise and appropriate the sum of \$500 for a Reserve Fund for the year 1922.

Article 10. Approved.

Article 11. To see if the Town will vote to raise and appropriate for the use of the Plymouth County Trustees for County aid to Agriculture, a sum not exceeding \$200, and choose a town director, as provided in Chapter 273 of the Acts of 1918, and act thereon.

Article 11. Approved.

Article 12. To see if the Town will raise and appropriate a sum of money to resurface with sand asphalt that portion of Powder Point avenue from the residence of Mr. Phillips, easterly to Gurnet Bridge.

Article 13. To see if the Town will raise and appropriate a sum of money to resurface with sand asphalt or other suitable material, the road called Surplus street, beginning on the easterly end at Washington street to the westerly end which joins Depot street, and take any other action thereon. (By petition.)

Article 14. To see if the Town will build a sand or gravel asphalt road from the State Road at Island Creek Post Office over Park and Loring streets to Bay Road, and appropriate money for same. (By petition.)

Article 15. Will the Town raise and appropriate the sum of \$1,500 to fix and repair Temple street from Laurel street to Franklin street? (By petition.)

Article 16. Will the Town vote to re-surface Sunset road with sand asphalt and appropriate money for same? (By petition.)

Article 17. Will the Town appropriate \$1,000 for the repairs of that part of Standish street which leads southerly from the end of Marshall street?

Article 18. To see if the Town will raise and appropriate \$1,000 for repairs of the roads at Duxbury Beach.

Article 19. To see if the Town will take any action regarding building a Sea wall at Duxbury Beach between Webster Island and Hummock.

Article 19. Disapproved.

Article 20. To see what action the Town will take, if any, regarding changing the location of Town Landing and entrance thereto, northerly of premises of the late Captain Adams.

Article 20. Approved in part.

Article 21. To see if the Town will vote to instruct the Selectmen to lay out a Town Landing on the southerly side of Powder Point called Cedar Pond.

Article 21. Approved.

Article 22. To see if the Town will raise and appropriate \$1,000 for the Duxbury Free Library. *yes*

Article 22. Approved for \$500. — *\$1,000*

Article 23. To see what action the Town will take regarding discontinuing flagmen at Harrison and Surplus streets to be substituted by automatic signals.

Article 23. Disapproved.

Article 24. To see if the Town will vote to enlarge Mayflower Cemetery and raise and appropriate money for same, and take any other action thereon.

Article 24. Approved.

Article 25. Will the Town appropriate \$200 for a road index and plan, also file and index for same?

Article 25. Approved.

Article 26. Will the Town raise and appropriate \$300 to be spent by the Selectmen in establishing the bounds of town ways?

Article 26. Approved.

Article 27. Will the Town instruct the Selectmen to publish an opinion of the Town Counsel as to the rights and restrictions of the land owners, citizens, and others to the shore and Town Landings?

Article 27. Approved.

Article 28. To see if the Town will vote to raise and appropriate a sum of money for three electric lights at Island Creek, viz: Island Creek Depot, junction of Loring and Park streets, and junction of Loring street and Bay Road. (By petition.)

Article 28. Disapproved.

Article 29. To see if the Town will vote to raise and appropriate a sum of money for two electric lights on Chapel street. (By petition.)

Article 29. Disapproved.

Article 30. To see if the Town will vote to raise and appropriate a sum of money for five electric lights on Tremont street from St. George street to Alden street.

Article 30. Disapproved.

Article 31. To see if the Town will raise and appropriate a sum of money for electric lights on Columbus avenue, Standish Shore.

Article 31. Disapproved.

Article 32. To see if the Town will raise and appropriate a sum of money to purchase settees for the Town Hall.

Article 32. Approved.

Article 33. To see if the Town will raise and appropriate the sum of \$45.91 to refund Mr. Alfred E. Green for money paid out for street signs.

Article 33. Approved.

Article 34. To see if the Town will vote to raise and appropriate a sum not to exceed \$25 for one or more portfolios for the proper filing of blue prints, maps, etc., in the office of the Town Clerk.

Article 34. Approved.

Article 35. To see if the Town will authorize the Selectmen to appoint a Committee of Citizens to investigate and report at the next Town Meeting on the possibility of establishing a Town Forest, and to appropriate the sum of \$25 for the use of the Committee, for the purpose.

Article 35. Approved.

Article 36. To see if the Town will raise and appropriate the sum of \$1,000 for the Gypsy Moth Department.

Article 36. Approved.

Article 37. To see if the Town will vote to raise and appropriate the sum of \$1,500 for the purchase of two one-ton trucks for the Highway Department.

Article 37. Approved.

Article 38. To see if the Town will vote to instruct the Selectmen to widen the easterly end of Winsor street.

Article 38. Approved.

Article 39. To see if the Town will vote to instruct the Selectmen to sell the old school house lot at the corner of Chandler and Summer streets.

Article 39. Approved.
